McPHERSON'S MEDFORD OREGON

HARBOR REPORT DRAWS REPLIES SHOWING FAVOR

Congressional Delegations of Oregon and California Pleased to Render Aid—Action Next Session.

A full report of the recent hearing at Crescent City was submitted to the congressional delegations of Oregon and California by C. E. Gates, president of the Northern California-Southern Oregon Development association.

Congressman W. C. Hawley, in part, states: "I shall be very glad to render any service I can here in assisting in getting favorable report from the board of engineers, chief of engineers and from the committee on rivers and harbors."

Congressman Clarence F. Lea says: "I am pleased that you were able to make such a favorable report. I feel confident of the ability and just attitude of Major Ropes and that he will send in a report as favorable as the circumstances will warrant. I hope that it will lead to a successful development."

Congressman Albert E. Carter, a member of the rivers and harbors committee of the house of representatives, states: "I have been interested in the Crescent City harbor for some time, and want to see it develop to a point where it will serve valuably the adjacent territory. While I hope your report on Crescent City will reach here in time to be included in this bill, still in order to do this it will have to make a very rapid progress. We hope to have another rivers and harbors bill next December. If your report should fall to reach here in time for the present bill, it could be included in the December bill. However, I would much prefer to see it included in the present bill as your port would become a reality just that much sooner. You may be assured of my continued interest in your harbor."

Senator Charles L. McNary telegraphed Mr. Gates to the effect that he would offer the Crescent City harbor project as an amendment to the rivers and harbor bill at this session of congress if the district engineer's report was available. Failing that, he would present it at the next session of congress.

Due to the fact that the physical survey of the harbor now being made by the district engineer is not yet completed, it would seem that the Crescent City development will be brought up at the next session of congress, and the expressions from senators and congressmen indicate that it will be passed at that time.

TWO DAYS LEFT TO SECURE FREE TICKETS TO BARNES CIRCUS

We have been asked by children if they secured two new subscribers to this paper for one month each, at 25c in advance, if they would secure a free ticket to Barnes circus, worth \$1.25.

This will be satisfactory for either one new subscriber for two months for \$1.50 cash in advance or two new subscribers for one month each will entitle any child under 16 to receive a free ticket, good for the main show, side show and wild west, three attractions.

Bring or send the new subscribers to this office, together with the cash before Friday noon, the earlier the better, and receive your free ticket.

Several children from the rural districts have secured free tickets and more of them should rustle a little and get their parents, friend or neighbor to subscribe for the best paper in the county. Both the party who subscribes for the paper and the child will be pleased, the former for 30 or 60 days, and the child at seeing another circus.

EXPERT SWIMMER FOR NATATORIUM

Dana Thomas of Portland, expert swimmer and diver, arrived in Medford a few days ago to take up his duties as lifeguard at Merrick's Natatorium.

The new lifeguard came highly recommended by Jack Condy, coach at Mulmohah club in Portland and nationally known in swimming circles. Young Thomas is the holder of numerous medals for swimming and is the present amateur champion for the northwest in 100-yard, 220-yard and 440-yard events.

PHYSICAL SURVEY CRESCENT HARBOR NOW IN PROGRESS

The district engineer, Major E. H. Ropes, United States engineer, is evidently taking no chances in the report he will submit to the board of army engineers regarding future developments at Crescent City, according to C. E. Gates, president of the Northern California-Southern Oregon Development association.

It is his intention to thoroughly study the voluminous economic report submitted by the development association at the hearing recently held and his engineers are now engaged in a complete physical survey of the harbor.

Lieut. N. G. Asensio and R. E. Demarrit, hydrographic engineer, with eight other engineers, have been at Crescent City the past week and are hastening forward the physical survey as fast as possible. Soundings are being taken for rocks and according to Lieut. Asensio, it is the first time that a survey for rocks at Crescent City has been made since 1858.

It is expected that the physical survey will take about one month and the district engineer will then make a complete study of all the economic and physical facts available. His report will be sent to the board of army engineers for review and further action by congress can be expected at the next session.

Distributing Samples of Soap Products

Representatives of Lever Brothers, manufacturers of soap products, are in the city distributing samples of Lux, Rinso and Lux toilet soap.

These are among the popular brands of soap on the market today and can be had at all dealers, where the coupons being distributed can also be redeemed.

TO SERVE DINNER TO EAGLE POINT VOTERS

EAGLE POINT, Ore., May 12.—(Special.) Primary election voting places will be open Friday May 15th in the town hall at Eagle Point and the members of the Civic Improvement club will give a dinner in their hall over the Browns store at a moderate charge. A bountiful menu has been prepared and all are invited to come and dine with them and help a worthy cause.

Brisbane's Today (Continued from page one)

(Continued from Page One)

Bootleg whiskey is of poor quality.

In the Daily Mail of Brisbane, Australia, an advertisement shows Uncle Sam as an octopus, with top hat, stars and stripes, big cigar and chin beard, seizing upon the oil wealth of Queensland.

Large type says: "Australian wealth primarily for Australians." The Brisbane Daily Mail says Americans are not wanted there, seizing oil wealth within the British empire.

The Brisbane Daily Mail editor ought to come here and see what the Shell Oil Company, managed by Sir Henri Deterding, running the gigantic British-Dutch Shell oil concern, is doing.

Deterding, with his Shell Oil Company, exploiting oil deposits all over the United States, is the most effective octopus on record. What he does to our native born

SUFFERED WITH PILES 8 YEARS

Then Quickly Relieved by a Simple Internal Home Remedy

READ AMAZING STORY OF MR. GEORGE KERN

"I suffered for eight years with piles and no remedy I could learn of would bring relief, until luckily for me I saw an advertisement about Colac Pile Pills in the paper. I never dreamed a 75c bottle of pills would work such wonders but they did, and the very first bottle relieved me so much I kept taking them regularly with my meals and today I'm a booster of Colac Pile Pills for they are easy quick relief for anyone suffering with piles," writes Mr. George Kern a well known sausage maker who like scores of other people here, praises Colac Pills to the sky.

No more nasty salves or suppositories. Just a couple pills with a swallow of water at meal time. Relieves pain almost immediately and in a healing soothing, truly wonderful way they go to the very roots of the trouble internally. Doctors are now endorsing Colac Pile Pills. Thousands of men and women testify to suffering one to thirty years, and then their troubles gone thanks to Colac. Write Mr. Kern if you doubt it, 2549 Oak St., Kansas City, Mo. If your drug-gist hasn't Colac Pile Pills, send 75c stamps, or coin to Colac Chemical Co., Brentwood Md. Results.

Popular...

Popularity for a woman is so often simply a matter of time... time to do the gracious little things of life that mean so much in making and keeping friends. For those things the woman who does her own housework finds time, if she is wise, by employing electrical servants to aid her.

No matter how large, no matter how trivial the household task, there is an electric appliance to cut the work in two. And whether a woman does her own cleaning, her own cooking... or merely supervises the work of her household... she owes it to herself to investigate the possibilities of electricity in her home.

Visit your dealer today... ask questions... you'll be amazed to learn what electricity can do to conserve your time and energy at such a moderate cost.

oil octopuses makes them shed salty tears. We have passed into the billion dollar era. Mere millions attract little attention. Copper, very recently, rose to 25 cents a pound, some comfort for producers. That metal should be selling over 20 cents a pound, and never under. It would do that if the people generally knew the importance and value of copper in construction. The people would know that if copper men knew how to advertise.
