SHEET WASHED 150 TIMES STILL GOOD

It must be about the cleanest thing in Medford, that sheet in J. C. Penney company's front window. The one hundred-fiftieth washing at the Medford Domestic Laundry was recently completed to prove that "Penco" sheets are really as durable as they're advertised to be.

As firm and help-proof as it was before going to the laundry, the Penco sheet illustrates the fact that they may be used year after year with the average frequency of washing in the home. Another sheet which survived 75 washings at the American Laundry for that many more is also on display at Penney's.

BOLGER DELIVERS OPTIMISTIC NOTE AT ROTARY MEET

An optimistic keynote for business during 1931 was sounded at today's meeting of the Medford Rotary club, which was held at the Hotel Medford. Wm. S. Bolger, well known local merchant, was the speaker of the day and gave his personal views concerning present business conditions and the outlook for the coming year.

Bolger's contention was that much of the so-called depression is due largely to the mental attitude of the American people. "Too much thought is being given to Wall street and the foreign market and not enough to Main street and the local market," stated the speaker.

In discussing conditions in the cotton, silk and wool markets, Bolger advised that prices are the lowest since before the war, being even lower than they were in 1914. He also stated that national authorities were of the opinion that these prices have reached the bottom.

As a remedy for present business conditions, Bolger suggested that the average merchant stop worrying about Wall street, foreign markets, governmental problems and politics and devote his time to a careful analysis of his own business. To succeed in business requires careful preparation and plenty of hard work.

Ed Shoekley, who has just returned from a vacation trip to southern California, gave a brief account of his journey, including his visits to several Rotary clubs in the south. He stated that a general feeling of optimism prevailed in California and that business seemed to be on the upward trend.

President Corn announced that Tom Travis had been promoted to a new position in Los Angeles and would leave the local Rotary organization in the near future. Travis was called upon and responded with a short talk in which he stressed the value of friendship and the benefits derived from his association with Rotary.

Next week's meeting will be an important session devoted to the subject of "International Relations," in charge of J. C. Boyle, according to an announcement by President Corn.

Visiting Rotarians included Louis E. Johnston of Tacoma, Wylie Bent of Eugene and Low Hansen of Ashland. Guests were Mrs. Wylie Bent of Eugene and Guy Applewhite of Ashland.

PAIN IN YOUR SHOULDER?

Use Tysmol for Relief. Knife-like jabs of pain in the vicinity of the shoulder blade are generally due to neuritis, brought on by exposure to drafts or sudden changes of weather. In some cases there is stiffness or soreness in the muscles, making it difficult to raise the arm.

The safest and easiest way to relieve such an attack is to apply a small quantity of Tysmol over the affected area. This soothing, healing preparation is quickly absorbed through the pores and carried to the throbbing aching peripheral nerves. The pain usually stops at once, and in a very short time the last trace of soreness should disappear.

Tysmol is absolutely harmless—free from drugs. Recommended for all forms of nerve pain, whether caused by neuritis, neuralgia, sciatica or rheumatism. Sold by leading druggists. Always on hand at Strain's Drug Store.
