Undesirable Alien Vegetation

By cry city, town and community in the United States has 4ts quotation.

There are several plants in various parts of the country designated by of undesirable aliens which the federal government never can round up and deport. Many of them have been here for year; others are more recent arrivals. Not a few were brought to these shores by reputable native Americans who never suspected to injury they were doing their country. Some states even passed laws protecting certain of these aliens on the recommendation of their friends, who vouched for their good character. Numbers came in undetected, escaping the watchful cyes of officials at the docks. They reached America in all concelvable ways resorted to by their kind.

Every country in Europe contributed a portion of the undesignable. Surprisingly enough, Engling. Ways resorted to by their kind.
