

MANY VIEW SNOW OF CRATER LAKE PARK ON SUNDAY

Quite a number of Medford people visited Crater Lake yesterday, or tried to, despite the fact that the depth of snow ranges from about two feet at the Medford entrance to four feet at the rim, and much higher in places where the snow has drifted, and as a consequence there was at least one traffic jam at the west entrance late in the afternoon, and a number of minor mixups on the one-way road through the snow that leads from the Medford entrance to Anna Spring camp.

ceeding onward to visit the lake. He had only gone about a mile and a half when his progress was stopped on the one-way road by a car coming from the other direction, with presumably one or more cars behind it.

Super Gas Saver Increases Mileage

The Spinner Super Gas Saver, designed to increase mileage 10 to 40 per cent, as well as to increase motor "pep" and get-away, has invaded the Medford territory.

Since its introduction to the automotive world by the Spinner company, 1319 South Figueroa St., Los Angeles, thousands of motorists in coast states have installed them on their cars.

The Spinner, declare automotive engineers, spins the gas so fast, turning, churning with such force, being mixed with oxygen at the same time, that when the gas reaches the cylinder head, ready for combustion, one has a nearer perfect combustion.
