

ENDEAVORERS TO CELEBRATE GOLD JUBILEE

Sunday Marks Opening of Anniversary Program—Vast Organization Developed Since 1881.

Beginning on January 23, which is Denominational day, and ending February 2, the official Christian Endeavor birthday, Endeavorers all over the state will hold special meetings and programs to observe the Golden Jubilee anniversary of Christian Endeavor.

The first Young People's society was organized by Rev. Francis E. Clark in the Williston Congregational church, Portland, Maine, on February 2, 1881. In the following year a conference of Christian Endeavorers was held in Williston, represented by but six societies.

In 1884 the first two societies outside of North America were organized—one in Honolulu, Hawaii, and the other in Jaffna, Ceylon, India. The first state Christian Endeavor union in America was formed by the Endeavorers of Connecticut, November 15, 1885. In 1886 the first issue of the paper, "The Golden Rule" was published. Eleven years later the name was changed to the "Christian Endeavor World."

New Departments. The ensuing 20 years saw the adoption of many new departments and plans. Among these are: Uniform prayer-meeting topics, graded societies, and the quiet hour and life work recruit departments.

In 1925, the 30th international convention was held in Portland, Ore., at which time Dr. Francis E. Clark retired from active presidency and Dr. Daniel A. Poling became president. Two years later Dr. Clark passed away at his home in Massachusetts. "Christian Endeavor is his monument."

Last summer at Berlin, Germany, the international convention was represented by 42 nations.

At present more than 30,000 societies are actively at work with more than 4,000,000 members. Christian Endeavor is found in every country except Russia. More than 85 denominations are represented. Indeed, one can say, "Christian Endeavor is international, interdenominational and interracial."

SPECIAL PROGRAM PRESBYTERIAN C. E.

Senior Endeavor of the Presbyterian church will observe Youth Day, Sunday evening at 7:30, by giving a special program commemorating the fiftieth anniversary of the organization of Christian Endeavor. This golden jubilee year includes an international convention at San Francisco, and also the state convention at this church in April.

The several societies will meet at 6:30 as usual, with the open meeting at 7:30. A most attractive program has been prepared. The 82 young people engaged in Endeavor work extend a hearty invitation for everyone to share in this program.

MIRACLE AT MARRIAGE SUBJECT OF DR. FUNK

This subject was suggested by a young lady and other subjects were understood, will follow by suggestions of interested listeners.

Another subject that was suggested was "The End of the World—What Does It Mean?"

The program is put on every Sunday evening between the hours of eight and nine over KMED, "The Voice of a Great Country."

The Apostolic faith has resumed its radio broadcasting program and will be on the air every Saturday night from 9 to 9:30 o'clock, over radio station KEX, at Portland. KEX operates on a wave length of 254 meters, 1180 kilocycles.

Barnes of Phoenix won high score, while Mrs. Ted Littlefield took consolation honors. Refreshments were served at the close of the program.

Mrs. Jackson surely laid to the occasion under a trying experience, for in the midst of her preparations for her guests, fire caught in the roof of their dwelling and only by a heroic effort on the part of the Phoenix fire boys was the house saved. Nevertheless, Mrs. Jackson gladly received her guests and all had a most pleasant time. SNAKE AND SOCIAL SCRIBES CARRYING ON OFFICE STRIFE

A feud existing between the snake and society editors of this paper and resulting in each surreptitiously slandering the other in their respective columns has grown to such an extent that in justice to each some explanation should be made lest readers form wrong impressions. In the first place the fish and snake editor's published story of the society dame's chronicler having watched a pitched battle between a Table Rock rattlesnake and ranch yard chicken with much interest is a pure hallucination arising from a recent auto wreck in which the reptile editor and several of his girls were spilled.

The society editor of this paper is not an Amazon. Like others of her sex a small gutter snake could chase her all over the county, and at the sight of a mouse she could easily jump over either Table Rock or both of them, and back before her composure was recovered.

But that is no excuse for her retaliatory attack in trying to make out the fish and snake editor as a lounge lizard and society scoundrel by including his name among the social guests at society functions.

This partaking of soup can be easily heard a block away, his shoes have not been shined for three months and if he were to be invited out to a dinner function he would probably confidently take his napkin inside his shirt collar and grab the wrong fork with his left hand to spear an olive.

COMPLIMENT CITY ON GRADE A MILK

A compliment for the observance of Medford's new dairy ordinance was carried in a statement made by L. S. Leach, deputy state dairy and food commissioner, when in Medford this week. He stated that this city has a higher percentage of grade A milk in proportion to its size than any city in the state. The B grade has been held to a minimum and there are no C and D grades sold in Medford in any quantity.

"This was brought about in a period of only eight months," said C. W. Austin, city dairy inspector.

Deaf Girls Dance To Vibrations of Music in Ballet

ATLANTA, via Jan. 23.—(AP)—A new world, interpreted as live dancing and the ballet, is open to the deaf. Tests, following long study and experimentation at the Georgia school for the deaf, show that the deaf can "hear" music and respond to its rhythm by sending the physical vibrations of musical notes. Three girls of the school, dressed in gay Spanish costumes, performed an entire ballet number in demonstration.
