

EGG SHORTAGE SEEN BY CO-OP, RISE EXPECTED

Hatching Season and Scarcity of Hens Blamed—Turkey Hatch About Normal—Co-Op Gaining.

The usual spring shortage of eggs prevails in this section, with the supply below the demand. Eggs are selling from 24c to 26c according to grade with a tendency to rise, according to the Farm Exchange Co-operative, and it is forecast that within a couple of weeks egg prices will range from 25 to 40c per dozen. The Co-operative has in storage 200 cases of eggs ready for release when the price is right.

Part of the shortage has been due to the hatching season, now nearing end, but is chiefly due to a lack of hens to lay eggs. Also a considerable portion of the local egg supply is shipped to Washington hatcheries. There the breeders get from 60c to 75c per dozen, according to the quality of the flock.

Egg demand from Klamath county and the local demand, keeps the local supply drained. The turkey hatch in Jackson county will be about the same as last year, with the young turkeys having a hard time, with ailments which is not conducive to the health of the young turkeys, and besides keeps the insects they feed upon in their holes.

According to O. C. Boggs, president of the board of directors, the Farm Exchange Co-operative is gradually working out of its finan-

cial troubles, with most of the small and persistent claims paid off, and the large accounts being reduced by weekly payments. The organization is "beginning to see daylight." Healthier and more horticultural and agricultural interests.

PRINCE AND JONES GOOD GOLF TEAM

SUNNINGDALE, Ind., May 8.—(AP)—Robert J. Jones, Jr., and the Prince of Wales today finished all square in an 18-hole golf match with Sir Philip Sherrin and Harrison B. Johnston. The American amateur champion and Sir Philip were three up and three to play over the open championship of the United States and his royal highness, but Bobby and the prince squared the match at the home green.

COPPER SHARES TREND UPWARD ROUTING BEARS

NEW YORK, May 8.—(AP) Stock prices rebounded smartly on the stock exchange today, as bears were driven to cover in the copper shares after a further selling movement which depressed United States Steel to a new low for the year. The rebound attracted renewed selling, however, and trading became dull, with price trends irregular.

The copper was rushed up \$3 to more than \$5 a share. Wall Street expects, however, that many of the present dividend rates on the copper shares, which were put into effect with the metal selling at 18 cents a pound, will shortly be reduced and the advance in this group, therefore, attracted scant following and soon lost its vigor.

U. S. Steel, after selling off more than \$2 a share to a new 1930 low of 145.75, attracted strong support and more than cancelled its loss. J. I. Case dropped \$11 to \$102, then rebounded more than \$20, in response to unconfirmable rumors an early split up is in prospect. The close was steady. Sales approximated 3,700,000 shares. MOTHER'S GUESTS BUSINESS WOMEN DURING LUNCHEON

Mothers were honored today by members of the Business and Professional Women's club at the regular luncheon held at Hotel Holland. They came as guests of the club members and were the subject of the program presented during the noon hour.

Merland Tollefson of the local high school sang two numbers, "Somebody's Mother," "Thank Me" and "Mummy is Fine." He was accompanied by Mrs. George Andrews, local pianist. A toast to mothers was given by Dorothy Jane Walters, who came to the luncheon as her mother's guest. A response was given by Mrs. C. B. Porter, both expressing the theory, admitted down through the ages, "Through mother and mother alone we get the best that comes to us through this life."

Miss Genevieve Brown, also of the local high school, entertained with a piano solo, "Twittering of Birds."

The remainder of the luncheon hour was devoted to copies of the Medford convention number of the Oregon Business Woman, which were passed around to the guests.

HUMANE FUND IS TOPIC AT MEET

The finance committee of the city council is meeting this afternoon with representatives of the Jackson County Humane Society to consider contribution of \$1500 to the society's construction fund. This amount was promised the Humane society some time ago as an appropriation for purchasing a site to be approved by the Planning commission.

The county has given the society a site on the south portion of the fair grounds and members are now asking the city for the appropriation to be used for constructing buildings. The site has not yet been approved by the planning commission. No forecast has been made of the action the finance committee may take regarding the appropriation this afternoon.

NEW TONIC STOPS HAIR FROM TURNING GRAY OR FALLING OUT

Improves Condition of Scalp, Brings Gray Hair Back To Youthful Color
ANYONE MAY USE IT AT HOME, COSTS LITTLE
"My hair seemed dead and continued to fall out and turn gray in spite of various preparations. I used, until one happy day I learned about this wonderful Lea's Hair Tonic," declared Mrs. W. S. McBride of Romulus, Mich.
After using Lea's Hair Tonic a short time my hair stopped falling out and gradually as if by magic—no gradual friends never noticed the change—my hair grew back and dead looking hairs were back to their natural color and my hair and scalp were in perfect condition. Now just an occasional application to the scalp with the finger tips, keeps my hair splendid. Another thing I like is that it doesn't stain the scalp, the lining of your hats or the bed pillow like the other stuff I formerly used. Lea's certainly is wonderful and women who want to look younger and better should try it," continued this enthusiastic lady.
Many people not gray at all, use

SENIOR PLAY CAST INTRODUCE SELVES IN HIGH ASSEMBLY

Members of the senior play cast have been working daily on the comedy, "A Pair of Sixes" written at the Craterian theater Tuesday, at the Craterian theater Tuesday, May 13, under the direction of Miss Isabel Wallace. Tom Swen will have charge of the scenery. "A Pair of Sixes" is not considered much of a hand, but Edward People has created a three-act farce that has been declared a "royal flush" in the matter of fun.

The quarrels and final break in the partnership firm of the Eureka Mill company is the basis plot of the play.

A short skit, during which each of the cast appeared and introduced themselves, was put on as a part of the assembly at the senior high school yesterday afternoon. Several salesmen have already started selling the tickets.

SEPTIC TANK EXHIBIT NEAR TOLO TOMORROW

A second septic tank demonstration will be held tomorrow at the home of H. F. Whitstone, one mile and a half east of the Tolo overhead crossing, by Prof. W. J. Gillmore of Oregon State college, and F. L. Jones, engineer for the Portland cement association. The public is invited.

During the morning the men will construct a concrete tank. A basket luncheon will be served during the noon hour, followed by an address by Prof. Gillmore on the subject of water systems. A similar demonstration in celebration of Better Homes week, was given at the O. M. Shepherd home at Rogue River yesterday.

Going to Rotarian Convention
Dr. and Mrs. D. A. Chambers leave tomorrow for Seattle, where the doctor will attend the Rotarian convention. At Portland they will be joined by Mrs. Gavin, Mrs. Chambers' mother, Mr. and Mrs. C. J. Seaman and Mr. and Mrs. E. C. Corn will also attend the convention. All will go by auto.

Dr. F. E. Chambers is here to have charge of his brother's office during his absence.

Salem—\$700,000 office building will be constructed on State and Commercial streets.

Repaint Your Automobile Yourself

You can save yourself a lot of money and make your car look almost like new by refinishing it with FLEX, the new brushing color finish. Use FLEX and do the job yourself. Oh, yes you can. It doesn't require any technical skill or experience to apply this wonderful new color finish. It flows on so smoothly without a laborious brush-mark showing it can be brushed in any direction and it dries so quickly that even a child can use FLEX successfully.

When the automobile is finished the result is a hard, tough, durable surface that gleams like satin. It laughs at rain and repeated washings and comes through with its luster unimpaired. There are twenty FLEX colors all of which are desirable for automobile use.

FLEX is also the first practical, quick-drying color finish for the home. Used on furniture or woodwork it transforms them in a jiffy. Women like to use FLEX because it has no offensive odor and is perfectly safe at all times. For interior use, there are twenty colors. FLEX adheres perfectly. It neither chips nor peels. Your own FLEX dealer carries all the FLEX colors.

CONTROL CODLING MOTH WITH THE FIRST BROOD

WIN the Codling Moth battle early by controlling the first brood. Give your trees a thorough application of ORTHOL-K and Arsenate of Lead in combination.

ORTHOL-K kills the eggs. A dead egg means no worm...no stinging...no larva to produce another moth and another hatch of worms! Any worms that may hatch from eggs missed in the application find Lead on the apples.

This proven double-shot spray simplifies the whole control program.

You get better control with fewer applications, you practically eliminate "stings"...and you get more Fancies and Extra Fancies.

Talk with your nearest ORTHO field man or dealer for more information.
