The French know what they
want, and do not want. A logi-
cally people, they see farther
and than other nations, and
such statesmen concentrate
the welfare of France EX-
CLUSIVELY. If not they get

the French don't want Ger-
many to discontinue payments
two reasons:
First, they want the money
back. Second, they think that
payments if stopped will not
hurt again, and there is some-
thing in that.

However, international pub-
lic opinion has power. Presi-
dent Hoover made it clear that
he offers for acceptance by
the NATIONS. If France re-
sists, the moratorium proposi-
tion would lapse.

That would be a shock to our
speculators, that picked
up courage, and pushed up
prices, as soon as the President
said.

Walter Chrysler, on the 66th
floor of his New York building,
yesterday showed the engine
of his new Plymouth. It takes
ten million dollars into a
car, in the lowest price
at this time, but Mr.
Chrysler, who specializes in
price, believes that he has
done something worth while
with his "floating power" plant.

The new free-wheeling
model shows the
engine moving slowly from side
to side, on an entirely new sus-
pension plan that does away
with vibration.

There is always room for a
new idea.
The \$250,000,000 "improved"
"Radio City" that John D. Rockefeller,
is constructing in the heart
of New York, will include an
improvement on the Hanging
Gardens of Babylon. Three
blocks will have their roofs
covered with gardens, in which
plants may take the air, and
contemplate the power of mon-
strously employed.

Mr. Rockefeller's center is
called "Radio City,"
which is not the right name, al-
though a magnificent radio
building will be a conspicuous
part of it.

The new buildings will con-
tain many fine shops, and ten-
ants, undoubtedly to help their
business, will call their location

There was little delay in the takeoff. The fliers, refreshed by several hours' sleep, arrived at the field shortly before 3 a. m. Mechanics were warming up the plane when they arrived at the hangar. After obtaining the Canadian weather reports they climbed into the plane and took off.

BEVERLY HILLS, July 1.—No news outside those fliers making a sucker out of the world. Southern Methodist conference out here passed resolution asking congress to exempt them from war. Don't know what claim they had over other denominations unless it's that they are always fighting so much among themselves that two wars at once would be a hardship on 'em. Mellon is still coaxing the French. Looks like he will have to give 'em a "bonus" to accept his plan.
