# Economy Groceteria

## THE HOME OF BREAD LIKE MOTHER MADE

### TO SAVE — YET TO HAVE

Self denial is the one great obstacle to thrift but once that obstacle is removed saving becomes so easy as to become automatic.

And that's just the natural result of trading at the Groceteria — of being your own storekeeper.

Here—by serving yourself—you eliminate the biggest expense of food distribution—all of which is taken off the selling price — You may buy the same foods, set the same table, live as you have always lived, and do it for less—truly automatic saving—

And besides there's the advantage of self-selection—of never being urged to buy — of taking what you want without being asked to try something else — of getting the brands of food you know without asking prices—all this with no waiting for clerks—nor hurrying to release a clerk to wait on the next customer — surely the highest type of service—with a tidy balance for the bank account.
