## MAYOR IN FAVOR OF LONG STUDY MANAGER FORM

Medford in Good Shape in Business Way, Is Assertion Upon Return From Long Trip.

Mayor and Mrs. A. W. Pipes arrived back home last night from a three weeks' absence, during which they traveled 2600 miles by auto in four states—Idaho, Montana, Washington and Oregon—and ten days of which time were spent at their former home at Salmon, Ida. The trip was essentially a business one and while at Salmon the mayor sold his ranch property there, but did not succeed in selling a property he owns in Washington.

Speaking of business and agricultural conditions he observed during his trip, which he found were not of the best. Mayor Pipes covered the subject by stating that conditions in Medford and the valley in comparison were nothing for local people to complain about. Mayor Pipes, when interviewed at his office this noon, although stating he had hardly been home long enough to be thoroughly caught up with municipal and general local affairs, felt he had become familiar enough with what had transpired during his absence, about the steps that had been taken to bring about the amendment of the city charter so as to inaugurate the proposed commissioner-manager form of government, to advise the council, and the special committee appointed by Acting Mayor E. M. Wilson, to investigate and recommend some plan of this type, to go slow and study the matter thoroughly.

Inaugurated in Absence It will be remembered that the city council started the movement for making the proposed change while the mayor was away, well knowing that he was in favor of such a plan, and Acting Mayor Wilson appointed the special committee, which endorsed the draft of a plan Wednesday night that had been drawn up by its sub-committee. Councilman J. C. Collins and Judge W. E. Crews.

While the mayor had not had sufficient time yet to thoroughly study into the plan endorsed, and which Councilman E. M. Wilson yesterday disagreed with in several important particulars, he, too, counseled that the matter be studied from every angle before final drafting of a type of the commissioner-manager form and submitting the question to the Medford voters.

Ask Other Cities Mayor Pipes declared that he

## SUGAR IMPROVES FLAVOR OF MANY FAMILIAR MEATS

Lamb, Beef and Ham are Delicious Seasoned With Sugar and Salt

The popularity of baked ham lies to a great extent in its glazed sugar coating. But many cooks use sugar sparingly. By adding a half to a cup of sugar to the water, also a half cup of vinegar, the meat "picks up" a savory-sweet flavor during the cooking that is most pleasing.

Sugar also improves the flavor of lamb chops when that meat is allowed to stand before frying in the following mixture—1 teaspoon sugar, 1/2 teaspoon salt, 1 or 2 teaspoons vinegar or lemon juice and 5 tablespoons salad oil. The sugar blends deliciously with all the other ingredients and the meat juices.

Beef steaks composed solely of meat, or in combination with vegetables, are also most taste-pleasing when a dash of sugar is added with the salt and pepper.

Aside from using sugar to season meat, it can be used successfully in the preparation of most canned and fresh vegetables. Sugar emphasizes the mild taste of spinach; mellows in a surprisingly pleasing way with the flavor of peas, carrots, corn, cabbage, beans and other vegetables. Most foods are more delicious with sugar. The Sugar Institute.

Get Associated with the Jacksonville DANCE Sat. Nite 9 to 2:00 A. M. June 21

would recommend to the special committee and the city council that before finally deciding on any plan that authentic information should be obtained from every Oregon city that had a government of that kind, as to how its plan worked in comparison with the mayor and city council plan such as Medford now has; and then go outside the state to various parts of the nation where cities had the commissioner-manager type of administration, seeking the smartest recommendations. He would advise that the various types of such government in force in about fifty cities be studied in this way, in order that Medford might embody the best features of each and avoid the proven mistakes of some types.

## LOCAL GUARDS HONOR JOSEPH FUNERAL CARS

CAMP CLATSOP, Ore., June 20.—(Sp.)—Fitting military honors were accorded the body of Senator Joseph as the funeral cortege left camp by Company A, on guard duty at the time. As the funeral cars passed the guard house the entire guard stood at "present arms," and a military escort accompanied the body to Astoria and later in the day to Portland. The Oregon Journal carried a picture of Company A doing military honors to Senator Joseph.

The banner for the best kitchen in the battalion has been twice awarded to Company A during the camp. This banner is awarded daily to the company in the battalion having the best mess, which takes into consideration the bill of fare served the men; cleanliness of kitchen, manner of serving, and other details incident to a satisfactory mess. The officers and men of Company A are quite elated over having won this award, twice and now that they have the banner flying from their mess hall they are going to try and hold on to it. More honors have been carried off by Company A, in having been awarded highest percentage so far over all companies in camp for the best "guard detail" this year. The boys of Company A certainly did do their stuff when on guard and were the recipients of many compliments from high ranking officers and inspectors. The guard detail was headed by Captain Carl Y. Tengwall, an officer of the day, and Lieutenant Bruce W. Moffatt as commander of the guard.

Lieutenant George F. Lindley has been busily engaged since the commencement of camp with recruit instruction, he having been designated as camp instructor of recruits for the 186th regiment. He "graduated" his class Monday and is now back to his routine company duties.

The boys of Company A are all well—not a single man is on the sick list—and from all accounts it looks as though our record this year will be the best ever. They are all enjoying camp immensely and the morale of the men is the best ever seen here. The weather has been ideal for training purposes and the boys enter into the spirit of things with a snap and like the training immensely. In past years when the weather was bad it was hard to keep the morale up, but this year the boys are all pepped up and many of them are regretting that only one more week remains before we entrain for home.

A new innovation in camp this year is a nightly movie and entertainment in the recreational area, and this feature is a big factor in keeping the boys in camp instead of their going out of camp in the evenings. The shows in camp are good so really there is no good reason for the boys wanting to leave camp for recreation.

Records accumulated show that 26 members of Company A qualified as expert riflemen, sharpshooters and marksmen on the rifle range this past season, and badges will be awarded here at camp to the men who qualified, so when the company returns to Medford there will be many a medal bedecked blouse in evidence.

The sailing of the ship will be spent in training for the big review and demonstration which will be held Saturday, which will be witnessed by thousands of people. Elaborate plans are being made for this military demonstration which will surpass any heretofore held.

## NORBLAD SILENT UPON CANDIDACY

SALEM, Ore., June 20.—(Sp.)—Governor Norblad returned to Salem today after a three weeks' trip to eastern cities in the United States and Canada. He declined to comment on the present political situation in Oregon, caused by the death of George Joseph, Republican nominee for governor. Norblad is considered a candidate for nomination by the state central committee, but he refused to talk about his intentions.

LA GRANDE HIT BY ELECTRICAL STORM  
LA GRANDE, Ore., June 20.—(Sp.) Severe electrical storms over the Grande Ronde valley today caused several thousand dollars worth of damage. Lightning struck the Eastern Oregon Light and Power company substation at Union, started a fire which destroyed much equipment and gutted the building.

## UTILITY USERS ARE PROTECTED BY REGULATION

Bylesby Official Lists Benefits of State Supervision—No Customer Ever Wronged.

SAN FRANCISCO, June 20.—(Sp.)—Reuben S. Slight, engineer, was posthumously awarded first prize of \$10,000 for an essay written in 1925 forecasting development of the electrical industry. The check was presented to his widow, of Ann Arbor, Mich., by the National Electric Light association convention here. Slight was killed in an airplane crash in 1927 while gathering information on Vermont flood conditions.

W. J. Hegenah, of Chicago, vice president of the Bylesby Engineering and Management Corporation, speaking on "The Public Utilities Under Regulation," listed outstanding beneficial objects accomplished by state regulation as, first, the amazing expansion of the industry; second, the development of centralized utility control and management; and third, the great public benefits therefrom. "No wrong can come to any customer from utility service," he said "so long as the character of the service in each community and the rates to be charged are prescribed by competent state authorities and the issuance of securities of the operating companies subjected to public inquiry and approval."

## GOLFERS FIGHT FOR ADVANTAGE AT VANCOUVER

VANCOUVER GOLF CLUB, Vancouver, B. C., June 20.—(Sp.)—The two semi-final matches in the Pacific northwest amateur golf tournament between Frank Dolp, defending champion, and Eddie Hogan, both of Portland, and Johnny Robbins, Portland, and Alex Duncan, Seattle were all square at the turn of the morning round of play today.

Dolp had Hogan one up until they reached the 9th green, where the hard driving youth holed a 12 foot putt for a birdie three to even up the match. Dolp stroked the nine holes in a sensational 34—two under par. Hogan took 35.

Robbins took a lead over Duncan when he won the first hole but the Seattle golfer came back to win the fifth and then held the Portland Youngster even until the ninth.

In the women's semi-finals, Mrs. Vera Hutchings of Vancouver, defending champion, was leading Mrs. Brent Potter of San Francisco by two holes and Mrs. Fred Jackson of Seattle was two up over Mrs. S. C. Sweeney, Vancouver, at the end of nine holes.

HARBOR BILL VOTED BY SENATE MEMBERS  
WASHINGTON, June 20.—(Sp.)—The senate today passed the rivers and harbors measure embracing waterways improvements for every section of the nation. No record vote was taken. The senate approved all additions to the house bill proposed by its commerce committee. The measure goes back to the house for concurrence in these. Quick Approval is expected. President Hoover has not made known his attitude toward the legislation.

## NO WONDER YOU FEEL SICK

When Constipation Gets Its Grip You Can't Keep Well. What You Need Is Kellogg's ALL-BRAN  
That tired feeling, that persistent headache, that bad breath are often symptoms of constipation. There is only one thing to do—clean out your system. Do it now or you may be seriously sick. Your intestines are clogged because you have not eaten enough roughage. And there is no better roughage than that healthful, appetizing cereal—Kellogg's ALL-BRAN.

ALL-BRAN is a natural food that brings natural results regularly. Its fiber content sweeps the intestines clean of poisonous wastes. Much better than habit-forming pills which become useless unless their dose is increased. In addition, Kellogg's ALL-BRAN is rich in iron. Scientific research has proved that practically all of this iron goes into the blood—bringing the glowing color of health to the complexion and strengthening the entire body. A wonderful way to enjoy keeping well! You will like the nut-sweet flavor Improved in Texture and Taste

Come by Auto, Bus or Train . . . Walk If Necessary . . . But Don't Dare Miss the \$25,000 COMPULSORY Cash Raising Sale At the ENDERS CO., Ashland, Ore. THE SECOND BIG DRIVE NOW ON! Savings up to 50% AND MORE

No matter where you live — within a radius of 50 miles — it will pay you to attend this remarkable sale during the second big week. Thousands came, bought, and saved during the first week, and now prices in many instances are lower than they were a week ago. Only our immediate need for ready cash could cause such Drastic Price Reductions throughout the store.

We cannot list many prices here, but we invite you to come and see for yourself and we promise that you will not be disappointed.

SALE CONTINUES ALL NEXT WEEK AT The Enders Company ASHLAND OREGON

CHAIN SELLING OF COFFINS DEPLORED  
SPOKANE, June 20.—(Sp.)—Washington state undertakers, holding their state convention here, deplored the encroachment of chain stores into the coffin selling industry and looked into suggestions to live up their business. C. E. Smith of Spokane told the convention that chain stores had not only started selling coffins, but were dealing in complete funerals as well, but added that he did not believe this type of competition was a menace to the professional, because chain stores "cannot supply the personality to the service."

Newspaper of Future Will Roll Out Of Radio in Subscriber's Residence  
MILWAUKEE, Wis., June 20.—(Sp.)—Frank Parker Stockbridge, veteran of 50 years in journalism, today looked 50 years into the future and gave his forecast of what the newspaper of that day may be like. Drawing on recent scientific achievements as the basis for his picture, he told the National Editorial association that the horoscope hints at these things: The editor will receive his quota of general news, general advertising, pictures and features by radio, in facsimile, automatically, by means of machines. He will set his own local advertisements, "perhaps by methods which we have not even guessed at." His local news and comment will be written by his reporters, subeditors and correspondents, each of whom will operate a keyboard either in the office or miles away, the impulses of which is written in type. The pages of the paper will be transmitted by radio to subscribers, and reproduced on sensitized paper. "All the subscriber will see will be the completed paper rolling out of the machine, ready for him to take it out and read it." Mr. Stockbridge, editor of "The American Press," saw an alliance between radio and the newspaper in the new day, but expressed belief that radiocasting of news now carried on—read by an announcer—never can supplant printed page.

NEW YORK BUILDING FALLS INTO STREET  
NEW YORK, June 20.—(Sp.)—One man was seriously injured and several others escaped injury today when a six-story general merchandise warehouse collapsed in the downtown west side. The entire front of the building collapsed with a crash heard in blocks, and bricks, merchandise, all sorts, and debris were there for several hundred feet along a narrow street.
