OLD TOWN MINE JACKSONVILLE IN NEW HANDS

Midas Gold Mines, Inc., to Develop Property Is Assertion—Custom Mill to Be Installed.

Extensive mineral development near Jacksonville was indicated today in the announcement that the Midas Gold Mines, Inc., has completed negotiations in taking over the Old Town mining property, adjoining the Opp mine a short distance from the former county seat. Plans are under way for the installation of a 100-ton custom mill which would receive ore from all parts of the county, in addition to a large supply of ore from the corporation's mine.

The mill will use several processes and will be capable of working over mine tailings.

The Town mine was opened in 1852 and is estimated to have produced $250,000 since that time with most of the gold sluiced out from near the surface of the ground. A miner, named Bowden, is credited with taking out [illegible] and over $20,000 is said to have been taken out during the 90's.

Much Ore Blocked.

In the neighborhood of [illegible] tons of ore are now on the mine dumps and 25,000 tons are said to be ready for [illegible] [illegible] [illegible]. The [illegible] [illegible] [illegible] tons.

Financing of the project is complete and work will be carried on under the direction of C. C. Clark, superintendent of the Pacific [illegible] Mines, Inc., and John E. Tyler, Napa, [illegible], engineer in charge. These men have had considerable experience in the mining world and are confident of the success of the project so far.

Equipment, valued at $5,000, has been installed during the past 10 days, and 11 men are now on the payroll. Present improvement [illegible] include the installation of new steel tracks in the tunnels, replacing tracks that had outlived their usefulness, air compressor and other mine apparatus. The property has some [illegible] feet of tunnels.

George Schump, Jacksonville mining man, took possession of the mine two years ago by acquiring the tax title and transferred the holdings to the new corporation, the capitalization of which is announced at one million dollars.

R. E. Elsworth, formerly with the Silvanite mine at Gold Hill, is connected with the new company as mineralogist and is establishing a laboratory on the property.

The Varney Line, connecting the Pacific Northwest directly with eastern airlines, has suspended operations over its Spokane-St. Paul route.

TROJAN-RAMBLER GAME BROADCAST

One of the season's most important football games, the forthcoming Notre Dame-U. S. C. fracas, will be brought to southern Oregon radio fans Saturday afternoon, starting about 2 o'clock. This game will be broadcast over station KMED, as received from the UBC facilities, which will be in direct contact with the field of play. A UBC announcer will be at the microphone and the cheers of the crowd, the bands, etc., will be heard, along with the play by play description of the game.

JUDGE TO CURB ATTORNEY TALK IN LIQUOR CASE

Halley Faces Second Trial for Alleged Possession—Jurors Sounded On Prejudice.

The retrial of Walter Halley, charged with possession of liquor, was begun in the circuit court this morning, with the selection fo a jury from a special venire.

The court informally announced that he would "close down on the vituperation of opposing counsel" marking the first trial, which resulted in a disagreement, and cautioned the attorneys to confine themselves to the facts and the evidence. The defendant is represented by Attorney Thomas J. Enright, and the state by Assistant District Attorney George Neilson.

In the first trial the two lawyers engaged in a heated exchange over the difference between a "bootlegger" and a "stoolpigeon," and made the closing argument bitter.

Jurors questioned this morning, including two women, were asked about their attitude toward the prohibition laws and if applying of the term "stoolpigeon" to one of the state witnesses, would prejudice them.

Among the witnesses scheduled to be called by the defense, is Gene O'Grady, pugilist of promise, who testified at the first trial he drove Halley to Ashland in his auto on the day of the alleged crime, at an hour contrary to the time set by state witnesses.

The trial is expected to last today, and go to the jury by tomorrow afternoon.

10-DAY JOLT FOR NERVY TRANSIENT

Following an unusual exhibition of either nerve or plumb foolishness, W. J. Morrigon, a transient musician in the city, was given a sentence of 10 days, in Judge Taylor's court this forenoon, on a petty larceny charge, consisting of stealing a $20 gas scrip book from Bob Slizger of the local Union Oil company station on December 2.

It is asserted that after he had purloined the scrip book from the office of the station a few minutes later he tendered it in payment for gas he was purchasing for his car. His arrest followed.

INDIAN EDUCATION FUNDS INCREASED

WASHINGTON, Dec. 4.—(AP)—Funds for educating the red man, which the Indian bureau considers one of its greatest problems, were increased in the budget made public today.

Although the total for the bureau was reduced $3,611,518, to $24,585,152, the estimates called for an increase of $677,416 for education, an additional $320,340 for industrial assistance, and a larger amount for conservation of health.

BEAVER SOUTHPAW IS TRADED TO OAKLAND

PORTLAND, Ore., Dec. 4.—(AP) Fred "Lefty" Ortman, southpaw pitcher for the Portland Beavers, has been traded to Oakland for John Fenton, one of the best fielding first-sackers in the Coast league. Announcement of the deal was made today by George Vranizan, secretary of the Beavers, who said it was a straight trade with no cash involved.
