

GRAND JURY TO CLEAR WAY FOR DAHACK PROBE

Convenes Wednesday for Pending Matters—Special Grand Jury Will Be Called in Raid Death.

To clear the decks for the calling of a special grand jury to investigate the death of Everett Dahack, 34, of the Eagle Point district, slain during a raid on a Reese creek still a month ago, the regular grand jury will convene tomorrow to hear three or four matters pending. The district attorney's office said today.

Governor A. W. Norblad announced yesterday that he would direct the appointment of a special prosecutor, and the calling of a special grand jury to re-investigate the raid death.

The special grand jury will be drawn by the circuit court judge, in the regular manner from the jury list of the county.

The special prosecutor will be appointed by the state attorney-general, and the selection will probably be L. A. Liljeqvist, an assistant attorney-general, who has conducted several special grand jury quizzes and special prosecutions in this county, including the Bank of Jacksonville failure cases and the "right riding" investigations, and trials Liljeqvist is one of the leading lawyers of the state, and from past experience well acquainted with all angles of the Jackson county situation.

Want Local Lawyer In some quarters there has been a sentiment for the appointment of a local lawyer as special prosecutor. It is understood that friends and relatives of Dahack favor the appointment of Charles A. Reames, who several weeks ago announced that he would not accept the berth under any consideration. Another lawyer mentioned has been Attorney T. J. Enright of this city.

It is not expected that any action will be taken in the special quiz until after inauguration of Governor-elect Julius Meier next Monday.

At the first grand jury hearing, 28 witnesses were heard, and those will be called again. If the special investigator sent here, who reported for the calling of a special grand jury and special prosecutor, unearthed new evidence and witnesses, they will be called.

The next regular grand jury is scheduled to be called the last Monday in February. It is thought that in the ordinary course of legal procedure the Dahack inquiry will be completed by that time.

AERONAUTIC HEAD NEEDED IN STATE

PORTLAND, Ore., Jan. 6.—(AP) Recommendation that Oregon provide a full-time salaried inspector of aeronautics was made to Governor-elect Meier today by a joint committee composed of the Oregon State Board of Aeronautics, the Portland chapter of the National Aeronautics association and persons in the industry.

The state board of aviation would be supported by funds derived from the 1-cent gasoline tax now paid by the aviation industry.

Control of Colds, Is Aim of Research

BALTIMORE, (AP)—The common cold is being subjected to a double-barreled attack by science. What causes an ordinary cold has been determined to the satisfaction of a score or more of specialists—and now the remaining and perhaps more serious problem, is to ascertain how colds can be controlled and cured.

Research at Johns Hopkins university has uncovered a virus, invisible even to the microscope, as the cause of a cold—and further studies are being made to find an effective means of curbing it.

Meanwhile, another attack on colds, closely associated with the Baltimore work, is being conducted at the Presbyterian hospital laboratories in New York under Dr. Alphonse Raymond Dochez of Columbia university.

The Johns Hopkins research has been done under the John J. Abel fund, established nearly three years

DR. JOHN J. ABEL

ago by a gift of \$195,000 from the Chemical Foundation. Dr. Abel is world-famous as a chemistry biologist.

In this attempt to curb the cold, which is estimated to cost American wage-earners along \$2,000,000,000 a year in lost pay, college girls, chimpanzees, test tubes and statistics are playing a part.

College girls, 19 of them, have been volunteer subjects of experimental colds. Statistics are being gathered from 125 Baltimore families by a nurse who devotes full time to keeping records of when and how colds develop—and how long they last.

Dr. Dochez is using chimpanzees, which react to colds like human beings, in his tests. A chimpanzee may be caged and kept under a uniform temperature, and submit more docilely than a human being.

The tiny virus discovered at Johns Hopkins is so small it cannot be captured by a porcelain filter, and it is impossible to cultivate in the laboratory.

SUSPECT ARRESTED IN SPOKANE MURDER

SPOKANE, Jan. 6.—(AP) Warren Wilkins, 24, arrested with two women at Sacramento, Cal., is charged here with murdering Henry G. Anderson, druggist, December 18. Two men entered Anderson's store and shot him in cold blood. They made no attempt at robbery. Police said they had no clues to the second man.

STORY 1 (Continued from Page 1)

will not be known until announced by Mayor Wilson tonight, but according to the best unofficial information obtainable the following is the list of council committees:

Finance—C. A. Meeker, chairman, D. H. Terret, W. W. Allen, Public safety—P. M. Kershaw, chairman, C. C. Furnas, G. W. Porter.

Streets and roads—J. O. Grey, chairman, D. R. Terret, C. C. Furnas.

Parks and playgrounds—P. M. Kershaw, chairman, C. A. Meeker, G. W. Porter.

Land appraisal—G. W. Porter, chairman, W. W. Allen, J. O. Grey, Building and light—D. H. Terret, P. M. Kershaw, C. C. Darby.

Licenses—C. C. Darby, chairman, C. C. Furnas, C. A. Meeker, Health—W. W. Allen, chairman, J. O. Grey, C. C. Darby.

Alphabet—C. C. Furnas, chairman, J. O. Grey, D. R. Terret, C. A. Meeker, acting mayor.

New Commission Members To fill the two vacancies on the city water commission, occasioned by the recent resignation of E. C. Gaddis and A. L. Hill, whose term has expired and who does not care to longer serve, rumor has it that Paul H. Rynning, county engineer, will be appointed to the long term and T. B. Lundsten, cashier of the Jackson County bank to the short term.

Five appointments are to be made to the city planning commission because of Geo. W. Porter and W. W. Allen being new councilmen-elect, the resignation of Bart Thierolf, whose term expired January 1st, 1931, and the appointments of W. Bernard Roberts and C. M. Thomas having expired. According to rumors these appointments will be filled tonight as follows:

W. B. Roberts and C. M. Thomas to serve four years, Jas. D. Bell to serve three years and C. S. Butterfield and A. B. Cunningham to serve two years.

Budget Committee Members According to city hall gossip the new mayor will make a radical departure from the past custom by tonight appointing a committee of eight well known business men to serve as a budget committee all the year around—in fact act as a sort of advisory board to the city council. Heretofore the citizens budget committee has been appointed by the mayor every year a month or so before their duties begin of passing upon the city budget for the next year. Thus they will be studying city finances all the year.

Gossip further says that this committee to be named tonight will include Eugene Thornadyke, retiring councilman, as chairman, E. H. Jamney, Ted Gelbauer, Emil Mohr, Fred Wahl, John S. Orth, Scott V. Davis, and one other. The majority of these have had previous experience in advising on the citizens budget committee.

Of course the elected members of the city government, City Recorder M. L. Alford and City Treasurer Gus Samuels have already assumed the duties of their new terms.

More than 123,000 pounds of cabbage have been sold this year by farmers in Jackson county, N. C., through cooperative agencies.

New Children's Crusade Led by 1,100 Scientists

MARTHA VAN RENSSELAER

GRACE ABBOTT

LILLIAN D. WALD

JULIA LATHROP

At Call of President Hoover, Women Pioneers Rally to Cause of Childhood

Washington, D. C.—More than 700 years ago a children's crusade brought death to nearly 90,000 children.

The new children's crusade, led by the President of the United States and 1,100 scientific idealists, will bring more abundant life to hundreds of thousands of children when the plans for the White House Conference on Child Health and Protection come to fruition.

Making surveys of child problems under the direction of the President and his aides, Secretary of the Interior Ray Lyman Wilbur, chairman of the Conference, and Dr. H. E. Barnard, director, are many pioneers in work for children. A number are women.

One, Miss Julia Lathrop was the first chief of the United States Children's Bureau after its formation. She is a member of the

Planning Committee of the Conference to be held November 19-25 here, and also of the Educator and Training section.

A memorandum prepared by Grace Abbott, another pioneer, for the League of Nations in 1923 led to an investigation of the traffic in women and children in the western world. Since 1921 she has been head of the Children's Bureau. She is a member of the Conference Planning Committee and of the section on Public Health Service and Administration.

Miss Martha Van Rensselaer's name appears upon all the lists of America's greatest women. She is Director of the New York State College of Home Economics at Cornell, and a pioneer in work for farm women and children. She is associate director of the Conference and member of the Training and Education section.

Lillian D. Wald, founder of the Henry Street Settlement in New York City, and originator of the district nursing idea, is working with the Conference section on Education and Training.

SHORT SENTENCES CROWDING PRISON

SALEM, Ore., Jan. 6.—(AP)—To head off a precedent which he says has been set by Judge L. H. McMahon of the circuit court for Marion and Linn counties in sentencing men to the state prison for only a few months' time, Governor Norblad will recommend to the legislature the enactment of a law prohibiting sentences of less than one year to the state prison. Because of the rapidly increasing prison population the governor fears that sentences of only a few months will result in an overcrowding of inmates.

Canadian Premier

M. B. Bennett, Calgary lawyer, was elected prime minister of Canada in a smashing victory that returned the conservative party to power for the first time since the world war.

LEIPIZIG.—(AP)—Skiing is gaining rapidly in popularity in Germany.

Germans not only vie with Norwegian masters at winter sports resorts, but "ski" skiing on sand hills has become a craze here.

At the Leipzig Fair, water skis were shown, and also skis on rollers.

An air ski, on the glider principle, it is claimed, can smash all the present records.

Wisconsin shipped potatoes to 27 states and to Cuba during the 1929-30 season.

Coal fields on Hokkaido island, Japan, first explored by an American geologist in 1874, now produce more than 48,000,000 yen of coal yearly.

THE DALLES

Farming and money are synonymous in The Dalles as \$5,000,000 in savings deposits prove. Wheat, sheep, horses, and hay all bring more than a million dollars a year and seven other principal farm products run the total past \$15,000,000.

Only because the agricultural return is so great does the industrial payroll look relatively small. But 42 manufacturers have a yearly payroll of \$1,440,000, an average of 1,213 wage earners, produce \$2,358,000 worth of goods annually.

The county seat and 471 retailers bring many buyers to The Dalles. Ample opportunities for sales are indicated by 651% of the families who own automobiles and the 95% who occupy individual dwellings.

Only daily in five adjoining counties, The Dalles Chronicle delivers each evening to 94.7% of all the homes in the city and maintains extensive carrier routes in its surrounding market. Conservative but alert, the Chronicle is one of the most quoted dailies in Oregon.
