Wall Street Report

NEW YORK, Jan. 10.—(AP)—The stock market again found itself in strong hands at the end of the week today.

Despite the active selling movement which developed late yesterday, the list stiffened soon after the start of today's short session and, while the advances were narrow, the closing tone was tirm. The row, the closing tone was firm. The list was helped by a repeat of the shorts in the chemical issues, and expectation of a favorable U.S. Steel tonnage report at the close an expectation which was not dis appointed. Trading was light, the transactions aggregating \$00,000 shares.

Today's closing prices for 15 se lected stocks follow:
