

Local and Personal

Thinner at Work

Quite a number of orchards started apple thinning this week, but the work is not expected to be in full swing until next week when pear thinning will also be started. A heavy crop makes the latter work necessary, encouraged by the fact that some pears were marked by recent hail storms.

Harts Return Today

Mr. and Mrs. Floyd Hart, who have been in Los Gatos and San Francisco, Cal., for the past seven weeks, returned to Medford today. They report that their little daughter Charley, who is in Los Gatos for her health, is in a much improved condition.

An invitation is extended to all people to come and hear the messages of the state leaders. A basket luncheon will be served during the noon hour Wednesday.

Two Perish When Auditorium Burns OKLAHOMA CITY, Okla., May 27.—(AP)—Two men were killed and three unaccounted for in a fire that destroyed the colorful large auditorium in the packing house section of Oklahoma City today. The dead were Dick Mason, fireman and an unidentified negro.

Mason and the Negro were caught under the crumbling walls of the building, which fell in less than an hour after the fire was discovered. The three men unaccounted for had gone into the building in an attempt to drive out new automobiles stored there. Two hundred machines, valued at \$200,000 were burned.

GOOD WILL BOAT SINKS IN RAPIDS LEWISTON, Idaho, May 27.—(AP)—The power boat Lono, owned by Claude McGee of Portland, one of the two boats making an informal good-will trip from Portland up the Columbia river to Lewiston, was reported to have struck a rock in the river at Bear Creek rapids and foundered today.

Ranchers reported that the craft's supplies were saved and all aboard had been taken aboard the Kalesetan, the other boat which is making the trip.

VETS WOULD DRAFT GENERAL PERSHING LINCOLN, Neb., May 27.—(AP)—A move to "draft" Gen. John J. Pershing for the United States senatorial race next fall has been started by ex-service men of Nebraska.

A. A. Misagadis, a leader in the movement, said petitions would be circulated in Pershing's behalf today and when 1000 signers were obtained his name would be filed as a candidate.

College Teaches Food Buying COLLEGE PARK, Md.—(AP)—Believed to be the first of its kind in history, a course intended to help buyers of food in making their selection of products has been added by the University of Maryland.

AVIATRIX SPINS 980 AIR LOOPS IN NEW RECORD

Laura Ingalls Averages Four and Half Turns Per Minute for 3 Hours, 40 Minutes.

MUSKOGEE, Okla., May 27.—(AP)—Miss Laura Ingalls, 25 year old New Yorker, who received her first flying lesson eighteen months ago, today had written 980 consecutive inside loops in the sky above Hothox municipal airport here, nearly triple her own feminine world's record.

Averaging about 4 1/2 loops for every minute she was in the air at the airport's dedication late yesterday, Miss Ingalls in her dizzy flight exceeded by 636 loops the women's record of 344 she established May 3 at Lambert field in St. Louis.

"Isn't it bully, that motor, that trip?" she asked army officers who protected her from the enthusiastic crowd as she landed. She leaped from her plane, obtained a drink of water and was carried on the shoulders of a throng to her motor car. When anyone exceeds her record, she said, she'd try again.

The youthful aviatrix in 3 hours and 40 minutes aloft completely eclipsed the best mark held by another woman flier, 46 loops by Miss Mildred Kaufmann. Darkness brought Miss Ingalls down.

She was \$1036 richer in guaranteed prizes because of her flight. She said it was the first money she had ever made in the air.

Continued efforts to organize a concern, made up of Medford businessmen, to take over flying school and airplane service concessions at the Medford airport are going ahead with great success and interest in the project is becoming general thruout Medford.

Two contests have been begun to name the new company and for school students to write essays setting forth why Medford should have an air service company.

The concern would be well equipped with planes, have experienced pilots, teach flying and do repair service, as well as giving short and long rides.

The project has been investigated by the airport committee of the Medford Chamber of Commerce. The following report was returned: "The airport committee of the Medford Chamber of Commerce has investigated a proposal by a group of local men to take over various concessions in the Medford municipal airport, and operate taxi service, flying school, and other features, and find that the plans of this group are worthy of consideration. It is the desire of the airport committee to do everything possible to assist in the promotion of aviation activities at the new airport, and to any one who is in accord with this idea, it is the belief of this committee that this proposition merits consideration."

FRANK FARREL KING FOREGOES SECRETARY FOR GREETING DEBS, PEAR GROWERS PRINCE TO BOW

Medford Attorney Named to Prepare Reports and Handle Other Work of Coast Group.

Attorney Frank P. Farrell has been named secretary of the Pacific Pear Growers' Council, effective at once, with headquarters in this city. Farrell will have charge of the preparation of reports and bulletins to be issued at regular intervals by the organization, and other secretarial duties.

The reports and bulletins will contain information for pear growers and shippers, concerning marketing, prices, crop predictions, cold storage conditions, pest eradication, state of the fruit, and all information of value to growers. Every pear and fruit producing section of the Pacific coast will be represented.

Growers can obtain these reports through their shipping organizations.

According to David R. Rosenberg, president of the Pacific Pear Council, good progress is being made by the organization, with liberal financial support from all districts, and a growing interest among the growers in the success of the enterprise.

Plan Campaigns Several of the fruit growing sections are planning pear campaigns along the lines employed by this section in the exploitation of the Bosc in Detroit last year. The San Jose, Cal., district is now mapping plans for a Winter Nolis and Hardy pear campaign this year, using the "Medford plan" of advertising. The Placerville, Cal., and the Hood River districts are considering similar campaigns for Bosc and D'Anjous.

The Winter Pear committee will meet Thursday morning to hear a summary by David R. Wood on his recent trip through the east, where he studied market conditions and sales prospects for the coming season.

The Chicago Fruit and Vegetable Reporter, in its May 23 issue, under the caption, "Bosc Pear 'Booster' Visits Chicago," said: "A very few years ago it was a novelty to see Bosc pears in any consuming market outside of New York, Chicago, Philadelphia and a few one or two other large markets."

"Detroit, for one, did not know what a Bosc pear looked like and dealers there would just about as soon take on a pair of bulk eyes in preference to this very fine fruit."

"One of the reasons for this unpopularity was the fact that these pears were marketed before they were in condition for the consumer to use."

"D. R. Wood, chairman of the Medford Winter Pear committee, also general manager of the Oregon division of the Balmor corporation, Medford, is one of the reasons for the wider field in which the Bosc is now a real factor."

"Mr. Wood says: 'Why green pears and not green bananas?' It being well known in the fruit industry that green bananas would be absolutely unsalable. Through the medium of Bosc pear committee in various large markets, it has been possible to prevent the sale of pears not yet ready for consumption."
