

## HOOVER TO ELIMINATE LONG TRIP

Vacation Plans Changed By Extended Senate Session—Will Spend Two Weeks in Rockies Late in August Solely for Rest.

WASHINGTON, July 15.—(AP)—President Hoover was said today at the White House to expect to spend at least two weeks in the northern Rocky mountains late in August or early in September, solely for purposes of an outdoor holiday and rest.

The following statement was made public:

"On May 9 press representatives were told that the president hoped to take a month's holiday in the western national parks, beginning August 1.

"At that time it was anticipated that the work of congress would be completed at much earlier date than has now eventuated.

"The president will require some time in Washington to complete important matters after the adjournment of the present session. He expects, however, to be able to spend at least two weeks in the northern Rockies late in August or early September, solely for purposes of an outdoor holiday and rest.

"The president has received a very great number of cordial invitations to make public appearances and addresses in various cities enroute. The curtailment of the period when he may be away from Washington and the very nature of taking a holiday and rest will preclude acceptance of these invitations and he believes they will not be pressed."

The president, in his original announcement, said he would make Glacier national park near the Canadian border the first stop on his trip and spend at least one week there fishing. He then expects to visit Yellowstone park and possibly other places before returning home.

## ASK CANDIDATES FOR PRINCIPLES

PENDLETON, Ore., July 15.—(AP)—T. C. Elliott, state Republican committeeman from Umatilla county, said today he had mailed letters to each man prominently mentioned as a candidate for governor, asking for a statement from him or a copy of his platform.

It was explained that committeemen from the second district are interested in a candidate in sympathy with aspirations of the eastern Oregon areas, but that these committeemen will attend the Portland meeting July 25 unpledged on candidates.

### War Mother in Salem.

SALEM, Ore., July 15.—(AP)—Mrs. Virgil McClure, national president of the American War Mothers, will arrive here today. Among other appearances in Salem will be an address at a band concert in Willson park tonight.

## Fresh Tea

Tea in vacuum! Just like your coffee!

What a rare discovery when coffee was first packed in vacuum! Just like coffee flavor, tea flavor also evaporates from an ordinary tin or cardboard box. But now tea is packed in vacuum—and what a difference! When you try it you will know what you have missed all these years.

Try Schilling TEA BAGS packed in vacuum. Each bag contains just enough for two hot cups or two iced glasses—the modern way to serve tea.

## FIVE PERISH IN FLAMING SHAFT PLACER COUNTY

Fire Starting in Mine Cook House Spreads to Underground Workings—Two Make Escape.

SACRAMENTO, Calif., July 15.—(AP)—Five men died in the fire filled Glenn mine on Robertson's Flat in Placer county yesterday. Trapped in the lower level they suffocated from smoke.

The dead: G. H. Henry, Sacramento, address undetermined; E. G. Shepherd, Roseville; James Campin, Placerville; Tom Capitan and Joseph Shearor, addresses unknown.

Harry Hansen and a man named Carlson escaped.

Fire is believed to have started in the cook house yesterday morning. It spread rapidly to adjacent buildings, destroying them and starting a forest fire. The blaze was reported under control at 6:09 p. m. by E. P. Gleason, district ranger at Forest Hill.

The fire fighting and rescue work was directed by Gleason and fire guards, John Nagason, O. M. Brown and Ben Green.

Sweeping the surface structure, the flames spread to the upper level from where the fumes were driven 1,500 feet below ground to the entombed men.

### STORY 1

(Continued from Page 1)

Differential Set.

In the matter of commodity rates, the land lines were also ordered to maintain a differential above ship charges ranging from 3 to 15 cents per hundred pounds above the ship charges.

In connection with the findings, the commissioner refused to allow shipments of lumber to southern California from north coast points to be made on rates less than those applying to intermediate points. The lumber interests' complaint on this subject was dismissed.

SALEM, Ore., July 15.—(AP) Substantial reductions in rates to intermediate points along the Southern Pacific line in Oregon will result from the interstate commerce commission's order today allowing Pacific coast railroads to meet steamboat competition in rate charges.

A. F. Harvey, rate expert for the public service commission, said it might not be necessary for the railroads to reduce their port terminal rates to meet water competition, but reduction would result from that part of the order requiring that intermediate rates be held to a maximum of not more than 100 per cent above port to port rates. If port terminal rates are reduced, however, a further benefit will accrue to intermediate points.

A still further benefit may be felt, Harvey said, if the railroads establish the same port terminal rates at Seattle as at Portland, because of the maximum requirement of 100 per cent above port to port rates applicable to intermediate points.

Cut Intermediate Rate.

Taking the present first-class merchandise rate of 72 cents a hundred between San Francisco and Portland, Harvey said this probably would not be reduced, since, at that rate, the rail lines can compete with the water rate of 65 cents. However, because of the order limiting intermediate rates to 100 per cent in excess of the port rates, intermediate points would get a maximum rate of \$1.44 from San Francisco.

As compared with present rates this would be a reduction of 13 1/2 cents to Ashland, 16 cents to Medford, 24 1/2 cents to Grants Pass and 33 1/2 cents to Roseburg. It would afford no reduction to Eugene and Salem, since first-class rates of \$1.37 and \$1.03 respectively are already under the 100 per cent maximum.

Similarly, reductions will be afforded in commodity rates. Among articles mentioned by Harvey on which the order will afford reductions to intermediate points Harvey mentioned beans and peas, beverages, canned goods, chocolate, coffee, cordage, dried fruit, glassware, iron and steel articles, paint and varnishes, soap, soda, seeds, sugar, syrup, auto tires and wire.

To Advertise Lamb Chops

LOGAN, Utah, July 15.—(AP)—Plans for a national advertising campaign involving the expenditure of \$400,000 in an effort to increase the consumption of lamb were presented to the Utah Wool Growers' association here today by F. R. Marshall, secretary of the National Wool Growers' association.

## Warn Against Drink From Rivers; Most Resorts Have Pure Water

All raw untreated waters of the Rogue River and its tributaries, south of Prospect No. 2 hydro-electric plant, and the Applegate River and its tributaries, are contaminated, polluted and unfit for drinking purposes.

Safe and good drinking water may be obtained at all resorts, tourist camps and campgrounds in Jackson county who possess a certificate of inspection for 1930 from the Oregon State Board of Health. Ask to see this certificate if in doubt! It pays.

The season is open for the terrible scourge—typhoid fever—therefore if out in the country camping, et cetera, never drink water whose purity and freedom from germs is not certain. If in the slightest doubt, boil it for 5 minutes. Typhoid fever immunization affords full protection against typhoid fever. Go to your family physician and be protected.

JACKSON COUNTY HEALTH DEPARTMENT.

## POSTOFFICE STAFF WILL HOLD PICNIC ELKS' LODGE PARK

Good news for the families and friends of the clerks and carriers, city and rural, of the Medford postoffice is that the place of their second annual outing and picnic scheduled for next Sunday will be the Elks picnic grounds north of the city along the Rogue river. Instead of at the Star ranger station locality as last year.

The change was made because the Elks picnic grounds is a more central and nearer place, being only 12 miles from the city, while the Star ranger station site, although a delightful one for such an occasion and with a much better swimmin' hole, is far out in the Applegate section. About 150 persons attended last year's picnic, but because of the more central and quicker reached location next Sunday's picnic it is expected, will attract a greater attendance.

The picnic will be of the basket kind, each family bringing its own edibles, and then the entire collection of goodies served to all. All of the picnic food will be of the home-grown kind, except the inevitable picnic cheese, and it is greatly deplored by the postoffice staff that the new cooperative

## MISSING MEDFORD LAD AND CAR ARE SAFELY RESTORED

Harvey Snooks, 11-year-old son of Mr. and Mrs. Frank Snooks of Medford, who was reported missing in Ashland today, and the Oldsmobile sedan belonging to the family, were found on the banks of Bear creek this morning by Ashland police.

The car, which Roy Snooks, 18 years old, reported as stolen, is in an Ashland garage, having been put there by the police, who found the car parked on the street, a call to that office this afternoon revealed.

Young Harvey accompanied his older brother to Ashland yesterday afternoon where the latter visited friends, leaving the small boy in the car on the street at Ashland. Later in the evening when he returned both the car and his brother were missing. Roy returned to Medford this morning.

But the picnic dinner is only an incident of the great occasion as there will be an extensive program of games and stunts during the day.

American motor trucks are used in the Swedish logging industry as mild winters handicap use of sleds.

Eighty-nine per cent of American cars manufactured in 1929 were closed models.

## WATER ATTRACTS GIRL SCOUTS AT APPLIGATE CAMP

The second week of Camp Willpen Pines, the Girl Scout camp on the Big Applegate, opened Sunday with twenty-eight girls in attendance.

The first week ended most successfully with every girl making advancement in the classes which she attended. In the swimming class under the direction of Neptune (Marjorie Goff), every girl learned something about swimming and several advanced in the life-saving group.

Elephants proved the most popular subject in the soap sculpture, with rabbits running a close second. Miss Marjorie Kelly (Orion) has charge of this project, as well as archery and dramatics.

Mrs. Cully (Sirius), took the girls on a seven mile ramble during the week, the only resulting tragedy being that they were late for supper.

The Girl Scouts at camp this week are: Ruth Clark, Doris Basaw, Ruth Hedges, Mona Hedges, Elsie Kingsley, Betty Thordike, Betty Paske, Dorothy Burgess, Helen E. Henson, Mildred Walker, Winifred Roseborough, Kate Janney, Gene Porter, Edith Todd, Olivia Todd, Madge Kunzman, Maxine Young, Catherine Brandt, Mary Cummings, Amy Elliott, Gwendolyn Krous, Hazel Moffett, Barbara Holt, Lucille Littrell, Dorothy Daniels, Katherine Stearns, Frankie Rinabarger and Peggy Riter.

Oregon Weather

Fog on the coast and fair in the interior tonight and Wednesday. No change in temperature. Moderate west and north winds on the coast.

American motor trucks are used in the Swedish logging industry as mild winters handicap use of sleds.

Eighty-nine per cent of American cars manufactured in 1929 were closed models.

## AIRPORT DANCE IS PLAN FOR LEGION CONVENTION FUND

A big "airport dance" will be staged by Medford post No. 15 on Friday, July 25th, as a benefit for the Legion drum corps convention fund, according to plans outlined at last night's meeting. The dance will be held in the new hangar at the Medford airport where ample room is available to accommodate the large crowd which is expected to attend. The hangar building has a fine concrete floor with a "water glass" finish, which will provide an unusually smooth surface for the dancers. Dom Provoost and his well known "Pep Peddlers" will furnish the latest in dance music.

As a special attraction, plans are being arranged for night firing and air stunts during the evening of July 25th. The new airport will be brilliantly illuminated with flood lights and border lights and all indications point to one of the biggest events of the summer season.

Seely Hall will be in charge of the committee to handle the affair, assisted by a committee of five Legionnaires.

Commander Bolger paid a fine tribute to Fred Scheffel last night for the officent manner in which he conducted the Legion Junior baseball activity this year. Although the Medford team got away to a late start, they showed some real class in the district championship battle at Roseburg, holding their strong opponents scoreless for five innings and losing only by one run. Scheffel reported that his boys would continue practice in an effort to build up a real team for next year.

Cole Holmes made a report on the civic affairs committee and advised that the post is financing and building a croquet court for the kiddies at the Legion playground. Funds received from the recent Edison Marshall lecture are being employed for this worthy civic endeavor.

## Do you like FRIED FOODS?

WESSON OIL is even more important in frying than it is in baking or any other cooking. For you eat fried things to get the taste of the crisp, light crust, made by the oil you use for frying. You want to eat it. That's the reason you like fried foods. And nothing can be too good to add to this delicate flavor . . . to its golden-brown color and to its tastiness.

Perhaps you have found how much better things taste when fried with Wesson Oil. You have wished you could afford to use it every day . . . You can!

If you have considered this fine salad oil just a bit of a luxury for every day frying, try the 4-Pint Frying Size Can. In this size it's surprising how little it costs.

Turn the Spout Hold the Can by the Ring Tilt Lightly and Pour

## A 4-pint FRYING SIZE Can

Wesson Oil comes to you protected and sealed in an air-tight container . . . certain to be fresh and pure. It's worthwhile to get the familiar green-and-white Wesson Oil Can always.
