## DIFFICULTY FOR TARIFF MINIMIZED

### Smoot Sees No Prospect Reopening Entire Bill for Debate — Opponents of Bill Planning to Raise Points of Order.

WASHINGTON, May 24.—(AP)—In the opinion of Senator Smoot, Republican, Utah, there is no prospect of the entire tariff bill being opened to change by points of order raised against rates.

Opponents of the bill plan to raise points of order against the rates on cherries, cheese, rayon and watches, contending that the tariff bill confers exceeded their authority in fixing these rates. There have been expressed that reopening of the bill to change in conference would jeopardize its enactment.

Smoot, chairman of the senate finance committee, said today that the upholding of a point of order would restrict the conferees to act on the single item in dispute.

The argument also has been made that return of the bill to conference would permit of a separate vote in the house on the lumber duty, which the house once turned down.

### Leaders Prepare

Republican house leaders were preparing for that eventually. They pointed out that in order to get this separate vote the house would have to defeat the supplemental conference report embracing lumber and send it back to conference with instructions. This defeat was hardly possible, they contended.

Describing the bill finally agreed upon as a "splendid" one Smoot expressed the opinion its provisions are in line with President Hoover's limited revision program.

The text of the new flexible provision as made public today showed no substantial change from the rough draft approved yesterday, except that it provides that where the president fails to approve or disapprove a tariff commission recommendation for change in a statutory rate within sixty days period laid down, the commission rate becomes effective.

## SLAYS FOUR WHEN WIFE UNFAITHFUL

### Husband Broods Over Wrongs Since December — Ambushes Man and Wife — Returns Home, Slays Wife, Self.

CENTRALIA, Wash., May 24.—(AP)—Alleging improper relations between his wife and Cliff Turvey, in letters which he left, Lloyd Duffy, 46 of the Oak Grove neighborhood near here, yesterday shot and killed Mr. and Mrs. Cliff Turvey of Tenino, returned to his home, killed his wife, Elmice, then inflicted wounds on himself that proved fatal.

Letters left by Duffy indicated he had discovered his wife was untrue to him last December.

He had brooded over the situation until yesterday afternoon when he secured two automatic revolvers and hired R. V. Todd, jitney driver, to take him to the Turvey camp at Tenino. At the camp, according to the story told by Todd, Duffy laid in ambush, awaiting the departure of the Turveys.

### Both Killed.

As they came down a trail to the Turveys, Duffy opened fire. Two bullets entered Turvey's head and one pierced Mrs. Turvey's neck. Whether Duffy intended to kill Mrs. Turvey cannot be surmised from the dead man's letters. At the point of a drawn revolver, Duffy ordered Todd to drive him to his home, where he found his wife in their back yard with their nine-year-old son, Kendall talking to Mrs. Gladys Curtis, a neighbor.

Duffy opened fire at his wife, three bullets striking her. He then fired three shots into his own body. Mrs. Curtis immediately notified the police, but Todd had already arrived at the station and officers were on the way.

Turvey did not die immediately of his wounds. Woodmen who heard the shots and investigated, found him still alive. He was rushed to the Centralia hospital, but died within an hour.

## DIAMOND LAKE K.F. POSTOFFICE SEASON OPENS TO BE BUILT BY FIRST OF JUNE PORTLAND FIRM

The Diamond lake season will open June 1, according to Manager George Howard, and preparations to this end are now underway, with a crew of 23 people already on the ground.

The Union Creek road to the resort will be in good shape in five or six days, but Manager Howard does not advise that anyone attempt to make the trip now, as there is some soft snow, which is being cleared away, and is melting fast.

This summer the resort company will maintain a \$2500 pleasure boat on the lake. It is now being built in Klamath Falls.

The state fish and game commission has planted several million fresh water shrimp in the lake, as feed for the trout. Feed pens are also now being constructed for the trout fry, which will be released as soon as they are fingerlings, and able to take care of themselves.

Commissioner Matt Ryckmann is now at Diamond lake superintending the fish work.

The fishing season at the lake will open June 1, and a large number of fishermen will be on hand to try their luck.

## SCENIC HOP BY GRAF TO RIO JANEIRO

### Zeppelin Leaves Pernambuco on 1250-Mile Trip — Crowd in Frantic Applause As Ship Takes Air — Arrival Indefinite.

PERNAMBUCO, Brazil, May 24.—(AP)—The Graf Zeppelin sailed southward today along one of the most beautiful coasts in the world on a 1250-mile trip to Rio Janeiro, capital of Brazil.

On their left passengers had the blue of the Atlantic, dotted with vessels in the coastwise trade, and on their right Brazil, now mountains and now rolling, but always green and sparkling in the tropic sun.

Departure from here was at 11:55 p. m. (9:55 p. m. E. S. T.), several hours later than the Graf's master, Dr. Hugo Eckener, had calculated, the intense heat making hazardous replenishment of the lifting gas until the air had cooled.

Almost as large a crowd as Pernambuco has ever seen witnessed the departure, cheering frantically as the ship rose gracefully in the air. It circled the city, with flashlights playing on its sides, at 12:20 a. m. disappeared among the stars to the southward.

Two Men Injured

In gassing the bag prior to its leaving two workmen employed at Camp Gluza were burned slightly. At first it was believed that they were two members of the Graf's crew but this later was denied.

Dr. Eckener's plans were in doubt. While he might be expected to make the trip ordinarily in about 20 hours, which would bring him to Rio Janeiro at about 8 p. m. (6 p. m. E. S. T.) today, there was reason to believe he might continue through Saturday night to Sao Paulo, island about 300 miles, where a large number of Germans are engaged in coffee growing. In that event he would return to Rio Janeiro on Sunday.

## FRUITMEN TAKE WITNESS STAND FOR LITIGANTS

Price Trends Told By Koozer, Hall, Banks and Bardwell in C. and E. Pear Contract Case.

Rebuttal testimony was offered by the plaintiff this morning in the circuit court in the suit of the C. and E. Fruit company of this city, against the Pacific Coast Cannery, Inc., of Oakland, Calif., and the closing arguments are scheduled for this afternoon, with the case going to the jury late this afternoon. The C. and E. company is suing for \$630 alleged to be due for pears delivered on a contract. A counter suit seeking \$6200 was filed by the cannery organization for alleged non-fulfillment of contract.

R. E. Koozer, manager of the Bagley Cannery company, testified this morning that "the eastern market decidedly affected local pear markets," and that the New York price was strongly reflected locally, during the time of the contract in litigation.

Court Hall testified along the same lines, and that in 1928 he had not purchased many local Bartlett's for canneries, because the fruit could be procured cheaper in other districts.

L. A. Banks, who controls 700 acres of fruit in this valley, testified as to marketing trends and buying conditions, as did R. G. Bardwell.

Howard Hill, grower, was slated to be called as a witness. The case has lasted three days, and because of the issues involved has attracted wide attention among growers and shippers.

The plaintiff takes the position they were unable to abide by the terms of the contract, "owing to the rigid and technical grading of the No. 1 pears."

The defense alleges that they went to considerable expense to provide for handling of the contract, and that the rising price, not dissatisfaction with the grading methods, induced the alleged abrogation of the contract.

## GRIM SCENE ON BURNING STEAMSHIP

### Moslem Passengers Cut One Another's Throats As Death By Fire Looms — 200 Lives Lost in Holocaust in Jeddah Harbor.

PARIS, May 24.—(AP)—A dispatch from Jeddah, Arabia, to the Petit Parisien today said that 50 Moslem pilgrims aboard the burning steamer Asia in Jeddah harbor Wednesday cut one another's throats rather than face death in the blaze.

Their act the dispatch, which purports to be an eye-witness account of the disaster, which is now said to have taken 200 lives, took place at the foot of the companion-way, and before the cry "Suave au port" or "everybody for himself" was heard.

The blood of the suicides flowed as if at a sacrifice. Their bodies blocked up the exit and prevented others praying, with their faces toward Mecca in the dining saloon finally from reaching the outside, causing their death, too.

The fire, origin of which has not been determined, spread so rapidly that it was possible only to lower boats on the starboard side, those on the port side blazing between the davits. Two boats lowered were sunk immediately by the pilgrims who jumped, about 80 into each craft.

### Rescued by Boats.

Most of those were picked up by boats from eight ships in the harbor which approached as near the blazing vessel as was possible. Captain Marchand and the ship's doctor were said to have remained aboard an hour after giving the order for everybody to save himself, and then themselves plunged into the sea.

Just before they jumped passengers in nearby boats could hear their shouted conversation: "They have drawn their daggers." A moment after it was added: "They are praying in the dining saloon. They won't jump."

When finally it was thought nothing remained alive aboard the vessel a boat from the British steamer Arabistan heard cries, and approaching, its crew saw figures right at the ship's bows. They called to them to jump, but instead they backed into the flames.

Two young British officers scrambled aboard, seized the pilgrims, and passed them down to the boat. They were the last five persons to be saved.

Eyewitnesses reckoned the toll at 200 dead. Thirteen hundred believers were saved.

## Will Rogers Says:

BEVERLY HILLS, May 24.—We finally got the low-down on the intelligence of the senate. The capitol building put in dial telephones and out of 96 members only two knew enough to work 'em, and both of these members were men who had been defeated at the last election, showing they knew entirely too much to be in there. Carter Glass thought it was a rat trap and baited it with cheese, so they are going to have them taken out. There is nobody to put the blame on but yourself if you get the wrong number. They want nothing connected with the senate in any way where the responsibility can't be shifted. Yours, WILL ROGERS.

P. S.: Los Angeles census is not out yet. Our surveyors are still annexing more territory. We had Mexico City but the League of Nations made us give it back.

## Bride and Brokendown Automobile Disappear as Husband Seeks Help

PITTSBURGH, Pa., May 24.—(AP)—A bride of five weeks and the automobile in which she was returning with her husband to their home in Carnation, Wash., disappeared mysteriously from the road side on the Lincoln highway near here today. Searching for hours on the highways and in garages east of here, state officers and police of nearby towns, were unable to find any trace of the young woman or the machine.

The missing bride is Mrs. G. C. Kirk, 24, who was left in the automobile while her husband sought aid to repair the car after it had broken down. The husband said the automobile could not have been driven away, and the only way he could account for its disappearance was that it had been towed.

Kirk said he is a son of G. C. Kirk, an official of the Carnation Condensery company, milk manufacturer of Seattle. He came to Pittsburgh after notifying authorities of his wife's disappearance. He was without funds, since his baggage and coat were in the automobile. He went to the offices of the representatives of the Carnation company here to identify himself.
