

# GATES, CARKIN MENTIONED AS G. O. P. TIMBER

## Local Men Prominently Talked in Political Circles As Successors to George Joseph.

General political gossip among the voters of Medford and other parts of the valley about whom the Republican state committee will select as candidate for governor on the Republican ticket to succeed the late George Joseph, when the committee meets later this month for that purpose, continues to hold the chief political interest, and is even greater than occasioned by the Banks independent U. S. senatorial candidacy.

Adding interest to this puzzling gubernatorial problem with the many talked of candidates, every county seeming to have a favorite son candidate, C. E. Gates having been regarded as such from Jackson county, now comes the news that in the gossip in Republican political circles in and around Portland, the name of another well known Medford man, John H. Carkin, is being bandied about as liable to be hit by gubernatorial lightning.

### Butterfield Hears It

This interesting news has been brought back to Medford by several local men on returning home from visits to Salem and Portland, and the latest to report it is C. S. Butterfield who returned to the city this morning from a visit to Astoria and Portland. According to all this gossip concerning John Carkin, the former local city attorney, who removed to Salem some months ago because of his position on the state tax board, is merely a receptive candidate and like Pop Gates is sitting tight, saying nothing, but if the state committee lightning should come directly the way of either, neither would dodge it.

The name of Carkin it is understood is especially considered as a likely compromise candidate in case the committee when it gets together should find itself deadlocked in making a selection from the several most outstanding candidates at present.

Mr. Carkin, from his long legislative career and being a former speaker of the house of representatives, has a wide acquaintance throughout the state.

# The success-secret in making pastry is the same in roasting HILLS BROS COFFEE

THE EXACT WAY to add water in making pastry dough is a little at a time. You thereby control the consistency. Hills Bros. roast their coffee a few pounds at a time by their continuous process which controls the flavor. No bulk-roasting method can produce such an even roast nor such a delicious flavor.

Only clean shows and legitimate concessions are tolerated, says Mr. Steffens, who is personally in charge of the shows.

# STORY 1 (Continued from Page 1)

place-in-the-home idea from the angle that man is to be the provider and the women folks are to stay in the wigwam.

Looking the world is not easy. Of course there are some women who aspire to fame and others who are naturally independent, but the vast majority wouldn't quit the ease of having somebody look out for them if they didn't have to.

But now that women are in the swim and are making good, that doesn't mean that the worst is over, she warned.

"A few years ago a woman in a business or a profession was a curiosity and aroused a man's chivalry. When I first began practicing law men could not be too helpful. But not now. Women today represent real competition."

As it has become a struggle for existence, men are seeking to crush out the opposition, she continued.

# HOUSEWIVES CAN LOWER FOOD BILLS BY USE OF SUGAR

Sugar Makes Inexpensive, Wholesome Foods More Appetizing

Although most foods rise in price at seasonal periods during the year, the price of sugar varies but little, and is always low. The cost of sugar to housewives in the United States is much lower than it is in any other country.

The value of sugar in reducing food bills is quickly apparent. Wholesome desserts, which can be inexpensively made, round out the simplest meal in a satisfying way. The same is true of jellies, jams and relishes. Sugar, of course, is one of the chief ingredients in these foods.

When sugar is used as a seasoning in cooking essential vegetables, their appetizing qualities are noticeably increased. Try a dash of sugar to a pinch of salt in cooking carrots, turnips, beans, tomatoes, and other vegetables—canned or fresh. The sugar blending with the salt and vegetable juices is delicious.

Steamed fruits become most inviting when sugar is added. And sugar sprinkled on breakfast cereals develops their flavor in a taste-pleasing way.

The opportunity to buy ice cream and bakery products at the "store around the corner" should not be overlooked. These delicious, wholesome desserts are sold at a price within the reach of all. A bit of sweet makes the meal complete. The Sugar Institute.
