

# PORTLAND FIRM DEFRAUDED BY CHECK SCHEME

PORTLAND, Ore., July 22.—(AP)—Thomas S. Hansen was sought in three states today as Portland police revealed what they considered an "amazing" check scheme.

Hansen is charged with issuing a fictitious check for \$1,000. With this check he is said to have acquired an interest in the West Bearing company of Portland. With the same \$10,000 check he obtained the position of secretary and cashier of the company, a position, police declare, enabling him to conceal the worthlessness of the \$10,000 draft.

The same position also gave him the opportunity to write more checks which, police say, he did to the extent of \$725, on the West Bearing company. In addition, he is charged with having extended operations to the preparation of pay drafts to himself, and to have overpaid himself \$300 in wages and dividends.

# PIONEER WOMAN, MRS. CLARA DUNBAR, DEAD

OLYMPIA, Wash., July 22.—(AP)—Mrs. Clara A. Dunbar, 73, the mother of Attorney General John H. Dunbar, and one of the state's best known pioneers, died at her home here today.

Mrs. Dunbar was the widow of Judge R. O. Dunbar, justice of the state supreme court and prominent pioneer Washington attorney. She was born in Portland, Ore., in 1857. She came to Olympia when she was one year old.

# ROSEBURG, Ore., July 22.—(AP)—

Due to an apparent poor outlook for prune prices this year, directors of the Douglas county prune growers have agreed to release members from the pool agreement and to permit consignment sales if desired. Representatives of the California Packing corporation and Rosenberg Brothers attended the meeting and agreed to buy for cash. They said, however, the price would be low.

# No More Neuritis In Arms, Neck, Legs or Thighs

If you want to get rid of the agonizing pains of neuritis, neuralgia, sciatica or rheumatism, just apply Tylenol to the affected parts and see how quickly all misery will cease.

Tylenol is a powerfully penetrating absorbent, soothing and healing in its action, which goes in through the pores and quickly reaches the burning, aching nerves. Those stubborn pains in the back of the neck, about the shoulder blade, face or head, in the forearm and fingers, or extending down the thigh to the toe tips, will soon disappear. Cramping of the muscles will stop and you will no longer be bothered with soreness, swelling, stiffness, numbness or tenderness of the joints and ligaments.

Tylenol is not an ordinary salicylate or opiate, but a scientific new emollient that is entirely different from anything you have ever used. Don't let it pass you by. Get a supply of Tylenol at any good drug store. Always on hand at STRANG'S DRUG STORE.

**Auto Collision Yesterday**  
Mrs. C. T. Jenkins of Seattle and H. Dressler of Medford were principals in an auto crash on Blackwell hill on the Pacific highway yesterday, according to an auto accident report on file today at the police station. There was little damage. A crash that occurred Saturday night on the Jacksonville highway when a car driven by S. Anderson failed to make a curve, resulted in a fatality on the head for William Fredenberg. Three stitches were found necessary to close the wound.

# RADIO, RAYON AND AIR TOUR TALKED AT ROTARY LUNCH

Radio, rayon and the northwest air tour shared honors at the program presented at the Rotary luncheon today noon at Hotel Medford. The first was represented by Hum Greif, of The Mail Tribune-Virgin radio station; the second by W. S. Bolger, manager of the J. C. Penney store and the third by C. T. Fisher, secretary of the chamber of commerce, which will unite with the airport committee of the city council in presenting the official dedication program at the local airport, following arrival of the fleet August 4, and the celebration to be sponsored by the Medford Post American Legion.

A short history of the local broadcasting station, which was the third established on the coast still in operation, was given by Mr. Greif along with a short address on the benefits of radio advertising.

"Every advertiser is now getting a trade mark for his program," he stated. "The results of this type of advertising are constantly increasing as more people purchase radio sets. Oregon now ranks third in the United States for the number of sets per capita."

An interesting story of the manufacture of rayon and the place it is taking in the clothing of people in the United States was told by Mr. Bolger. He passed around samples of the wood from which the synthetic yarn is manufactured and samples of the product in various stages of development.

"Rayon is the poor man's silk. It is being used even for shoes at the present time," he stated and listed the cotton garments which have been forsaken for rayon.

The celebration to be staged at the airport under the auspices of the Medford Post American Legion, August 4, was outlined by Mr. Baker from the triple parachute jump to the dance to be given in the hangar building. Plans for the first dance of the series to be sponsored by the Legion Friday of this week were announced by Horace Bromley. Funds from this dance will be used to finance the Legion drum corps' trip to Baker for the August convention.

The first committee appointments made by E. C. Corn, president of Rotary, were announced. The aims and object committee is to be composed of Dr. Al Lantis, John Boyle, W. S. Bolger and Dr. E. W. Shockley.

Complaints brought to the community chest regarding solicitation of funds for charity by organizations not included in the chest were brought before the club by Hamilton Patton with only those organizations which have proved to members of the chest board that they serve a definite need. Action on this matter will be taken by the Rotary board of directors, it was announced at today's luncheon.

**Phelan Unimproved**  
SARATOGA, Cal., July 22.—(AP)—Physicians today said the condition of former Senator James D. Phelan was somewhat worse, but added he was in no immediate danger. He has been ill several weeks.

# KLAMATH BLAZE DAMAGE \$300,000

KLAMATH FALLS, Ore., July 22.—(AP)—Officials of the Ewanna Box company announced today loss from Saturday's lumber yard fire would amount to approximately \$300,000. More than twelve million feet of lumber was destroyed. Loss to the Southern Pacific railroad through burned box cars was estimated at \$25,000. Cause of the fire had not been determined today.

Money went begging. You could borrow all you wanted at 2 per cent or lower.

Cotton was very weak. And wheat, rocked in the protecting arms of Uncle Sam, was much feebler and unhealthier than in old days when rough "supply and demand" ruled it.

Politicians believe that wheat will be the big factor in the western elections with prices the lowest in 16 years.

The government was going to fix

everything, through its farm board, and did invest millions with painful results.

For a campaign song farmers might rewrite the sad old tune: "You told me I'd be happy, but no happiness I see."

Stockholders and lawyers objecting to a merger of Bethlehem and another steel company, discover that Eugene G. Grace, head of the Bethlehem company, is paid a salary of \$12,000 and got a bonus in 1929 of \$1,633,753.

Some stockholders think the money should have gone to them, not to Grace.

They may be right, but the probability is that the Grace bonus was money wisely spent.

Iron ore, fuel and machinery are plentiful, but brains that know how to utilize them are hard to find.

Gandhi's followers have a new idea. Instead of spending one full hour every morning in prayer, as is the custom in India, the Hindus of different castes start out at 5 o'clock in the morning and sing "hymns of hate against England."

They are mild hymns compared with some in the world war; they

only advise Hindus to wear homespun, boycott British goods, etc.

What the gods of the Hindus, Parsees and others will think about substituting hymns for morning prayers remains to be seen.

More rioting and trouble in Egypt, 125 hurt. Egypt is far away and that is hardly news.

In New York, where this is written, the thermometer at the moment stands at 96. Twenty-eight are said to be dead. In some cases other things besides the temperature are to blame. In Ohio the mercury went to 110.

That is very hot for Ohio, but on California's Mojave desert, where the wind blows from the Pacific ocean, 110 is just a nice alfalfa growing temperature, not too hot for hard work.

The American Research Foundation announces that this summer \$13.72 will feed a family of four for a week, giving all necessary food values and "intriguing summer menus." That may be true in theory, but one writer can testify that to board men working on a farm costs at least \$40 a week for four men, and their summer menu is not at all "intriguing."
