

# Community Builders!

These—But a few of the many progressive and energetic Jackson County Industries—Are doing much to build this country. The fine service they render together with the fact that they are "Home Industries," make these institutions deserving of the patronage and support of all public-spirited Jackson County people.

The Jackson County Building & Loan Association is also a Medford institution, owned by Jackson county capital and under the management and direction of capable Medford business men. This organization enjoys the distinction of being one of the most successful and most financially sound associations in the Northwest and has enjoyed a marked and substantial growth that is gratifying to its managers and many associates . . . That this is a Jackson County institution, participating in the development of Medford and surrounding country is evidenced by the fact that more than 1900 homes and business buildings in and near this city have been financed by this association.
