Great Flying News. The Pope Protests. Texas Surprises Them. Whiskers the Fashion.

Copyright King Features Synd. Inc. Big flying news, as the week begins.

The Hunter Brothers continue their non-stop grind above Chicago, with the world's record long since broken. They propose to fly on, until the Fourth of July, then drop fire crackers.

Their feat is a tribute to their courage and endurance and to the quality of their machine.

Williams, Boyd and Connor plan new deeds, having flown from New York to Bermuda and back, non-stop, in 17 hours and one minute. And Dorothy Hester, nineteen-year old girl, in Portland, Ore., does an "outside loop," after one year's flying. Three times, with two failures in five tries, the young western girl did what few men have ever done and no woman ever attempted.

Henry Ford thinks flying makes prohibition absolutely necessary, here. Europe does not find it so, but demands moderation. As a rule, European flying companies forbid drinking by pilots for some hours before, and during flight.

Curiously enough, all European countries combined have had fewer aviation accidents due to drinking than this country, in proportion to miles flown.

Pope Pius complains of Protestant activity in Rome. The proselyting is described by the pope as an unceasing "work of corrosion and conquest."

Pope Pius mentions no Protestant sect, but is believed to refer to activities of the Methodist church.

Five new cardinals were named yesterday. Their names, Rossi, Serafini, Silveira, Selvaggianni and Lienart indicate the supremacy of Italy, in the college of cardinals is not diminished.

The last of the five, Archille Lienart, one of the youngest bishops of France, is the only non-Italian.

Another young American surprised the world yesterday in London. This one, Wilmer Allison, from San Antonio, Texas, beat Henri Cochet, the world tennis champion, in three straight sets.

Blaney Matthews, district attorney's chief investigator, confirmed the announcement. He admitted Foster had been held in an outlying jail during the night and brought into headquarters this morning.

"A number of gangsters," Matthews added, "also are in custody." He said they are believed to be members of Foster's gang.

Worked Under Cover Two Chicago officers have been working under cover here for two weeks, Matthews said, and this was why the authorities were wary about giving out information.

"It was a big mob," said Matthews. "We didn't get them all, but every police department in the United States today is looking for the men who slipped away from us."

Foster was booked at the jail shortly after ten o'clock on suspicion of the murder of Lingle. The arresting officers said that one of five alleged gangsters captured with Foster is believed to be Red Forsythe, whom Chicago police believe to have been the actual killer of Lingle.

NAVY PACT DENOUNCED BY BEATTY

England Only Nation to Make Disarmament Or Reduce Sea Strength, Is Claim of Admiral of Fleet in House of Lords.

WASHINGTON, July 1.—(AP)—President Hoover has decided to call the senate into special session for consideration of the London naval treaty next Monday, if congress adjourns this week.

Congressional leaders were making a drive today to assure an adjournment by Thursday night to permit a holiday over the Fourth of July.

LONDON, July 1.—(AP)—Earl Beatty, admiral of the fleet, attacked the London naval treaties vigorously in the house of lords today. He declared England was the only nation under the treaty that made any disarmament or reduction of its sea strength.

Admiral Beatty told the lords that Britain was obliged to make such reduction that she was rendered impotent and incapable of maintaining control over the various parts of her farflung empire.

"In the United States," Earl Beatty said, "the conference has had the result of increasing their armaments in cruisers by no less than 233,000 tons."

Japan is increasing her cruiser tonnage by ten percent. France is not restricted in any way. She has built three 10,000-ton cruisers. She is building three more and has authorized another ten.

"Italy has built two cruisers, is building four and has authorized one."

Continuing, Earl Beatty said that in all the calculation at the admiralty they never had taken the United States into consideration.

"Indeed, the admiralty were obliged not to do so in formulating their requirements. It was recognized that if she (the United States) wished to build up to our standard she could do so without causing us any anxiety whatever."

"To provide protection against naval attacks on the part of the United States was not a part of our scheme of defense. It was completely out of the question."

At the meeting of the southern Oregon county agents held this forenoon in the court room of the federal building, matters of common interest to agriculture and horticulture were discussed, and this discussion was continued at the noon luncheon of the agents held at the Hotel Medford. This afternoon the county agents attended the orchard irrigation demonstration at Watt's orchard. County agents of seven counties were in attendance.

At the forenoon meeting it was definitely decided by the county agents that the Mid-Pacific Empire Agricultural Economic Conference, sponsored by the Northern California-Southern Oregon Development association will be held in Medford on Friday and Saturday, November 7th and 8th. County Agent R. G. Fowler is chairman of the program committee, and features for the program were proposed and discussed at today's meeting.

City of Chicago Occupants Talk to Family and Broadcast Hello to World By Dangling Microphone—478 Hours Reeled Off.

ENDURANCE FACTS Time—12:40 p. m. Hours in air—477. Contacts—176. Gas used 6,440. Oil used 305. Mileage 35,775.

CHICAGO, July 1.—(AP)—From the cabin of the "City of Chicago," as it whirled towards its 21st day on the wing, John and Kenneth Hunter, new holders of the world's non-stop flight record, broadcast a cheery "hello" to the world today and chatted with the rest of the Hunter family who watched and listened at the airport below.

It was the first time a radio broadcast had been attempted by dropping a microphone from a radio equipped contact plane.

The microphone was sent down on a 100-foot line shortly after the "Big Ben," manned by brothers Walter and Albert Hunter, had taken gasoline up to the endurance fliers in their 17th refueling contact. The fliers broadcast their determination to "hang on as long as possible," and Kenneth, with a "good-bye everybody," a d d e d: "We'll be seeing you when we get back to that old world."

Then the radio hook-up was shifted to the hangar below and Sister Irene and the mother of the quietest talked to the brothers in the air. Irene, cook for the marathon aviators, spoke a word of caution about eating too much.

While they were talking to the world they left three weeks ago tomorrow, the Hunter boys were in their 478th hour aloft.

Young Old, described as a fine physical specimen, passed his entrance test, by an exceptionally good mark, making 3.5 out of a possible four points, but he was rejected because he had not grown all of his second set of teeth. Senator Glass took the matter up with Secretary Adams. The latter made no promises. Denouncing what he termed the "idiotic regulations," Glass said today: "Have things so changed in the navy that you now fight battles with your mouth? Do you expect to go out and bite the enemy?"

OLD COUNTY RANGE WAR IS SETTLED

Big Butte Horse and Cattle Assn. Wins Long Battle Over Grazing Rights By Supreme Court Decision Modifying Decree.

SALEM, Ore., July 1.—(AP)—An echo of the historic sheep and cattle wars was heard today when the supreme court handed down an opinion modifying the decree of Judge C. M. Thomas of the lower court for Jackson county in the case of the Big Butte Horse and Cattle association against Alex Anderson and others. Justice McBridge wrote the opinion.

The lower court held for Anderson and his associates in the suit that was brought by the association to restrain the defendants from running sheep upon an alleged cattle range in Jackson county.

"The decree will be so changed by a decree here," says the McBridge opinion, "as to enjoin defendants from occupying any land within the boundaries named without express permission of the owner, and without either having the same enclosed by a fence sufficient to prevent sheep from straying therefrom, or having them sufficiently herded to prevent them from straying."

Neither party is allowed costs or disbursements in the circuit or supreme courts.

The modification, according to A. E. Reames, attorney for the Big Butte Horse and Cattle association, "gives them all they asked for."

The case was originally tried before C. M. Thomas, in the circuit court of this county, and concerns grazing rights in the Big Butte and Little Butte creeks country. Much of the evidence in the lower court went back to pioneer days, to show that the range had been always a cattle range.

The Horse and Cattle association is composed of 26 stockmen, including Gus Nichols, M. F. Hanley, the Goppers and the Matthews. At one time Gus Nichols was president of the organization. The decree is of high interest to Jackson county stockmen, and is based upon a law passed by the 1925 legislature.

The modified decree holds that sheep cannot be grazed upon the land in question, without permission of the owner, and further, that same must be fenced.

WILL ROGERS SAYS:

MINNEAPOLIS, Minn., July 1.—We are a good natured bunch of saps in this country. When the president is wrong we charge it to inexperience. When the tariff is wrong we laugh it off. When congress is wrong we charge it to habit. When the senate is right we declare a national holiday. When the market drops 50 points, we are supposed to know its through manipulation. When a bank fails we let the guy go start another one. When a judge convicts a murderer that's cruelty. When enforcement officers can't capture it fast enough to fill orders, that's good business. Everything is cockeyed, so what's the use kidding ourselves?
