Lake and French Gulch, on a forest service detail. They will be engaged in clearing brush for roads and trails, and performing other forest service work.

Eighteen Despatched to Fish Lake and French Gulch Sections for Preliminary Labor.

By the end of the present week, emergency relief work in this county will have furnished six days of labor to 350 unemployed. There are 216 registered with the county court, yet to be furnished employment.

According to Victor Torgwald, secretary to the county court, and in charge of registration, the emergency work has reduced applicants with funds for food and necessities to take them through the winter.

It is expected that the highway emergency work has sufficient funds to maintain the work until the middle of March.

UNUSUAL GOODNESS OF FAMOUS COFFEE INTRIGUES EXPERTS Find That Delicious Flavor is the Result of Patented Roasting Process

Probably no coffee sold today has enjoyed the success of Hills Bros. Coffee. Everywhere it has been introduced it has become a leader.

This popularity lies in the fact that Hills Bros. Coffee has a delicious, uniform flavor such as no other coffee has. While the rare blend is partly responsible for this, the patented process, by which it is roasted, is one factor that has made this matchless, uniform flavor possible in every pound.

Instead of roasting in bulk, Hills Bros. roast only a few pounds at a time. By this process—the degree of roast, the continuous flow of coffee through the roasters, never vary. Hence the name of this process—Controlled Roasting.

Grocers everywhere sell Hills Bros. Coffee. It is always fresh because it is packed in vacuum cans from which air, which destroys the flavor of coffee, is taken out and kept out. Ordinary cans, even if air-tight, do not keep coffee fresh. Ask for Hills Bros. Coffee by name and look for the Arab—the trade-mark—on the can.

CYRUS H. K. CURTIS

President, The Curtis Publishing Company. "The Audit Bureau of Circulations has probably done more to stabilize the advertising business than any other agency has ever done or attempted to do, and in the course of years it has strengthened itself and secured the confidence of advertisers to such an extent that its activities at the present time are indispensable."

LEE W. MAXWELL President, The Crowell Publishing Company. "I feel that the organization of the Bureau was a great step forward in putting advertising on a much sounder basis. There is no question but that it has been an important factor in creating greater confidence in advertising and in advertising media on the part of American business men. I am glad to realize that our company has been a supporter of the Bureau from its inception."

power the Bureau makes available? Hundreds do, of course. But additional hundreds, the Bureau believes, are not as yet guarding the appropriation this sure way.

It is valuable information—that contained in the Bureau's Audit Reports. And the whole story never is told on the first page of the report. On the inside pages are facts and data everyone buying space has a right to know.

Reports of the Bureau cover almost every important publication in America. Publishers expect and want men buying advertising to use them.

As a recognition of service, not only publishers and agencies, but a distinguished group of advertisers, hold membership today in the Audit Bureau of Circulations.
