## WEETAMOE, VICTOR IN OPENING RACE TO DEFEND CUP

NEWPORT, R. I., Aug. 2.—(AP)—Weetamoe today defeated the three other aspirants for the honor of defending America's cup over a 37 1/2 mile course from New London, Conn., to Newport. The course represented the opening run of the eight-day New York Yacht club cruise and it was sailed in southwesterly gale as a broad reach and except off Point Judith, in a smooth sea.

The Morgan-Nichols boat crossed the finish line more than three minutes ahead of Enterprise, sailed by Harold S. Vanderbilt, the only boat to seriously contest the issue was Weetamoe.

Whitwind, sailed by Landon K. Thorne, was unable to finish better than a bad third although her hull had been radically changed since she last met the cup candidates off here. She was nearly 12 minutes behind Weetamoe. Yankee, the Boston and only one New Yorker, came home last, following Whitwind by five minutes.

Vanitie, the unsuccessful candidate for defense of the trophy a decade ago, furnished the greatest surprise of the day. With Resolute the successful 1926 defender, Vanitie started five minutes later than the new cup bats but finished ahead of Whitwind and Yankee and had the best actual time of any of the boats but Weetamoe. Resolute also finished ahead of Yankee.

## SPORT SLANTS Alan J. Gould

Lightweight history repeated itself when Slinger, the Bronx bomber, beat Mandell with the first punch, even though it took a few more wallops to put Sammy down for good.

Joe Gans won the lightweight crown by knocking out Frank Erne at Fort Erie, Canada, on May 12, 1902, in the first round and the famous negro held the title for six years, losing it to Battling Nelson in 17 rounds on July 4, 1908.

Under the conditions of the boat, Gans was compelled to make the class limit at that time, 153 pounds, with his trunks and shoes included. The effort rapped his vitality.

On the Pacific coast the experts consider their brand of baseball sufficient to establish the P. C. L. on a major league rating. The claim is not without reason. The circuit has sent up a flock of boys who have made good in the big show. By keeping this talent at home the league can quickly boost its playing calibre.

The Warners, Kamm, Jolley, Avcrill, Lary, Cochran, Berser, Cissell, Frederick, Hellmann, Lazzari, Bob Meusel, O'Doul, Berger, Krummer, Root and Walberg, all have made the big jump from the Pacific Coast league to major league fame.

The major-minor baseball disturbance is complicated by the chain-store system of ownership. There is hardly a major league outfit which has not some substantial interest in Class A or AA property. In the east of the St. Louis Cardinals, this interest extends to a half dozen minor league clubs.

Fight managers have been known to send stable mates against each other in the ring, but it hardly seems likely the major league club owners will vote against themselves, when it comes to making decisions in minor league councils.

This situation may lead to a split between the "controlled" interests and the independent club owners in the big minor leagues.

Frank S. Wright tunes in from Gainesville, Fla., with a little hot-weather football background for future reference:

"In 1928 Florida led the entire United States in scoring, 324 points. That was Backman's first year with the 'Fighting Gators.' His two-year record is 16 wins in 19 games. The 'Fighting Gators' are expected to present a strong 'first eleven,' with 19 letter men back, but a scarcity of first class reserve material is expected to be a serious handicap this year."

Florida, long handicapped by lack of an adequate playing field, is building a new stadium to be dedicated at the game with Alabama on November 8.

Georgia has a trio of stars in the midsummer spotlight of sport with Bobby Jones on top of the golf heap, Bryant Grant developing into the latest "mighty atom" of tennis and White Strifling swinging earnestly with both fists.

Bobby Jones probably would tell you, if you cross examined him, that there have been three critical strokes in his 1929 golfing campaign thus far, and if the three-year champion wouldn't tell you so, why, I will do it myself.

In each of his three major championships he has won this year, there came a situation of such peculiar intensity that one might be warranted in asserting that the stroke then demanded the winning stroke of the competition, and, conversely, that anything less successful would have proved the losing one.

In the British amateur championship at St. Andrews, Bobby had three extremely drastic matches, one with Cyril Tolley, one with Harrison Johnston, and one with George Voight. He might well have lost any one of them. But the one with Voigt is the one he actually looked like losing, being 2 down with 6 to play.

On Voigt's errors, he managed to square at the sixteenth, but with the long seventeenth—the perilous Road Hole, the most dangerous in the world—George called most brilliantly, stuck a huge iron shot on the front of the green, and laid a 60-foot putt and stiff for a birdie 4, where Bobby, chipping rather loosely on his third, was a 2-zen feet away for the half.

Bobby sank that putt, and that almost without question saved the match and the British championship.

At Hoylake, it may be remembered that Leo Diegel, chasing Bobby to the wire, had precisely the same score for 69 holes as the champion. The sixteenth or seventeenth hole is a par 5 which can be reached in two big shots unless the wind is against them.

Bobby was playing half a dozen holes ahead of Leo, and he felt he needed a 4 there seriously. He went after a big second shot and was bunkered some yards away from the green. His half-blast with the freak niblick, given him earlier in the season by Horton Smith, curled up three inches from the cup.

An hour later, Diegel, bunkered from the tee, took 6 at this hole. Those two strokes were the margin of championship for Jones.

At Interlachen, Bobby, finishing the third round with a lead of five strokes on the field, started the final round in chastly fashion, 4-5-5, losing three strokes to par (and four to Masdonald Smith) in the first three holes. If ever he needed a brace this was the time. He got it, at the fourth hole.

This hole is somewhat over 500 yards in length, and the man who goes sincerely after a birdie 4 must deliver a vast brassie shot between a lake at the right and a puzzling trap at the left. Bobby went after a 4—sincerely. He needed it.

His brassie shot was straight as a bullet; the ball rolled nearly on the carpet; and the birdie 4, his fourth of the tournament there, was the stimulant required for the rest of a terrific round in which he accumulated three 5's on the same number of par 3 holes, and still did a 75 and won the tournament by two strokes.

Following his loss of the lightweight championship, \$5,000 of Sammy Mandell's \$45,000 purse was tied up in litigation.

Eld Roush, hold-out Giant outfielder, is reported to have entered negotiations with Manager John McGraw for re-instatement.

In a recent tournament at Philadelphia, Gene Sarazen, former Open golf champion, shot five birdies in a row.

Only three times since Davis cup play was inaugurated in 1900 has America failed to have a team in the finals.

Florida, long handicapped by lack of an adequate playing field, is building a new stadium to be dedicated at the game with Alabama on November 8.

Georgia has a trio of stars in the midsummer spotlight of sport with Bobby Jones on top of the golf heap, Bryant Grant developing into the latest "mighty atom" of tennis and White Strifling swinging earnestly with both fists.

Lightweight history repeated itself when Slinger, the Bronx bomber, beat Mandell with the first punch, even though it took a few more wallops to put Sammy down for good.

Joe Gans won the lightweight crown by knocking out Frank Erne at Fort Erie, Canada, on May 12, 1902, in the first round and the famous negro held the title for six years, losing it to Battling Nelson in 17 rounds on July 4, 1908.

Under the conditions of the boat, Gans was compelled to make the class limit at that time, 153 pounds, with his trunks and shoes included. The effort rapped his vitality.

On the Pacific coast the experts consider their brand of baseball sufficient to establish the P. C. L. on a major league rating. The claim is not without reason. The circuit has sent up a flock of boys who have made good in the big show. By keeping this talent at home the league can quickly boost its playing calibre.

The Warners, Kamm, Jolley, Avcrill, Lary, Cochran, Berser, Cissell, Frederick, Hellmann, Lazzari, Bob Meusel, O'Doul, Berger, Krummer, Root and Walberg, all have made the big jump from the Pacific Coast league to major league fame.

The major-minor baseball disturbance is complicated by the chain-store system of ownership. There is hardly a major league outfit which has not some substantial interest in Class A or AA property. In the east of the St. Louis Cardinals, this interest extends to a half dozen minor league clubs.

Fight managers have been known to send stable mates against each other in the ring, but it hardly seems likely the major league club owners will vote against themselves, when it comes to making decisions in minor league councils.

This situation may lead to a split between the "controlled" interests and the independent club owners in the big minor leagues.

Frank S. Wright tunes in from Gainesville, Fla., with a little hot-weather football background for future reference:

"In 1928 Florida led the entire United States in scoring, 324 points. That was Backman's first year with the 'Fighting Gators.' His two-year record is 16 wins in 19 games. The 'Fighting Gators' are expected to present a strong 'first eleven,' with 19 letter men back, but a scarcity of first class reserve material is expected to be a serious handicap this year."
