

GIRL SCOUTS TO GREET DIRECTOR WEDNESDAY EVE

Miss Craig will outline in detail her camp program and plans and answer any questions concerning them. Many new and different camp awards are planned for this session of summer camp and all Girl Scouts will be interested in hearing of them at this court of awards.

Miss Craig and her staff will leave for Camp Willpen Pines about Thursday to prepare for the large number of Girl Scout campers who arrive July 5. For that reason it is urged that all Girl Scouts attend court of awards in order to meet Miss Craig before going to camp.

GRAND JURY NOT TO MEET DURING WEEK IS REPORT

There will be no session of the grand jury this week as contemplated, owing to a number of prisoners held on various minor criminal charges waiting their grand jury rights and entering guilty pleas.

One case is pending, that of Elton Huls and his wife, accused of shooting John Waworika, Polish miner of the Evans creek district, in the calf of the right leg during an argument two weeks ago.

The Huls are at liberty on bail, and Waworika has been released from the hospital. Mrs. Huls is alleged to have fired the shot, when her husband was hit on the forehead with a claw-hammer. Some dispute started over a debt of \$9.25.

Vincent Marcell, 18, and George Eifer, 20, who confessed last Saturday morning to staging a series of holdups in this city last week, will probably enter pleas of guilty, it is said.

The petit jury has been directed to return Monday, July 6, for services. Among the first cases to be called will be that of Frank Bennett, charged with a statutory offense. Bennett has been in jail for the past three months. Sentence is also pending on Richard Fritz found guilty on a similar charge, in misdemeanor form.

D'AUTREMONT'S IN PEN FOUR YEARS

Four years ago last Saturday, the notorious D'Autremont brothers started serving life sentences for their confessed parts in the Siskiyou tunnel attempted train robbery and quadruple murders.

According to local records, which recently visited the penitentiary, prison life has left heavy marks on the three brothers, particularly Hugh, the younger. He is now 24 years of age, and is employed in the prison workshop. The twins—Ray and Roy—are similarly engaged.

The twins, according to reports, are reconciled to their fate, and expect to spend all their days behind the grim walls, but Hugh has confided to acquaintances that he expects to be liberated in 15 years.

Brisbane's Today (Continued from Page One)

The Catholic church, through the congregation of the holy office, has placed on the index of prohibited books, four by the French philosopher Leroy, teacher at the College of France.

LeRoy says it is impossible to demonstrate the existence of God or to prove any difference between the Creator and things created. He denies that God created the soul.

In the light of modern knowledge what one man affirms or denies is not important. Nobody ever saw electricity, although we see sparks and lightning flashes, and the fumes of bodies of criminals that electricity has killed. No one knows what it is. It is impossible to prove the ex-

ELKS WILL GREET CONVENTION AUTO

Car No. 1 of the Elks-Studebaker good-will fleet, enroute from New York to the Elks national convention in Seattle, which opens July 6, will arrive in Medford tomorrow. The eastern Elks will be greeted by a committee composed of Mayor E. M. Wilson, W. M. Clemenson and E. C. Ferguson.

The car, painted with the official purple and white of the Elks, is piloted by E. C. Donnell. The driver and his party will spend tonight in Redding and continue to this city tomorrow.

The three cars comprising the fleet, were started by Gov. Franklin D. Roosevelt, from his home at Hyde Park, New York, the governor being an important member of the Elks, holding a card in Poughkeepsie, N. Y., lodge, has entrusted the pilots of the cars to carry his personal message of good will to the more than 200 Elks clubs to be visited.

LAKE POSTOFFICE OPENED UP EARLY

Coincidental with the opening of Crater Lake lodge for business Saturday for the season, the national park postoffice at the lodge was opened for business, the first time in the park's history that that postoffice has ever opened before the official Crater Lake season opening on July 1.

To do this required a special dispensation from the post office department at Washington, D. C., which was readily obtained. Since the informal opening of the national park a month ago there has been no postoffice at the park until Saturday, the mail for the hundreds of laborers and park employees being taken up daily from the Medford postoffice by "ark" trucks, and distributed by the park officials at Government Camp.

From next Wednesday the official opening of the Crater Lake season, the mail will be taken up to the park postoffice daily by a Crater Lake stage.

ONLY ONE COFFEE IS ROASTED UNDER SCIENTIFIC CONTROL

The housewife who cooks food in small quantities to insure perfect results will instantly recognize the value of Hills Bros' patented, continuous process—Controlled Roasting—as a means to develop the utmost flavor in coffee.

Instead of the rare blend of fine coffees being roasted in bulk, which is the ordinary method, only a few pounds at a time are roasted. These small quantities pass continuously through the "Controlled Roasters" in which heat and speed of operation are automatically controlled.

Because of this accurate control of the flow of coffee and the heat, every berry of the blend is roasted evenly. None are overdone—none are under-roasted. This uniformity is demonstrated in the cup of coffee eventually made. It has a flavor other coffees cannot equal because they are not roasted the same way.

Hills Bros. Coffee is sold everywhere by grocers. It comes to you perfectly fresh because it is packed in vacuum. This process extracts air which destroys the flavor of coffee, from the can and keeps it out. Ordinary cans, even if airtight, do not keep coffee fresh. Ask for Hills Bros. Coffee by name and look for the Arab—the trade-mark—on the can.

Hills Bros. Use Radically Different, Patented Process to Develop Finer Flavor

The general public does not know how important a part the United States treasury plays in discouraging the higher-up criminals. The latter are financiers on a big scale, and make huge profits, in some cases millions a year for single individuals.

The income tax department traces the huge winnings, wants to know why no report has been made, and no tax paid, collects one-half of the money and sends the criminal financiers to jail.

The treasury department has broken up the worst of Chicago's gangs and has the most dangerous ringleaders on their way to jail, something the Chicago police could not do, for reasons not mysterious.

Killing by brigands, "reds" and government authorities, when they catch the brigands or "reds," continue in China. China's "reds" alone are said by civil authorities of Changsha to have killed 400,000 within five years, and this is a comparatively small area.

Canton opposed to domination by Northern China, has been purchasing war materials with considerable intelligence. The purchases include 36 airplanes, 16 of them from the United States, and six airplanes, with only 108 Chinese in them, can do more to worry Northern Chinese cities than 103,000 Cantonese marching along the ground.

In New York city colored men, and women, organized in protest against the proposed execution of eight negroes in Alabama, one of them a boy in his teens. The eight negroes are to be killed on the complaint of two white women that were traveling in a freight car in which the negroes stole a ride. The character of the women is not clear and it is suggested that if the eight men had been white they would not have been punished. It would seem desirable to clear up that point.

The parade in Harlem, New York, emphasized the turning against religion that has recently been conspicuous in many places, Mexico, Spain, Italy, and lately in the state of Vera Cruz, where a new law restricts the number of priests to 10, or only one for 100,000 population.

The old-fashioned signs in the parade read: "Smash the legal lynching" and "Death to lynchers." A new kind of sign read: "Defend the Soviet Union," although it is not clear what the Soviet Union has to do with the execution of eight Alabama negroes, and other signs, evidently inspired by socialism, read: "Work and pray, live on hay, you'll eat pie in the sky, when you die."

JEROMES WILL GO EAST ON SPECIAL SHRINE EXCURSION

An unusually attractive vacation in store for Mrs. E. C. Jerome, typing instructor of the Medford high school faculty, starting with her departure tonight for San Jose, Cal., to visit her brothers and sisters there until next Wednesday, when Mr. Jerome will join her at San Francisco and they will depart on the Shrine's special train for Cleveland, Ohio, to attend the national convention of the Shrine.

Following the close of the convention she will then go on to Boston, Mass., to be the guest of Mr. and Mrs. E. O. Teague of Windsor, Vt., for several weeks. She will be met in Boston by the Teagues, who will take her on an automobile tour of New England, and after further visit with them at their home, Mr. and Mrs. Teague will conduct her by auto back to Chicago, from which city she will take the train for home, arriving here the last of August.

Mr. Jerome, who as a past possessor of Hillah temple is a delegate to the Shrine's convention, will return to Medford immediately following the Cleveland convention.
