

DEAD INDIAN ROAD PLEA CIRCULATED

Petition Asks Joint Effort By Jackson County and Forest Service to Relieve Condition — New Route May Be Solution.

A petition, asking that the Dead Indian road be improved through the joint efforts of the forest service and Jackson county, was in circulation in the southern end of the county yesterday and today, and was freely signed. The petition is being circulated by W. C. Lindsay, a large ranch operator of that section and sets forth that renewed mill and cattle activity justify early action.

Members of the county court said this morning that it was the county's intention to do considerable work upon the Dead Indian road this summer, and an agreement on the route into Ashland was a controversial point. Residents of Ashland urge that the road enter the city via Mountain View avenue. The county court urges that the route follow the natural grade and eliminate steep hills and sharp curves.

It is probable that a survey of the route will be made soon, and that approval of same be sought from the state engineer's office. This is mandatory on the road as designated as a market road as planned. The route question will also probably be settled by that branch of state government.

Forest Service View.

A letter from the forest service to the Ashland Chamber of Commerce, in response to a request of that body for early action, is as follows:

"Four letters of May 19 is received.

"The condition of the Dead Indian road is deplorable, but there seems to be no remedy possible except the construction of another road because of the amount of rock that has to be contended with. This road, as explained to people of Ashland and Medford a good many times, from an economic standpoint, seems to be prohibitive. We have tried for a number of years to do something with the road, but the soil is impractical for a good dirt construction.

"At the meeting of the Jackson county court at Ashland, which you mention, it was understood that the Jackson County court would take care of the Dead Indian road to the county line. Should there be an opportunity for improvement of this road at any time, it will be only too glad to do what I possibly can.

"It is felt that probably a better way would be to go from Deadwood (junction of the Dead Indian with the road to Fish Lake) to Fish Lake and then use the Fish Lake-Lake of the Woods road from there. This would give access to both lakes and the possible chance of a much better road for Ashland which would be of no greater distance to Lake of the Woods than the present road and a shorter distance than from Medford to the lake."

NEW YORK, June 18.—(AP)—

The stock market passed through another selling climax today which depressed several pivotal shares to within striking distance of the minimum levels of the autumn selling panic. Total sales aggregated \$4,400,000, shares, exceeded this year only by the \$5,000,000 share day of May 5.

Selling was in enormous volume during the early hours of trading, when it appeared that the day would record sales in excess of \$5,000,000, but the storm center appeared to have passed by early afternoon, trading slackened substantially, and important shares regained about half of their losses.

It was stated in banking circles that important banking interests have not organized to support the list, but it was widely reported in brokerage circles that powerful interests had cushioned the decline with large orders for individual shares under their sponsorship.

U. S. Steel tumbled to \$15.50, within \$5 of its low of the November price, American Telephone touched \$29.125, within \$4.25 of the autumn minimum. General Motors, at \$29.52, was within about \$6 of the autumn bottom. Extreme losses in important shares ranged from \$5 to \$10, while several of the high priced issues recorded wide breaks. Allied Chemical getting down \$2.90.

NEW YORK, June 18.—(AP)—

Curb stocks were liquidated in huge volume today, bringing out losses of 2 to 10 points in the most active shares. The declines were reduced by a rally in the late trading, although closing prices were below yesterday's. Sales total 2,019,000 shares.

STORY 1 (Continued from Page 1)

Herodotus while the votes indicating his victory were being counted. He refused to comment, saying he would wait until the complete vote was tabulated.

"However," he said smilingly, "I seem to have carried my own ward."

He expressed great pride in the vote given him by his neighbors in Englewood.

Despite the overwhelming defeat of Fort. Dr. James K. Shields, superintendent of the Anti-Saloon league, said: "The Anti-Saloon league is still in the fight and we are here to stay. We thought we would make a better showing than that."

Morrow opened his campaign on May 15 with an address in which he declared that if elected he would be prepared to vote for a resolution submitting to the states a constitutional amendment which would restore to the states the power to determine their policy toward the liquor traffic.

"I look forward to the time when the old leaders in the temperance movement will appreciate that they have not reached a final solution of a world-old problem by the present 18th amendment."

"I look forward to the time when the moral teachers of the country will realize that in the battle for a great social reform there was wisdom in the old system of experimenting in 48 laboratories rather than in one."

The Prohibition party nominated Dr. James Gilbert Mason for the long term and Miss Esther H. Elferth for the short term.

Henry Jager was named by the Socialist party for both terms.

Port was formerly secretary of the Republican national committee. He has been a fishing companion of President Hoover and was the leader of the floor forces which nominated the president at the 1928 convention.

At a campaign meeting Morrow was praised as presidential timber by Dr. John Grier Hibben, president of Princeton university, and by former Governor Edward C. Stokes. Twice statements were issued from the White House denying that President Hoover favored a particular candidate.

STORY 2 (Continued from Page 1)

Issues Challenge

"When Congressman Tinkham shall give to the press over his personal signature the statements reported by the press as made by him today on the floor of the house of representatives where he is immune from prosecution for libelous statements, he may command the respect of honorable men, but making such statements on the floor of the house, where no knows his immunity from prosecution, brands him as a blustering, cowardly congressman, appealing especially to his wet Roman Catholic Boston voters to retain him in office."

Before the lobby committee, Jameson testified he gave Cannon \$65,000. Of this amount the bishop reported the expenditure of \$17,000. Later he contended the remainder was expended in a manner which made it unnecessary that a report be filed.

Tinkham appeared before the committee and charged Cannon with a violation of the corrupt practices law through his failure to report the entire sum, an assertion which he repeated yesterday.

George O'Brien Star of Fox Rialto Film

"Rough Romance," the Fox Movietone production now playing at the Fox Rialto theater, comes as a refreshing breath of cool mountain air to a picture going public wearied of problem plays and "lazz age" drama.

This fast moving picture is a veritable saga of the snowlands and lumber camps. It depicts in an interesting and always authentic fashion the turbulent lives of those sturdy men and women who are, in a sense, the nation's last pioneers.

George O'Brien and Helen Chandler acquit themselves splendidly in their leading roles; O'Brien as a dashing young lumberjack and Miss Chandler as the lovely daughter of a backwoods trader whose devotion to O'Brien is a feature of a charming love story.

STRAWBERRIES CAN BE SERVED IN NOVEL WAYS

Luscious Berries Give Hostess Chance to Surprise Guests

When strawberries are plump and large it is a pleasant variation to put several on a plate unstemmed, garnished if possible with their glossy leaves. Include a little mound of granulated sugar on the plate, and then eat the berries after taking them by the stem and dipping them in the sugar. The experience is quite as pleasant as plucking and eating the berry from the vine.

Another inviting way is to pour three or four spoonfuls of sweetened orange juice over each individual serving of stemmed berries.

The value of sugar in improving the flavor of early summer fruits should be kept in mind. Many of these fruits have a tartness that will be pleasantly modified by sugar. And if berries, peaches and early apples are stewed, sugar is essential for real enjoyment.

Of course, it is exceedingly profitable to take advantage of opportunities that occur and "put up" a supply of jellies, jams and preserves. These foods help make balanced meals more appetizing. A bit of sweet makes the meal complete. The Sugar Institute.

Cannery Pear Standard Grades Are Announced

Oregon standards for cannery pears, applicable only to pears in unlined containers, as adopted by the Oregon state board of horticulture, are as follows:

No. 1 grade shall consist of pears of one variety which are mature, well formed, free from broken skins, decay, and free from damage caused by limb rubs, bruises, drouth spots, sunburn, hail marks, russeting, insects, mechanical or other means. The diameter of the smallest pear permitted in this grade shall be not less than 2 3/4 inches.

No. 2 grade shall consist of pears of one variety which are mature, fairly well formed, free from broken skins, decay, and free from serious damage caused by limb rubs, bruises, drouth spots, sunburn, hail marks, russeting, insects, mechanical or other means. The diameter of the smallest pear permitted in this grade shall be not less than 2 inches.

Culls are pears which do not meet the requirements of the foregoing grades.

Tolerance: In order to allow for variations incident to grading and handling a tolerance of 10 per cent for total of all defects will be allowed, except that in No. 1 grade serious damage shall not exceed 5 per cent. Percentage to be figured by weight.

Definition of Terms

1. "Maturity" means having reached that stage of maturity which will insure the proper completion of the ripening process. Pressure test of the fruit with skin on at time of picking shall range from 22 to 15 pounds with a 5-16 inch plunger or the equivalent range with a 7-18 inch plunger.

2. "Well formed" means having a shape characteristic of the variety applicable to the district where grown.

3. "Fairly well formed" means that at least one-half of the pear shall have a shape characteristic of the variety.

4. "Damage" means any defect which will affect the proper maturing quality or the paring quality of the fruit. After paring, cutting in halves and coring, each half shall be well formed or the pear is considered seriously damaged.

5. "Serious damage" means any injury which affects the paring quality of more than one-half of the fruit. After paring, cutting in halves and coring, one of the halves shall be well formed or the pear is considered seriously damaged.

The above grades become effective July 21, 1930.

Lightning Endangers Royal Pair

Bolt Slays Man Near Box at Ascot Race Meet — Panic Follows Sudden Storm — Society Women Trampled By Crowd.

ASCOT, Eng., June 18.—(AP)—Panic swept through the throngs of fashionable persons at the royal Ascot race meeting today when a terrific electrical storm broke over the enclosure and a bolt of lightning struck and killed Walter Wolbein, well known north of England bookmaker, in Tattersall's betting ring only a few yards away from the king and queen and their royal guests.

Society women caught in a rush for shelter were thrown to the ground and trampled under foot.

Extraordinary scenes were enacted when the storm broke suddenly with great intensity.

King George and Queen Mary, accompanied by the Prince of Wales, and escorted by many of their guests at Windsor Castle, had arrived in motor cars and were in the royal box when the storm occurred.

Confusion reigns.

They were chatting animatedly when almost instantly the scene of confusion was precipitated before their eyes and the air was rent by a blinding lightning flash which killed the bookmaker.

The meeting was, with its attendant fashion display at its height when the sudden electrical storm occurred. The royal hunt cup race had been run, and all was animation within the enclosure.

The king and queen, with the Prince of Wales and other members of the royal party, had arrived by motor car.

The main enclosure and other spaces were flooded in a few minutes in the downpour.

All further racing for the day had to be abandoned.

The MacNab won the royal hunt cup.

Fuller Plane Here Friday, June 20

The "Fuller 49'er" plane will be in Medford Friday, June 20 and will give a free ride to every one who has purchased Fuller paints to the amount of \$10 or more from the Rogue River Lumber company between June 6 and 20.

The "Fuller 49'er" is a Pitcairn sport mailing department of commerce approved type, certificate 92. Wright whirlwind J five C motor, two 20 horsepower NACA cowling over motor, overall wing span, upper 33 feet; wing span lower, 30 feet; overall height nine feet three inches; mean aspect ratio 7.42; wing area 252 square feet; gap at fuselage 62-inch; stagger, 22 inch, 42 1/2 per cent; weight, empty 1392 pounds; total weight 3050 pounds; wing load 12.1 pounds square foot; power loading 220 hp., 13.8 lbs. hp.; gasoline capacity, 43 gallons.

Harvey Lenicke, a pilot of long experience, is in charge.

Mother of Four Babies

"Although I am only 22 years old, I have four babies to care for. Before my first baby was born my mother urged me to take Lydia E. Pinkham's Vegetable Compound because I was so terribly weak. I had to lie down four or five times a day. After three bottles I could feel a great improvement. I still take the Vegetable Compound whenever I need it for it gives me strength to be a good mother to my family."—Mrs. Vern L. Dennings, 510 Johnson Street, Saginaw, Michigan.
