### Will Not Stop Here

The airport committee of the Chamber of Commerce was informed yesterday that the West Coast Air Transport company will not consider Medford as a scheduled stop and will continue to make its landings at Montague, Cal. The company gives as reasons that the climb in and out of the valley encounters too much consumption of gasoline and that special arrangements for their landings were being completed at Montague, including the construction of a radio station.

### NEW YORK, May 7.—(AP)—Price trends shifted frequently in today's stock market as trading became more orderly and further readjustments after its recent upheaval were completed.

After moderate extension of yesterday's gains at the opening, the market was subjected to heavy profit taking, but prices stiffened and speculation for the rise was resumed with vigor, only to run into further profit taking and short selling as trading progressed.

A further break in U. S. steel to below 169 inspired large selling orders in the late trading and many popular shares were depressed to the day's lowest figures. Application for a receivership for Celco was followed by a drop in the stock to 29 1/2, a loss of 14 points.

The close was heavy. Sales approximated 4,200,000 shares.
