Had Dempsey immediately flooded the cut with iodine, he would have had no trouble. War veterans will tell you that soldiers were court martialed for failure to apply iodine even to the slightest wound. Don't neglect slight injuries. A boy at play in the Christmas holidays was pushed into a rose bush, his hand was pricked by a thorn and he died of lockjaw, the germs, doubtlessly contained in manure used to fertilize the roses. Pavlova, great Russian dancer, is dead. They may possibly dance in Heaven, since they have music and David's dancing before the ark, was approved above. In that case, Pavlova by this time may have met and watched Taglioni, greatest ballerina that ever lived on earth. 11\*

In modern dancing various things are imitated, Apaches, and heaven knows what. Even Pavlova had to imitate a swan. Taglioni imitated nothing, content to interpret the grace of womanhood. She died long ago. Those that saw her used to say that she 'floated' across the stage. If women dancers would dance, and not turn handspins or imitate a thunder storm, many would be grateful. 11\*

Eddie Anderson, Chicago light-weight, put on his dress clothes over his fighting trunks, stepped into the ring, and married Miss Babe Matthews, the solemn words spoken by Municipal Judge Battin. The bride retired, having been kissed by everybody in the ring. Eddie took off his dress clothes, and started on his honeymoon. All this happened in Omaha, could anything be more edifying? 11\*

The British will release Mahatma Gandhi who has been in prison since last May and made a very comfortable prisoner. Britain being careful not to make him a martyr. The trouble is that being released it will be necessary for him to invent some interesting agitation. A Mahatma must, like a salesman, show results. But poor Gandhi, peaceful at heart, doesn't know exactly what to do with the 200,000,000 that stand behind him. What would Napoleon have done with such a crowd; or one of the great tartar rulers, or even some leader of Tammany hall who would know how to use their votes? 11\*

The human mind that performs these miracles, which is even more amazing. If you wonder at the electrician, consider the intellect that weighs the electron, as it does the distant star, and measures the speed of both. 11\*

If you say 'Be careful of your health,' little boys and grown men pay no attention. If you say 'Jack Dempsey's left hand is badly infected, and he may lose his arm,' everybody pays attention. Dempsey neglected a small cut. The invisible germ is more powerful than the greatest fighter. The powerful hand is swollen twice its size, and may be amputated. 11\*
