GOVT. WILL SPEND \$217,000 OREGON ROADS IN 1931

PORTLAND, Aug. 11.—(Sp.)—For the construction of more than 500 miles of highway necessary to close the gaps on the Federal-aid system in the public land states of the west, the next congress will be asked to appropriate \$2,500,000 annually under the provisions of the Odell-Cotton bill, it was announced by the Oregon State Motor association.

The bill, which was passed at the last session, provides for the Federal government to assume the cost of building roads through Indian lands and unappropriated Federal lands. These routes are at present entirely unimproved.

The motor association, which actively supported the bill, issued its statement following receipt of a letter from Senator Tasker L. Odell of Nevada, co-author of the measure with Representative Don B. Colton of Utah, in which organized motorism was thanked for its activities in behalf of the western states.

"The motor association," Senator Odell wrote, "took an active part in the long campaign of education which was necessary in order to obtain the final adoption of this new but most equitable principle in redistributing the burden of road construction costs. At all times it was a source of inspiration and encouragement to co-operate with your organization."

According to the statement of the association a tentative schedule has been worked out for the apportionment to the states of the \$2,500,000 fund annually to carry out the terms of the bill. Thirteen states would be allotted funds each year as follows:

Table with 2 columns: State Name and Amount. Includes Arizona (\$52,000), California (\$11,500), Colorado (\$119,000), Idaho (\$141,000), Montana (\$189,000), Nevada (\$77,000), New Mexico (\$208,000), Oklahoma (\$65,500), Oregon (\$217,000), South Dakota (\$75,000), Utah (\$92,000), Washington (\$2,000), Wyoming (\$208,000).

The measure, recently signed by President Hoover, authorizes the government to assume the cost of construction, reconstruction and maintenance of the main roads traversing unappropriated public lands and Indian reservations. It carried no appropriation, however, leaving the necessary sums to be provided by congress after a survey of highway needs. The motor association will work for the introduction of a measure to provide \$2,500,000 a year.

"Passage of this legislation by the last congress," stated the association, "renewed our hopes of having the Federal government recognize its full obligation in the public land states. The principle was then established and we feel confident of getting the necessary appropriation this coming session. This has been a long, hard fight, constantly carried on by the association."

MILLION DOLLAR FIRE, VANCOUVER VANCOUVER, B. C., Aug. 11.—(Sp.)—The new million dollar Canadian national railway pier here was a blackened ruin today, after one of the most sensational fires in this port. Damage to the structure and freight awaiting coastwise vessels was estimated by government officials at \$1,250,000. Origin of the blaze was unknown.

While firemen battled the raging flames which several times spread to a nearby ferry wharf, one of the crowd of spectators, James Cathcart, fell dead as a result of a heart attack.

Kansas Pastor Safe. WASHINGTON, Aug. 11.—(Sp.)—A message to the state department today from the U. S. gambler Patos, off Chansha, said the Rev. Allen Cameron of Lawrence, Kans., was now safe.

After the communist raid on Chansha Cameron was reported alternately safe and in grave danger.
