"Pancakes TASTE BETTER with this Golden Syrup"

"Folks tell me that pancakes taste twice as good with this Golden blend of ours," says Bill Heer. "I use premium grade syrup from the first run of the best cane sugar refineries to add the true old-time, sugar-house flavor. Try it with pancakes, waffles or hot breads. You'll see it pays to be extra careful in the making." It's surprisingly inexpensive, too!

VANDERBILT MISQUOTED BY BUTLER

Source of Marine Major's Story Regarding Mussolini Says Reports of Auto Incident in Carbed—Offers Pheonix in Court.

PHOENIX, Ariz., Feb. 5.—(AP)—Cornelius Vanderbilt, Jr., reputed source of the Mussolini story that has resulted in General Stanley D. Butler facing a court martial, was on record today with a statement charging General Butler with misquoting.

General Butler in a recent Philadelphia speech charged the Italian dictator with having been guilty of leaving the scene of an accident wherein an automobile in which he was riding struck a child.

"I will relate correctly from the witness stand what I said if General Butler or his counsel asks me to appear. So far I have told it only to the state department in a letter which they have declined to make public. I have told the state department I will appear at the court martial if it is desired, and I have informed General Butler similarly."

ROAD PROGRAM WOULD BE HIT BY KIDDLE BILL

Taking of \$1,200,000 From State Highway Fund for Market Roads Discussed in Hearing.

SALISBURY, Feb. 5.—(AP)—Taking \$1,200,000 from the state highway fund to apply on market roads, thus relieving real property of a one mill tax levy, is purely a legislative matter and not one for the state highway commission to take a hand, was the expressed opinion of three members of the commission who last night answered questions of members of the joint roads and highway committees of the state legislature.

The state building program will never be completed," said Van Duzer in reply to a plan of the commission. Taking this money from the fund would retard progress, he said, but the commission has had in mind for some time the establishment of a secondary road program. The question is whether or not the time for taking over such a program is at hand.

IZAAK WALTONS CELEBRATE BAN ON ROGUE NETS

Medford Men Attend Grants Pass Banquet—Chapter Elects Incumbent Officers to New Term.

Medford and Grants Pass conservationists celebrated the closing of Rogue river to commercial fishing by the state legislature when the Medford members of the Rogue River committee and a delegation from the local game protective association were dinner guests of the Josephine chapter of the Izak Walton league at Grants Pass last night.

The occasion was also the event of the annual meeting for election of officers of the Izak Walton league, of which some of the Medford men are members. In view of the splendid results attained by the organization during the past year the club departed from its usual rule of electing new officers each year and passed into service the present officers for the coming year.

The officers elected were Joseph Wharton, president; Dr. C. J. Moser, vice president; Pete Allen, secretary; treasurer and Wilford Allen, Dr. W. W. Walker and Charles Adair, trustees.

The meeting voted to send telegrams of appreciation to each of the members of the Josephine and Jackson county delegations to the legislature for the work done in securing the passing of the Rogue river closing measure and telegrams were also sent to Dr. Henry Baldwin Ward, professor in Illinois university and nationally famous conservationist director in the Izak Walton league; to Seth Gordon of the National Game Protective association and other nationally prominent conservationists.

It was stated at the meeting that the news of the success of the Rogue river bill would be hailed with delight by conservationists all over North America as well as in England, Australia, Scotland and other parts of the world where the fame of Rogue river is known.

Hammond in Address The meeting closed with an address by James G. Hammond, of Chicago, national field representative of the Izak Walton League of America. Mr. Hammond is a native Oregonian, a world wide traveler and a brother of Major General Grede C. Hammond, well known in southern Oregon.

Mr. Hammond said that while only nine years old the Izak Walton League of America numbered 115,000 members, maintained a bureau in Washington, D. C., and had already been responsible for eighteen pieces of national legislation for wild life conservation, and worked in the closest co-operation with the American Game Protective association.

Highlights in his address included statements that while there are eight million hunting licenses issued annually in the United States, only four million migratory birds come to the United States from Canada, while the Canada birds comprise 90 percent of all the migratory birds in the United States every season.

Citing the great success attained in Pennsylvania by the conservationists he said, that while 20 years ago Pennsylvania was entirely denuded of game, last year Pennsylvania hunters killed over 600 bear, 6500 wild turkey, and in one county 50,000 pheasants were killed and wild life was on the increase in spite of the intensive hunting.

SUNSHINE MELLOWS Heat Purifies

LUCKIES are always kind to your throat

The advice of your physician is: Keep out of doors, in the open air, breathe deeply; take plenty of exercise in the mellow sunshine, and have a periodic check-up on the health of your body.

Everyone knows that sunshine mellows—that's why the "TOASTING" process includes the use of the Ultra Violet Rays. LUCKY STRIKE—made of the finest tobaccos—the Cream of the Crop—THEN—"IT'S TOASTED"—an extra, secret heating process. Harsh irritants present in all raw tobaccos are expelled by "TOASTING." These irritants are sold to others. They are not present in your LUCKY STRIKE. No wonder LUCKIES are always kind to your throat.
