BURELSON'S STORE WILL OPEN SPRING APPAREL DISPLAY

Saturday morning feminine shoppers of southern Oregon will be given an opportunity to view the beautiful spring merchandise added to Burelson's store with completion of the expansion program. The formal opening Saturday will be celebrated with the largest showing of feminine apparel that has ever graced the store.

Increased business has necessitated additional floor space, so to adequately serve the southern Oregon public Burelson's increased the size of the store.

Several new lines of Pacific coast manufacturers have been added for the opening of the new enlarged store.

A large crowd is anticipated for the opening. Charming gowns created for spring, coats, suits, hats and lingerie will be included in the displays. All the new colors and style details will be featured.

An expression of appreciation of the patronage given the store during the past was expressed yesterday by E. T. Burelson with a promise of increased service for the future.

FILM OF LINCOLN NOT TO CONFLICT WITH CLUB FEAST

It will be a relief to many local residents who always attend the annual Lincoln club banquet, to learn that the Lincoln moving picture, one of the outstanding films of the day that depicts incidents in the life and times of the martyred president, will be at the Holly theater, Feb. 12, 13 and 14. Thus the showing of that great film will not defer attendance at the banquet, but will really enhance it.

The first report that the Lincoln picture would be at the Holly theater only on Lincoln's birthday, and that therefore one could not attend both, proved to be a misnomer. Instead, as the Lincoln club officers point out, one can attend the banquet in the evening and the matinee performance that afternoon, or can witness the picture on either of the following nights.

The authorities of Mexico have given their permission for the colonization. Cost of the land and expense of moving is estimated at approximately $12,000,000, Russek stated.

LOCAL RADIO MAN ENTERS TEST FOR ARMY AID HONORS

No results have yet been given out concerning the outcome of the elaborate national amateur radio net contact test held last Monday night, and in which civilian amateur radio operators participated, the three Oregonians participating including Harold D. DeVoe, well known Medford young man, who is taking a course in electrical engineering at the Oregon State college and who has for years past borne the reputation locally as being a gifted amateur radio expert. He is the son of Mr. and Mrs. C. A. DeVoe, who reside on route number two since Mr. DeVoe several years ago sold out his confectionery and grocery business.

Originally formed in 1925 for the purpose of enabling all parts of the country to maintain communication with outside points in case of local emergency or disaster, destroying other means of communication, the National Army Amateur Radio net has grown and expanded until at the present time it embraces over a thousand stations. Eighty-five of these stations are constantly on the alert in the ninth corps area, and four are functioning daily in the state of Oregon.

The purpose of the contest last Monday night was to determine how many stations one individual station could contact during the period 6 p. m. to 6 a. m.

A substantial award will be presented to the winning station in each corps area in the United States on February 23rd, when the winner will be announced.

While most states in the ninth corps area are well represented in the army net, there are still vacancies for skilled operators who can qualify. Those interested should communicate with the Signal Officer, Headquarters Ninth Corps Area, Presidio of San Francisco.
