

Twenty-Fifth Year

MEDFORD, OREGON, WEDNESDAY, JULY 2, 1930.

No. 102.

CRATER LODGE HOST TO DADS OF UNIVERSITY

Executive Committee Holds Confab As Guests of Manager Price — Ham- mond Is Appointed.

CRATER LAKE LODGE, Ore., July 2.—(Special.) As part of the celebration of the official opening of the Crater Lake National park, July 1, the executive committee of the University of Oregon Dads were entertained at Crater Lake lodge over the week-end of June 28, 29 and 30, as guests of R. W. Price, manager. While at the lake the committee held its semi-annual meeting, with Paul T. Shaw, Portland, presiding.

Trips to the water and climbs to the various peaks nearby occupied the dads during the day, while the evenings were taken up with the business of the organization. Members of the committee were accompanied by their families.

The full meeting of the Oregon Dads, which is one of the outstanding events of the year at the University of Oregon, will be held on October 25, it was decided at the meeting here. This is at the time of the Idaho-Oregon football game, and a special stunt is being planned for this game by the dads. J. O. Freck, Portland, was appointed to head the stunt committee.

Elections for the new officers of the organization and for the executive committee will take place in the fall. President Shaw appointed the following nominating committee: O. L. Price, Portland, chairman; R. B. Hammond, Medford; J. R. Raley, Pendleton; Carl Haberlach, Tillamook. These will present their nominations at the October 25 session.

A special meeting of the executive committee has been called for Sunday, July 13, in Portland, at a breakfast at the Benson hotel. At this time the Dads will meet with Dr. Arnold Bennett Hall, president of the University of Oregon, to take up the various business which they were unable to complete at this meeting.

A resolution was passed at the conclusion of the meeting thanking Mr. Price for his hospitality to the Dads organization, which was also entertained at the lake two years ago.

TRAVELING EVANGELIST MISSION WEDNESDAY

G. W. Whitley, traveling evangelist of Berkeley, Calif., will preach at the Volunteers of America Mission hall, 13 North Fir street, at 8 p. m. Wednesday. His theme will be, "The Signs of the Times." Captain Ethel Walsh in charge of the spiritual work of the Medford post of the Volunteers of America extends a cordial invitation to the public to attend the meeting.

ANTI-FAG PETITIONS HAVE ENOUGH NAMES

SALEM, Ore., July 2.—(AP) Secretary of State Hoss has checked the initiative petitions for the anti-cigarette bill and found them sufficient. The petitions have been accepted, assuring the bill a place on the November ballot.

The all-important principle in making jelly is the same in roasting HILLS BROS COFFEE

ADD THE warm sugar to the hot fruit syrup a little at a time to be sure of perfect jelly. Hills Bros., by their patented, continuous process—Controlled Roasting—insure evenly roasted, full-flavored coffee because they roast only a few pounds at a time. No other coffee tastes like Hills Bros. because none is roasted the same way.

Celebrating the Oregon Trail Centennial

Independence Rock, Wyo.

Independence Rock, Wyoming, landmark on the Oregon Trail an historic shrine before which Boy Scouts from all over the country will gather July 3, 4 and 5 to pay honor to the Covered Wagon Pioneers. This encampment will be unique as the largest ever staged by Scouts at a point so remote from civilization. It is 53 miles southwest of Casper. Troop 31, Woodmere, Long Island, will be the first Boy Scout unit to set a monument on the Oregon Trail. Already funds for

this memorial to the "Unknown Pioneers" have been raised through the sale of Oregon Trail Memorial half dollars. The program includes Indian pageants, a stage coach hold-up, the unveiling of a tablet to Ezra Meeker and another to Father De Smet. The Independence Rock celebration is part of the "Covered Wagon Centennial" which President Hoover asked the nation to observe in his proclamation of February 21st, and which is sponsored by the Oregon Trail Memorial Association.

Man of Fifty at Efficiency Peak In All Respects Except Muscles

DETROIT, (AP)—Cheering news—first from the industrial world and now from the medical profession—has come to the man of 50 who feels his age a bar to efficiency and a handicap to his position.

Not long ago Henry Ford was quoted as saying: "If all the men of 55 and over were removed from industry, there would not be leaving enough to carry on." The older men, Ford pointed out, are an indispensable balance to the younger and more vigorous workers.

And now Dr. A. J. Britton, Chicago physician, who appeared before the convention of the Amer-

ican Medical association here, says he believes American industry "makes a serious mistake in regarding a man when he reaches the age of 45."

"When this is done," Dr. Britton says, "the ten years of a man's life in which he attains his maximum efficiency are being thrown away. The age of maximum efficiency begins at 35 and continues to 55, and the greatest degree of efficiency is attained in the last ten years."

From the ages of 45 to 55 a man delivers more in judgment, stability and loyalty, and in every virtue except muscular agility and sheer muscular power."

Food Element Revealed as Poison To Kidneys By Michigan Scientist

ANN ARBOR, Mich.—(AP)—Cysteine, a little known food element in proteins, shows in some unusual experiments at the University of Michigan, how healthful food may become deadly poison.

This substance is white and crystalline, one of the amino acids in meats and other protein foods. It has been fed to rats by Prof. L. M. Newburgh, in the study of causes of nephritis, a disease of the kidneys. He found, as did Lafayette Mendel, that it is a necessity to health of the rats. An insufficiency did harm to them. But it could also be lethal poison, and its good and bad effects depended altogether on the amount eaten.

When it was reduced to three parts in ten thousand of the diet, the rats failed to grow well. Twice

that amount was just right for health.

It became harmful when increased to six to ten parts to one thousand; at five per cent it was poison; at 10 it killed rats in a few days; and at 20 was quick death. Professor Newburgh sought the substances in proteins and the amounts that may cause nephritis. "It may be difficult," he said, "to believe that an essential food-stuff is capable of damaging the kidney."

Yet he concluded that precisely this can happen. The length of time is also important, and the amino acids vary in effects. Professor Newburgh points out that the character of proteins differ in casein, beef muscle, beef liver and seeds of cereals and vegetables. These characters are more important than concentration or length of feeding.

MANY REGISTERED AT DIAMOND LAKE

DIAMOND LAKE, Ore., July 2.—(SPL)—Registrations from Medford at Diamond Lake, June 22nd to 28th, included the following: H. B. Jones, Verl G. Walker, G. K. Kershaw, Mr. and Mrs. Ivan K. Waddell, Mr. and Mrs. H. F. W. Spilver, Kenneth Jerome and family, J. Cousins, J. A. (Swivel) and boys, Harold W. Isaac, Ruth Isaac, Virgil Martin, Billy Carless, Frank Bemuth and family, Bill Cunningham, Sandy Green, Mr. and Mrs. J. A. Gritsch, and J. J. Gritsch. Registrations from vicinity of Medford included: Mr. and Mrs. George W. Ross and George Schroeder, Ashland; Florence Snott, Josephine; Snott, E. R. Metzger and family; Dr. E. R. Shoemaker and family; Roseburg; W. H. Ferguson, Gold Hill; H. S. Morgan and party, Grants Pass.

SALEM MOTHER ILL ON GOLD STAR JOURNEY

PARIS, July 2.—(AP)—Mrs. Jennie Landgraf of Salem, Ore., a member of the "H" party of gold star mothers, today was confined to the hotel at Lille, following a heart attack. Mrs. Landgraf was stricken last night after she had visited her son's grave in Flanders. Her condition was described as "not immediately serious."

SON SHOT BY DAD DURING A QUARREL

VANCOUVER, Wash., July 2.—(AP)—Alex Beletski, 48, Felida, Wash., who authorities said was shot and wounded seriously last night by his father, Charles Beletski, 87, was near death in a hospital here today. Sheriff E. W. McCrite, Clark county, said the elder Beletski shot his son during a quarrel. The son is said to have beaten his father. Following the shooting the father walked to a nearby river where his other son was swimming, told him he had shot Alex and then threw the revolver into the river.

ALBANY GIRL INJURED BETWEEN AUTOMOBILES

SALEM, Ore., July 2.—(AP)—Miss Allie Worrell of Albany was painfully injured on a Salem street yesterday when she was caught between two automobiles, one of which was backing from the curb. She received lacerations on the limbs and body and it was feared a leg was fractured.

2000 ARE EMPLOYED IN SALEM CANNERIES

SALEM, Ore., July 2.—(AP)—A survey made Tuesday shows that about 2000 persons are employed in Salem canneries.

IDEAL WEATHER AT LAKE LURES OPENING CROWD

(By Myrna Bush.)
CRATER LAKE, Ore., July 2.—(SPL)—Although the lodge at Crater Lake has been open for busi-

ness since June 26, the official opening was Tuesday, July 1. Judging from the splendid weather conditions that have prevailed for the past week or ten days, the date might have been the latter part of July instead of the first part.

Contrary to many reports, there is no snow at the rim of the lake and only a very little on the trail to the lake's edge.

Many people walked down the trail to the water to enjoy trips to the island and phantom ship in the large launches.

Olat and Sam Mauerud of the Bang's riding academy of Eugene, arrived at Crater Lake yesterday with 12 horses, to be used on the trails this season. Many people

find it much more to their liking to ride to the water's edge rather than walk.

Two women were the first to register at the lodge this year. They were Miss Louise Poloubit of Boston and L. W. Montague of Chattanooga, Tenn. They registered on June 26.

Mr. and Mrs. W. L. Clemeson of Medford were guests of R. W. Price, manager of the Crater Lake lodge, last Sunday.

Edward M. Miller, automobile editor of the Oregonian, and Ray Conway of the A. A. A., spent June 27 and 28 at the lake, visiting R. W. Price and doing some photography of the lake.

The Oregon Dads' committee

held a meeting at the lodge on June 29. Those who attended the meeting were: Miss Marian Phy, private secretary to President Arnold Bennett Hall of the University of Oregon; Mr. and Mrs. J. C. Stevens and daughter, Mr. and Mrs. O. Laurgaard and Miss Ruth Newton.

R. W. Price entertained as guests for a couple of days this week Mr. and Mrs. R. K. Keller of Portland. Mr. Keller is the proprietor of the Benson hotel.

Constance H. Hitchcock and Pauline Spencer of Eugene arrived at the lake Monday after a six-day trip over the Skyline trail by horseback. They were met by George P. Hitchcock and daugh-

ter. They left Tuesday morning for Medford and will remain there several days before going on to Eugene.

Mr. and Mrs. Harold Hildreth of Medford visited with classmates at Crater Lake, having motored from Medford.

SYNDICATE HAS EYE ON EUGENE UTILITIES

EUGENE, July 2.—(AP)—It developed today the city of Eugene has been approached by representatives of the Chapman company, Philadelphia syndicate, desiring to purchase the municipal light and power plant.

THE NEW TEXACO MOTOR OIL LONGER-LASTING, "CRACK-PROOF"

THE Texas Company again demonstrates its leadership in the petroleum field with the introduction of a vastly superior, new product—a motor oil that lasts longer—that is crack-proof—a motor oil that meets exactly every requirement of the high speed automobile engine of today! This new oil revolutionizes lubrication values as completely as the new and better Texaco Gasoline, the original "dry" gas, revolutionized motor fuels in the Spring of 1926.

An Oil Without Precedent

There have been oils that gave remarkable mileage. There have been oils that flowed freely at zero. There have been oils that kept your engine completely free of wax and carbon troubles. But—never until now have all these advantages been

combined in any one single lubricant. That motor oil is ready for you today. It is the new Texaco—longer-lasting and crack-proof. Road tests—laboratory tests have proved it.

Available in all our 48 States

Fill your crankcase with this new crack-proof motor oil today. It will more than pay you, not only in greater value for your lubrication dollar but for your car dollar as well. It is manufactured in five grades: C, D, E, F, and G, corresponding in body to Society of Automotive Engineers (S. A. E.) viscosity ratings. 30¢ a quart everywhere (35¢ for grade G).

THE TEXAS COMPANY
Refiners of a complete line of Texaco Petroleum Products including Gasoline, Motor Oil, Industrial Lubricants, Railroad and Marine Lubricants, Farm Lubricants, Road Asphalts and Asphalt Roofing.
