Picturesque Affair Commemorates 50th Birthday of Adarel

The interest of lodge circles from all sections of the state was focused on Jacksonville this week, where the fiftieth birthday anniversary of Adarel Chapter No. 3 of Oregon Eastern Star was celebrated Wednesday evening on the grounds of the old Jackson county court house.

Flocks of old fashioned cut, dating back to the days of the gold rush, worn by the lodge women; and the brilliant lighting effects, which illuminated the grounds added much to the colorfulness of the occasion.

In the receiving line were Miss Stella Eddy, Miss Iselle McCully, Mrs. Esther Cameron, Mrs. Doris Harbaugh and Miss Mollie Brit, all attired in the quaint costumes which revive memories of days when the streets of Jacksonville were lined with amusement houses where miners congregated on Saturday nights to spend their gold.

The program was preceded by a picnic dinner, during which the address of welcome was given by Mrs. Luella Dunnington, worthy grand matron of Adarel Chapter. Col. Robert A. Miller of Portland, former resident of Jacksonville, worthy grand patron of Oregon, and oldest living grand patron of Eastern Star responded.

Among the grand officers of the state who were introduced by Vivian Wilson, grand patron of Adarel to address the large crowd gathered to observe the golden anniversary were: Bess Setters of Portland, past grand matron; Minnie White of Portland, associate grand matron of Oregon; J. H. Hardy of Ashland, associate grand patron of Oregon; Mrs. Josephine Parker of Ashland, first grand secretary; Herman E. Lafky of Cottage Grove, of the grand lodge student loan committee; Mrs. Pearl Pratt, worthy matron of Salem; Mrs. Monte Hauser of Salem, associate grand conductress; Mrs. Wm. McKenzie, present grand matron of Kellogg chapter, Mrs. Nellie McGowan of Medford, Mrs. Margaret Barnes and Mrs. Ginerwa Seebach of Grants Pass, and Miss Alice Hanley of Central Point.

Birthday presents received by the chapter were a gold cup given by Bert Barnes of Grants Pass; a taxicab from Rasmus chairman of Medford; a large white satin flag from Alpha chapter, Ashland; a gold cup from Nevita chapter, Central Point; and flowers from the grand lodge and Josephine chapter, Grants Pass.

The activities of the lodge during the past 50 years were related in a history read by Miss Mollie Brit.

One of the most picturesque features of the program followed the entrance of the Eastern Star members. A burro, led by a minor, moved down the trail, carrying on his back two sacks of "nuggets" which proved to be little birthday cakes, which were distributed to all guests.

In which scenes from Shakespeare and Robinson Crusoe were used. The sessions proved so popular that over one hundred and thirty Girl Scouts attended them regularly, and were thus enabled to pass their Merit Badge tests as well as to acquire an unusual knowledge of literature.

What the Girl Scouts Are Doing

By Mrs. D. J. Willson

Today marks the final and closing day of the 12th Girl Scout camp of Medford. This summer's camp season has been a most happy and profitable one for the many girls who were fortunate enough to attend.

The director and councilors were most capable and helpful and to them is due all credit for the complete accomplishment of the camp program. Every girl, the knowledge that she has indeed found the "outing in Scouting." There were many classes in handicraft, including basketry, soap-sculpture, silver etching, copper etching, nature blue-printing, painting, original designing, and crayon cloth work. The major sport, of course, was swimming, and every girl advanced rapidly in that, with several passing their life-saving test.

Archery was very popular, with many potential Robin Hoods coming to the fore. The much-battered target bears mute testimony of this! Then, too, the girls had dramatic classes and each evening's camp fire included them on their program.

Each day had its well-defined program and with wholesome food, lots of rest, and plenty of play makes each girl a candidate for camp in 1931.

Our camp director, Mrs. Cully, swimming instructor, Miss Goff, archery and dramatics, Miss Kelly and the cook, Mrs. Snyder, have all been most capable and efficient and were the finest camp staff ever.

Each girl, if she has not already received it, may come up to my office and receive her official camp badge. This of course, only for the girls who attended camp. And here is what one camper says:

"We go away, but always to remember. The lure of rivers, hills and forests deep. The glow of camp-fire and its dying ember; These memories are always ours to keep!"

Students Revel In Life and Festivity Offered In Islands

HONOLULU, T. H.—(Special).

Swimming in the surf at Waikiki, journeys about the island to glimpse real native life and a continuous panorama of tropic beauty, and the never-ending round of entertainment which the hospitable people of this territory plan for visitors have been still competition for students of the University of Oregon summer session here, but the students, 75 in number, are holding well in classroom and out, it is declared by Karl W. Othman, dean of personnel at the university, who brot the party here from Eugene recently.

Winifred Andrews and Anita Mohr, both of Medford, are members of the cruise party. The students have been more than enthusiastic over the adventure in education. Many of the courses taken, such as geology, geography, journalism, sociology, psychology and art, can be successfully combined with pleasure trips, and no students have as yet complained of being overworked.

While all the usual pleasures of Honolulu are being enjoyed daily, the high spots of the school year have been an all-day journey around the island of Oahu and a visit to the Dole Hawaiian pineapple cannery.

The trip around the island took the students up the winding mountain road to the "bald," a cliff hanging 1000 feet above the valley. This spot is on the windward side of the island, and at times a regular gale comes rushing through this gap, so strong that persons can scarcely stand against it. From this vantage point, a wide fertile valley lies spread below, with the blue Pacific forming a charming background.

This pull is famed in Hawaiian history, for it was up this winding road that King Kamehameha I, back in 1790, drove the Oahuian army. This invader from the island of Hawaii pushed his opponents over the cliff to the rocks below, and thus gained the victory that made him king of all Hawaiian isles.

She is now preparing to reopen the Gann home in Cleveland Park for at least a part of the summer while the vice-president is busy at his home in Topeka, Kansas.

Woman to See Coronation in Sheba's Land

By SUE MCNAMARA

WASHINGTON—With trunks carrying formal dinner gowns, Harriet Chalmers Adams, president of the Society of Women Geographers, is embarking on an expedition at variance with her usual following of hazardous trails.

Mrs. Adams will attend the coronation ceremonies of Haile Imperial Majesty, Haile Selassie I, King of Kings of Ethiopia on October 7.

Instead of the trusty knickerbocker coats and hob-nailed shoes worn on her ordinary explorations, Mrs. Adams will be arrayed in silks and velvets to mingle in the colorful 29-day festival which marks the coronation. She will be the guest of the U. S. minister.

Nowhere else, outside of Hollywood, says those who have witnessed similar events in Ethiopia, is there such a gorgeous costume display. Gold and silver and precious stones, plumes and gold braid will mark the coronation of the new monarch in this land once ruled by the Queen of Sheba.

The coming coronation is expected to surpass anything of the kind ever held in Africa. There will be parades, sham battles and reviews of troops. The Abyssinians are expert horsemen and indulge in the most spectacular stunts at these festivals.

Adis Abeba, the capital of Abyssinia, or Ethiopia, as it is now called, is situated 8000 feet above sea level. It is a stronghold of beautiful churches as the Abyssinians are the only Christian race in Africa.

Medford is the county seat and metropolis of the Rogue River valley and gateway to Crater Lake.

'HOME, SWEET HOME' TO BE FEATURE OF TOGGERY PROGRAM

"Home, Sweet Home" as played the world over, will be a feature of this week's Toggery-Nunn-Bush program over station KMBH, on Monday night from 8:15 to 9:45. This beautiful and immortal home song will be played by the Nunn-Bush Symphony orchestra, under the direction of Rudolph Mangold, concert master of the Chicago Civic Opera company. Their interpretation will include a rather humorous conception of "Home, Sweet Home" as you might hear it in Italy, Spain, Hungary, China, Ireland, and in the United States.

The second feature will be "An Old Gullar and An Old Refrain" sung by William G. Pohlman, tenor, accompanied by the orchestra. This arrangement will be an interpolation of "Juanita" as the old refrain.

The first half of the program will close with the "Missouri Waltz," sung by the Nunn-Bush Singers, which will bring back memories of the dancing days of the past decade.

A special feature of this Toggery-Nunn-Bush program will be a horn and flute duet of the popular hit's "Serenade." The flute accompaniment will be played by Julius Furman, first flute player of the Los Angeles Symphony orchestra, who remained in Chicago especially for this program. The horn accompaniment will be played by Louis Du Fresnoe, first horn player of the Chicago Civic Opera company.

The idea of the serenade will be carried further in this program, with the Nunn-Bush Symphony orchestra's rendition of the "Spring Serenade" by La Combe. This orchestra, as in previous Nunn-Bush programs, will be directed by Rudolph Mangold, concert master of the Chicago Civic Opera company.

The third number on this second half of this week's program will be a Medley of Moon Songs, sung by the Nunn-Bush Singers. The selection of these will include the "Moon Song" from the "Gingerbread Man" and a selection from "Topsy and Eva."

AIGRETTES WORN BY PARIS STYLE LEADERS

PARIS (AP)—Aigrettes, forbidden plumage in the United States, are worn by some of the recognized style leaders here. Another aigrette trimmed hat much commented upon was worn by an English woman at the garden party of the Maharajah of Kapurthala.

richest, most intelligent people on earth, but we should not disdain to learn, even from the despised Bolsheviks."

In ancient days men gathered to watch elephants, tigers, bears, rhinoceroses, and other gigantic animals fight each other or fight gladiators. All interest centered on the BIG enemies of mankind.

Rubbrandt painted a most interesting scientific picture of an elephant, with its queerly made knees, and deep wrinkles. He never heard of a microbe. Today human intelligence is concentrated on enemies too small to be seen, far deadlier than any poisonous snake, or ferocious tiger.

Today sees the end of a gather-

And Dr. Pfeiffer, learned German discredited on the "Pfeiffer bacillus," known to cause certain forms of influenza. The germs discussed are so small they pass through porcelain filters. No microbe is powerful enough to reveal them. Science is not even able to explain how the germ or grippie or psittacosis, after years of harmful inactivity, can suddenly spread world-wide, creating havoc, in a few months.
