

VOTE MORE COIN FOR CRIME QUIZ, PRESIDENT BACKS

WASHINGTON, June 21.—(AP)—President Hoover's law enforcement commission was given a new lease on life today by a subcommittee of the senate appropriations committee...

Glass said after the meeting that his amendment would compel the commission to follow the spirit of the law that created it.

RECORD SET BY LINDY LOWERED BY MEXICO ACE

VALBUENA FIELD, Mex., June 21.—(AP)—The first non-stop flight from New York to Mexico was completed by a Mexican aviator today.

He exceeded by only half an hour the mark of 16 hours he had hoped to set.

Col. Fierro not only made the first non-stop flight from New York to Mexico City, but bettered by more than 10 hours the time set by Col. Charles A. Lindbergh in December, 1927.

The Mexican ace's record run was made in clockwork fashion.

Between the last two places he successfully dodged a severe electric storm sweeping in from the Gulf of Mexico.

Between the last two places he successfully dodged a severe electric storm sweeping in from the Gulf of Mexico.

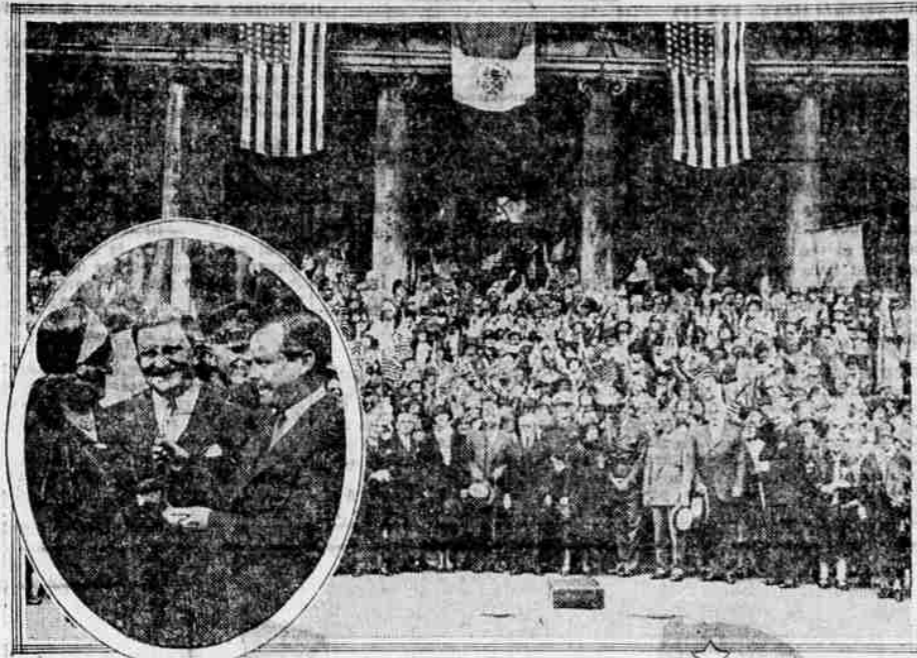

TACOMA DEMOCRATS DRY BY FIVE VOTES

TACOMA, June 21.—(AP)—By a margin of five votes Pierce county's delegation to the state Democratic convention at Centralia next Saturday will go instructed to vote dry and will be bound by the unit rule.

By a vote of 57 to 52 the convention held here today adopted a resolution that declares this county is opposed to any effort to modify existing prohibition laws.

Calvin Stewart, former Tacoma postmaster, offered a resolution to send the delegation to the state Democratic convention at Centralia next Saturday with instructions to vote dry and will be bound by the unit rule.

GOLD STAR MOTHERS RECEIVE NEW YORK'S WELCOME

The first contingent of gold star mothers, 231 in number, on the steps of New York city hall where they received the city's welcome.

ANTARCTIC HOME HEARS PLAUDITS OF HOME STATE

RICHMOND, Va., June 21.—(AP)—"Dick" Byrd came back to old Virginia today to receive the welcome of a conquering hero and a native son.

Thousands of Virginians cheered and shouted themselves hoarse as the man who conquered the icy coldness of the polar skies, stepped upon the soil of his native state.

The entrance of the admiral into the courthouse at the broad street station was the signal for an outburst of cheering that continued in unbroken din until he passed out to a waiting automobile where other thousands, unable to enter the station, took up the cheering.

Along streets gay with flags, streamers and bunting the admiral's automobile wound its way to Capitol Square and the executive mansion.

With the Richmond light infantry Blues leading the way, Byrd later rode through the thousands to lay a wreath on the monument to another great Virginian and explorer, Matthew Fontaine Maury.

The admiral retired after the ceremony to the home of his steward Bryant, who was also his host after his North Pole flight.

Col. Fierro not only made the first non-stop flight from New York to Mexico City, but bettered by more than 10 hours the time set by Col. Charles A. Lindbergh in December, 1927.

DETROIT EFFORT TO OUST MAYOR REVEALS FRAUD

DETROIT, June 21.—(AP)—The movement for the recall of Mayor Charles Bowles assumed the aspect of a protracted controversy today as supporters of the mayor made charges of "gouging frauds" and obtained a temporary injunction restraining the city clerk from calling an election.

Supporters of the mayor filed with Circuit Judge Webster the first formal answer to the charges which have been made against the administration during the last few months.

Intimations that leaders of the movement might start a legal battle on their own behalf were forthcoming when John W. Eberman, deputy city clerk, refused to accept 7,955 supplementary names on recall petitions presented by Walter B. Carr, director of the recall.

Another development was Paul Connelley, Wilson's report of "staring friends" alleged to have been revealed by policemen detailed to check on signatures to the petitions.

500 ADHERENTS OF GANDHI BATTERED IN BOMBAY RIOTS

BOMBAY, June 21.—(AP)—Demonstrations here today by the Nationalist followers of Mahatma Gandhi resulted in more than 500 injuries, the greatest number in Bombay since the civil disobedience campaign opened March 12.

There are indications of other tumultuous scenes tomorrow, with police preparing to break up a demonstration of sympathy for seven-month members of the eighth annual Nationalist strike who were imprisoned for disobeying orders in a riot at Peshawar.

The commissioner of police notified the new president of the Bombay congress committee, Mrs. Perin Captain, granddaughter of the late Dadabhai Naoroji, that all such manifestations will be prohibited, but the police are making plans on the basis the congress will ignore the order.

Today's trouble occurred principally on the Mallian Esplanade, a large meeting ground forbidden to Nationalists by official order yesterday because of native troops quartered at one end.

The volunteers gathered on the Mallian this morning anyway, following previous plans for a review by Pandit Motilal Mehra, acting president of the All-India Nationalist congress.

Thousands of natives assembled an hour before the procession was to begin. The police, numbering 400 on foot, 50 mounted and 30 officers, ordered them to disperse.

The crowd refused and the foot police charged three times with their bamboo sticks without being able to scatter the natives.

Those driven away did not disperse, however, but remained in the streets nearby and finally, after growing in numbers, pushed back again to the forbidden area.

Once more the mounted men spurred into the throng and scattered the demonstrators.

FRANCE IRKED BY NEW TARIFFS, TO DEMAND CHANGES

PARIS, June 21.—(AP)—The French ministry of commerce today made known that reciprocal relations between France and the United States can be guaranteed only by strict trade reciprocity.

Pierre Etienne Flandin, commerce secretary, announced his department was making sweeping investigation of the new tariff schedules and comparing them with France's customs and that upon the basis of this inquiry demands would be made to the United States for equitable adjustments.

The official avowed in case the United States commission and President Hoover should prove unable to satisfy the French demands, his country would have to "face the situation."

"Two essentials are to be considered," M. Flandin declared. "The American authorities will either give us satisfaction or refuse."

ESCAPED MANIAC HURTLES FAMILY, SELF, OVER CLIFF

NEW HAVEN, Conn., June 21.—(AP)—Seized with a mad, frenzied while on an outing with his family, Raymond C. Spang, 35, Ansonia, a World War veteran who escaped yesterday from a hospital for the insane, today hurled his wife and four children to their death down a 300-foot cliff, known as West Rock, and then followed in a suicidal leap.

Two hours after he had sent the family hurtling through the air, Spang jumped off a ledge 75 feet below the summit to his own death. Thousands of spectators and scores of policemen and firemen saw the man leap from the ledge.

Besides Spang, the victims were his wife, Gertrude, 33, former school teacher, and their children, Helen, 16; Lorraine, 7; Raymond, 5; and Donald, 4.

The place of the tragedy overlooks a baseball park which, like the rock, is in the city park system on which groups of children were playing.

The falling to West Rock was to have celebrated Spang's homecoming. The family left their Ansonia home about ten miles away in the family automobile. The excursion was an impromptu one.

After Spang's escape, a message was sent that he had escaped. Captain Nils I. Poulsen, chairman of the Ansonia American Red Cross, received word to that effect at 4 p. m. The police said no telegram had come to them of Spang's escape.

The start of the tragedy was seen by scores of persons, mostly children, playing at the foot of the cliff. These later, horrified and frightened, were unable to give a description of the sight for some time.

Maury Bagdasoff, who was watching a man on top of the cliff, saw a child pushed over. He ran in his fright until he could find a telephone and then all he could do was to blurt out "Grace Hospital." But this little chap, when he could talk, gave the first inkling of what was happening and an ambulance was quickly headed for the Westville section.

It was at least two hours after that before it was definitely fixed Spang had exterminated his family and at that time, he was dead. By mid-afternoon the story of the tragic happening had been cleared up and four bodies were recovered from the rocks at the base of the cliff.

STOCKS CONTINUE DOWNWARD TREND

NEW YORK, June 21.—(AP)—Spring, which came in like a bull on the stock market, went out like a bear today. The downward movement of prices from the year's high levels of April was resumed at the opening of trading and although there was a flutter of covering in the late dealings, final quotations were 12 to 34 lower in leading shares, with much larger losses in a few instances. The price index of 30 stocks closed at a new low for the year.

Commodities likewise continued their drop. Wheat futures made new lows for the season in Chicago and lost 1 1/2 to 1 3/4 cents. Corn futures were off about half a cent, while cotton on the New York market broke 1/2 a bale, although it steadied considerably before the market closed for the week.

The movement in stocks seemed to have more of the professional touch than had been evident in earlier sessions of this active week.

WASHINGTON, June 21.—(AP)—Charles M. Young, assistant secretary of commerce for aeronautics, left here today for a month's business trip and will participate in the glider camp made famous in the winter by Col. and Mrs. Charles A. Lindbergh.

HUNGARY ADVISED TO EAT GRAPES; NOT DRINK THEM

BUDAPEST, Hungary, June 21.—(AP)—Hungarian temperance leaders today admitted prohibition in Hungary will have a long and difficult road to travel.

Gathering in a general assembly to protest against a recently organized government competition for the best method of pushing the sale of Hungarian wines, the leaders of the Federation of Abstinent Societies cited what they described as the benefits of prohibition in the United States.

Martin Lanyi, former lord lieutenant of the District of Pece, made a long address accusing the minister of agriculture of promoting the sale of wines while the minister of social welfare was sponsoring propaganda against the consumption of alcoholic liquors.

Dr. John Beak, president of the Hungarian Blue Cross society, urged in favor of encouraging grape growing for eating purposes instead of for wines and brandies, saying pernicious effects would thereby be avoided.

The leaders said temperance was making slow progress in Hungary, which has certain regulations covering the sale of alcoholic liquors. On some days only light wine may be purchased, and at no times may those below the age of 18 buy any.

SINCLAIR PLANS TITANIC MERGER

NEW YORK, June 21.—(AP)—The New York Herald-Tribune says Harry E. Sinclair, head of the billion-dollar Sinclair Consolidated oil enterprise, is preparing to 30-scale California territory through an affiliation or alliance with Richfield Oil marketers of refined products.

The paper says Sinclair is believed to be engaged in the creation of an international organization rivaling Royal Dutch Shell and the Rockefeller interests, and that a California outlet is essential.

BULLETIN ACTION DELAYED ON HARBOR BILL

SACRAMENTO, June 21.—(AP)—The plan of the rivers and harbors committee to seek immediate final action in the house on the rivers and harbors omnibus bill passed yesterday by the senate was changed today because of the inability to obtain copies of the revised measure.

Chairman Dempsey of the committee had been instructed to submit the bill carrying authorizations aggregating \$142,000,000 for action.

It had been planned to round the unanimous consent of the house to agree on the senate amendments which increased the total \$24,500,000 more than included in the house bill.

Dempsey said he could submit the bill for action probably Monday.

More than \$7,240,000 worth of books and pamphlets were exported by the United States during the first three months this year.

EVERYONE IS PLAYING Midget Golf On the Sporty Little 18-Hole Course at 8th and South Oakdale. Join the scores who are getting a lot of enjoyment out of this new popular sport. Everything furnished and the charges are very moderate! Open 7 a. m. till Midnight. ROBERT O. BARKER, Owner and Manager
