

HOLD ATTORNEY IN BLOWING TO BITS OF MATE

AMARILLO, Tex., Aug. 6.—(AP)—Formal charges of murder were filed here today against A. D. Payne, Amarillo attorney, in connection with the death of his wife who was killed June 27, when an infernal machine wrecked the family automobile.

District Attorney E. W. Thompson swore to the charges before Justice of the Peace James W. Miller.

Payne was arrested last night and taken to Stinnett, county seat of Hutchinson county as a precaution against violence, feeling having been tense after news of the attorney's arrest spread.

While there was no sign of mob violence here word came from Hanger that Sheriff W. N. Thompson of Amarillo was guarding the entrance to the Hutchinson county jail at Stinnett.

BUTTERFLY CLOUD AT CRATER LAKE

CRATER LAKE, Ore., Aug. 6.—(Sp.)—Hundreds and thousands of large butterflies have suddenly dropped out of the sky in swarms down the rim of the lake and are almost as thick as snowflakes in a blizzard.

According to an old-timer at the lake this phenomena takes place every four years. It is very discouraging to the motorist to suddenly find his windshield plastered with these insects.

A large Buick sedan drove up to the lodge Monday with the front of the radiator matted with hundreds of the butterflies that had flown into the meshwork.

Occupants of the car said they drove through a swarm of them just before reaching the rim and that they were forced to stop as they flew against the windshield and obstructed their view.

ENDURER SUFFERING FROM SLIGHT COLD

ST. LOUIS, Aug. 6.—(AP)—Dale Jackson, co-pilot with Forest G. Baine of the endurance monoplane, Greater St. Louis, today was suffering from a cold, but did not regard it as "anything wrong."

ANOTHER MIDGET COURSE PLANNED

New midget golf courses for Medford are still coming, and following the announcement several days ago of the plans of John Johnson to house a new and elaborate indoor golf course at Eighth and Bartlett streets, it was learned today that just a week ago the basement of the armory was leased for the establishment of a modern indoor golf course to be erected here at an expense of between \$4000 and \$5000.

Captain Carl Y. Tengwald, custodian of the armory, was not at liberty today to give out the identity of the man who will establish this new course, because of a promise made, but it is a well-known man locally. The new armory course will be in use by late fall.

MERCHANTS FORM BRANCH OF M.M.M.

Activities were begun last night by a group of 25 independent business men of Medford to form a local organization as a branch of a national organization formed some time ago for the benefit of independent dealers. P. J. McPherson was elected president, J. A. Hardy, Ashland, was chosen vice-president and Al. Robbins, Medford, secretary-treasurer.

W. A. Gates was chairman of the meeting, assisted by D. A. Thibet, organizer for the Modern Minute Men of America. Quite a number of Medford merchants are listed as members and more are expected to join as a result of a membership campaign that is planned to begin soon.

FILM FAMILY IN DIVORCE COURT

LOS ANGELES, Aug. 6.—(AP)—James Kirkwood, actor and film director and Lila Lee, actress of the stage and motion pictures, are separated in divorce today. Charging his wife with deserting him, Kirkwood won the divorce decree and with it custody of the couple's 6-year-old child, James Jr. A contract approved by the court denied the mother any right of "care, control, custody or jurisdiction over the rearing, educating or religious training of the child."

SHEEP REDUCTION IN U. S. FORECAST

WASHINGTON, Aug. 6.—(AP)—A considerable reduction in the number of sheep in the United States and abroad during the next two or three years was forecast today by the department of agriculture, which said this decrease would improve the sheep and wool industries.

The western sheep grower was said to be in a "very difficult" position at the present time, particularly because of the drought which had reduced the amount of available feed.

MIND READER FREED IN PORTLAND DEATH

PORTLAND, Ore., Aug. 6.—(AP)—McClain Travis, 62, reported "medium man" and mind reader, questioned by authorities in connection with the death of Mrs. Rena Davis, 40, of Tacoma, Wash., beaten to death in a hotel, was released today. Authorities were unable to connect Travis and a sinister message, "Beware of a dark man," with the crime.

FRESH EXTRA EGGS ADVANCE ONE CENT

PORTLAND, Ore., Aug. 6.—(AP)—Fresh extras in eggs advanced to 27c today but no change in other grades were announced by the Pacific Co-operative Poultry Producers. Top grades are reported in wide demand.

The butter market was firm with trade moderate and receipts light.

Brisbane's Today

Nanking dispatches tell of a British woman, wife of a British official, attacked while asleep, by a Chinese soldier, and expected to die of bayonet wounds.

Shanghai sends stories of torture and other outrages inflicted on women missionaries.

In Fukien province bandits kidnaped a woman missionary, cut off one of her fingers and sent it to the authorities, demanding \$50,000 threatening to send other fingers if the money was not paid.

David Belasco obliges Mr. Curtis by picking the "50 greatest actors of all time" and many of them are now living. George M. Cohan, 52; Mary Anderson, 71; Minnie Maddern Fiske, 65; Maude Adams, 58; Julia Marlowe, 64. The ages are supplied by Mr. Belasco but those that have seen Cohan and the ladies can testify that at least twenty years should be taken from each.

The fact is that we have CHARMING actors and actresses but not "GREAT" actors and actresses. Rachel, born in Switzerland, daughter of a Jewish peddler, possessed genius that could not be extracted from all the American actresses that have ever lived.

What the Greek actors with their masks were like, we don't know. But there must have been considerable genius in the succession of actors that caused one of Euripides' tragedies to run in Athens for 500 years.

There is a new gold rush in Australia, following the discovery of a nugget weighing 30 ounces.

On foot, in new and second-hand American automobiles, by airplane, and on camels and horses, the gold seekers rush to "peg out their claims." Many gold hunters will use up enough energy to make a satisfactory success in ordinary life.

But gold is a stimulant to effort, ordinary work is not. Certain words appeal to all human beings powerfully, because they go far back in our history, for instance, death, fear, snake, rat, gold, torture.

You can suggest others.

Jean Tasseraud, to prove that he loved a girl, wrote her a farewell note, jumped to his death from an airplane, his broken body landing in the garden of his mother's home.

Pools will make a hero of him. He would have been more like a hero had he taken care of his mother and lived to prove that he appreciated her, which is every man's first duty.

When prosperity droops, the c stays in the garage.

New York's enormous income from the gasoline tax is much diminished, sales falling off \$200,000,000 gallons in May, compared to last year.
