Greater Medford Club
Officers for the coming year were installed and committees named at the meeting of the Greater Medford club held at St. Mark's Guild hall yesterday afternoon. Mrs. A. H. Drury, president, Mrs. Wale Wallace of the Bellevue club, who attended the convention of the State Federation of Women's clubs in Salem, as representative of the southern district, gave an interesting report of work accomplished at the session. The next meeting of the local club will be held the last Monday of September and will be in the form of a Rogue river products show. The last Monday of a month has been the regular meeting day of the Greater Medford club since its organization. Meetings will be held during the summer.

The October meeting will be a high jinx and Mrs. Atlanta Satchell was yesterday named chairman of the committee for this affair. Miss Mildred Carlton, president of the Jackson County Public Health association, will arrange the program for the November meeting. Presentation of the Mosquito bill is planned for some time in December and a special committee with Mrs. Jonas Wolf as chairman was appointed yesterday to make the arrangements. She will be assisted by Mrs. C. H. Paske, Mrs. Geo. Andrews, Mrs. Jap Andrews, Mrs. M. N. Hogan and Mrs. J. Moore.

Officers installed yesterday afternoon are Mrs. A. J. Hanby, president; Mrs. N. J. Norris, first vice-president; Mrs. Stella Merrick, second vice-president; Mrs. Henry Green, recording secretary; Mrs. H. Green, treasurer.

The program committee named composed of Mrs. J. E. Edmiston, chairman; Mrs. R. W. Sheeter, Mrs. N. J. Norris, membership chairman; Mrs. L. A. Pennington, Mrs. John Fluhrer and Mrs. C. A. Swigart. Mrs. Satchell was made chairman of the scholarship fund as well as the high jinx committee.

Miss Abelo Honored At Week-End Party.
Miss Ruth Abelo, Latin instructor in the Medford high school, was honor guest at the party given at Shady Cove on the Rogue by students and their mothers over the week end. Hostesses were Mesdames David Wood, J. E. Edmiston, Boyle, Dunnington, Herman, E. E. Gore, O. Arntsen, and Mrs. L. M. Roberts. Leaving Medford Friday evening, hostesses and guests remained at Shady Cove through Saturday morning. They were joined at Saturday breakfast by a party of boys from Miss Abelo's classes. Through an error in a report of the party it was stated Sunday that it was given by Miss Abelo for her students. They and their mothers, however, were entertaining for her.

Much interest is being shown in the radio broadcast of the California Oregon Power company which is scheduled for 9 p. m. tonight. The program will present an enjoyable hour of musical entertainment, both vocal and instrumental, by the music department of St. Mary's Academy.

Of special interest will be several harp solos, violin numbers and piano selections. The opening and closing choruses by the choral class should also prove popular with those who listen in on this attractive Cape radio offering.

Among those who will participate in the recital are the following: Betty Stennett, Elaine Brophy, Suzette Stennett, Lucille Kallinger, Agnes Pollner, Elsie Louis and Martha De Souza.

The detailed program follows:

ST. MARY'S PUPILS ON RADIO TONIGHT.

Stovalls Week-End Guests Here.
After spending the week-end in Medford as the guests of Mr. and Mrs. James Stovall, Mr. and Mrs. Stovall senior of Lakeview, Oregon, returned to their home Sunday. They were accompanied to this city by their daughter, Miss Jessie Stovall, who is a student at the University of Oregon. She left for Eugene last Sunday evening.

TYPING POPULAR WITH GRADUATES

A questionnaire, sent to members of the 1930 graduating class, shows that out of 129, 76 have taken typing, 11 shorthand, and 35 bookkeeping. The object of the inquiries was to determine the fitness of the students for different positions which will be open to them. His work is carried on by the vocations department of the school, under the direction of Wendell L. Van Loan.

There were only 50 members of the group that had not taken any type of commercial training. Most of these are interested in music, education, and other professions not connected with commerce.

Meteorological Report

May 27, 1930
Medford and vicinity: Tonight and Wednesday increasing cloudiness followed by rain; cooler Wednesday.
Oregon: Increasing cloudiness followed by rain Wednesday and in west portion tonight; cooler interior Wednesday.

Iodine in Feed Tested
STATE COLLEGE, Pa. —(AP)—Forty calves and 1200 chickens are on feed at Pennsylvania State college to determine the value of iodine in livestock feedings. Experiments with 25 cows, 40 pigs and 180 lambs have been concluded.

JNO. F. MILLER OF JACKSONVILLE IS CALLED TO REST

John F. Miller, 60 years old, native son of Jacksonville and one of its best known and likeliest citizens and pioneer resident of Jackson county, died early this morning at the Sacred Heart hospital in this city, following a 10 days' illness, from a general breakdown, following a stroke operation performed at Portland several months ago, from which he had apparently recovered.

Mr. Miller is the son of the late Mr. and Mrs. John P. Miller, pioneer citizens of Jackson county and Jacksonville, born in the latter city March 21, 1870. His father operated the only hardware store in southern Oregon for many years, and later the son was taken in as partner in the business, and operated it for years after his father's death.

It was while still in the hardware business at the then old county seat that John P. Miller, Jr., was appointed to the postmastership of Jacksonville, which he filled for three successive terms, 12 years, until the last term of President Wilson. Mr. Miller had been retired for years past, and resided in Jacksonville. His wife died many years ago.

When it was realized that Mr. Miller's end was near, his relatives were notified by telephone last Sunday afternoon, including a sister, Mrs. K. K. Kubli of Portland and Mr. and Mrs. Kubli arrived here by auto Monday morning. Other sisters are Mrs. Archie Callender of San Francisco and Mrs. J. W. Robinson of Jacksonville.

The notification telegram reached his brother, Harry P. Miller at Los Angeles, to which city Mr. Miller had left before the telegram reached his home at Burliame, Calif. The brother immediately departed by plane for Burliame and reached the Oakland airfield in time to catch the Shasta train for Medford yesterday afternoon, on which he and the dead man's son, John P. Miller, Jr., of Sacramento arrived in the city this noon.

John F. Miller was a member of the Jacksonville lodge of Masons for many years. The funeral services will be held Thursday afternoon at 2 o'clock in the yard of the family home at Jacksonville, weather permitting, and the burial will be in the Jacksonville cemetery. The remains are at the Perl Funeral Home in Medford, where all friends who desire can view them between now and the time of the funeral, can do so.

A Presentation of Outstanding Value!

SHIRTS and TIES

of specially selected fabrics

chosen for Superior Quality Color Harmony Authentic Style

JUST imagine! Shirts of Tu-Tone pastel broadcloth, specially woven for us! Each shirt with a Nu-Craft collar, attached or separate as you prefer, seven button front, with buttons sewed on to stay.

The basis of leadership

Don't look for premiums or coupons, as the cost of the tobaccos blended in CAMEL Cigarettes prohibits the use of them.

MANUFACTURED BY R.J. REYNOLDS TOBACCO CO. WINSTON-SALEM, N.C.

READ again the familiar message on the back of the Camel package. . . Camel, introduced in 1913, when other cigarette brands were offering all sorts of premiums and similar inducements, jumped into leadership solely on the basis of its built-in goodness.

That statement, spread throughout the world each day on millions upon millions of Camel packages, stands as your guarantee of the maximum in smoke pleasure. It reaffirms on every package of Camels the steadfast aim to give smokers a cigarette in which every possible bit of the cost is put into real smoke-quality.

The delightful, natural fragrance of Camel's choicer tobaccos, combined in the smooth, mellow harmony of a blend beyond imitation—that's what made Camel the world's foremost cigarette—and keeps it just that.

Don't deny yourself the luxury of

CAMELS

NAVY SHIPS LEAVE FOR SEATTLE EARLY TODAY

Bound from San Diego to Seattle nine navy seaplanes left the Medford airport early this morning for their northern destination following their arrival here yesterday. The pilots and crew members stayed in Medford overnight and attracted considerable attention because of their blue uniforms and white caps. The same ships were at the airport last week when they were en route from Seattle south.

Fluxit Officials Visit Medford

Frank M. Brown, vice-president and general manager of the Coloidal Products corporation of San Francisco, and F. E. Lindstedt, director of research for the corporation, spent two days in Medford in the interests of their well known and universally used product, "Fluxit," a fixator used with any spray material or insecticides, to make their use more efficient. The product is warehoused in Medford and can be secured through fruit companies or the Medford Warehouse company.

Fluxit has been efficiently used for several years by Rogue River valley fruit growers.

Wall Street Report

NEW YORK, May 27.—(AP)—Speculation for the rise again was pressed forward in today's stock market, but the market was unable to ignore unfavorable news from the railways and the farm implement makers, and became unsettled.

Operations for the advance concentrated their activity in the utilities. A wide assortment of foreign shares, industrials and specialties joined the advance. Gains of 2 or 3 points were common. Unfavorable news developments, however, had a depressing influence on the rails and farm implements, and a bear drive in the latter group unsettled speculative confidence.

J. J. Case, which had been up to 266, dropped to 255. International Harvester sold 4 points under yesterday's close and Julius Kayser was down to a new low for the year. The close was heavy. Sales approximated 2,350,000 shares.

Today's closing prices for 15 selected stocks follow:

HOGAN WINS OLD LITIGATION OVER AUTO PURCHASE

The supreme court today handed down one opinion on a Jacksonville case, as follows:

M. N. Hogan vs. Mason Motor company; appellant; appeal from Jackson county; suit for damages. Opinion by Justice Brown, Judge C. M. Thomas affirmed.

The facts in the action are substantially as follows:

Hogan purchased an automobile from the Mason Motor company, and later filed suit, claiming that the auto was a re-built machine, and not a demonstrator car as further charged that the machine had been in a wreck. The jury returned a verdict in Hogan's favor for \$550. This was in 1925.

The Mason Motor company filed an appeal, and through a bonding company posted a bond for the amount of the judgment. Later the concern went out of business. Hogan is safeguarded by the bond.

SHERWOOD BOAT MADE GOOD SHOWING SUNDAY

Robert Sherwood, 15, driver of the Flying Dutchman in the outboard motorboat races at Emigrant Lake Sunday, was the youngest racer to compete in the day's events. He took fourth in the class B division, driving a boat that he and Jack Terrett had constructed themselves.

The boat made a good showing despite the fact that it had only a 10-horsepower motor, the lowest power of any boat entered. Blue Devil, driven by John Bohner of Central Point, came in third with a 14-horsepower engine.

TALKERS DRIVING SILENT ART FROM GERMAN STUDIOS

BERLIN —(AP)—The talkie's smashing victory in Germany over the silent film is shown by the March report of the Berlin chamber of commerce. A steady increase in the production of tone films almost in inverse proportion to the distribution of silent film productions was recorded.

It is pointed out that the stupendous popularization of the talkie is all the more surprising in view of the comparatively limited number of movie houses in this country with installations for tone films.

This popularization of the talkie has already led to a very noticeable dearth of silent films of quality and therefore obliged an ever increasing number of cinema owners to adapt their theaters to the new order of things.

At present there are 461 talkie cinemas in Germany, which number, however, is expected to be increased to beyond 900 by fall. German cinema owners sent a commission to London and Paris to propose an agreement with other European centers for raising the admission fee to talkie performances.

MOFFETS HOT SPRINGS HEALTH RESORT BURNS

STEVENSON, Wash., May 27.—(AP)—The Moffets Hot Springs hotel, a health resort, burned to the ground with a loss estimated at from \$10,000 to \$18,000. Fourteen patients were removed from the building safely, and most of their personal effects were saved.

She'll always treasure her BULOVA WATCH

These days a timepiece must be beautiful as well as dependable. Bulova Watches—creations of loveliness and mechanical perfection—represent the highest degree of the watchmaker's art.

Give her a Bulova for graduation. She'll always treasure it.
