PENN. PRISONS HAPHAZARD AIR FIND WORK IS HOPS OVER SEA RIOT QUASHER HURT AVIATION

Convicts Too Tired to Start Riots, After Eight Hours of Work, With No Time to Conspire.

HARRISBURG, Pa., July 18.—(UP)—Pennsylvania prisoners are too tired to riot, according to State Welfare Secretary John L. Hanna, who attributes hard work for the prisoners as the most effective deterrent on prison outbreaks.

Hanna said that 378 men in four state institutions are regularly employed at trades for which they are fitted. Others are given temporary work or are used on construction projects at the prisons. While contending that overcrowding has been a leading cause of riots in other states and that Pennsylvania temporarily faces similar conditions pending construction of the new eastern penitentiary, Hanna held the prison work program is balancing the overcrowded condition to keep disturbances among prisoners to a minimum.

"Eight hours a day of healthful, hard labor keeps a man close to normal life and leaves him comfortably tired at night with little inclination to conspire for rioting," Hanna said.

Stars Throw Off Atoms

VICTORIA, B. C., July 18.—(UP)—A discovery concerning Wolf Rayet stars is reported from the Dominion Astrophysical Observatory, Little Stanich mountain. The stars have been kept under close observation to learn more of the peculiarities. Conditions on these stars, it is stated, are such that streams of atoms are continually being thrown off their surfaces. The atoms are shot off in enormous numbers and with speeds often as great as 1,000 miles per second.

JAP PIONEERS DEATH SHADOW BRAVE JUNGLE BY GAS HOVERS O'ER NEVADANS ALONG AMAZON

Oriental in Experimental Colonies Brazilian Tropics—Vast Development Wild Land Awaits Workers

NEW ORLEANS.—(UP)—The last great frontier of the world, weird jungle lands along the Amazon river in South America, is being converted into experimental colonies of Japanese citizens, who are working out a gigantic agricultural project, supported by their government.

Details of the colonization were brought here by Ryoji Noda, Japanese diplomat and first secretary to the embassy at Rio de Janeiro, Brazil, who has just completed 30 years' service in South America. Planting Virgin Soil.

At present there are over 1000 Japs in the heretofore unsettled country, engaged in planting rice, cotton, nurseries and other tropical products, Noda said.

There are three separate colonies of Japanese in the remote area, according to Noda. A group of 100 families has been established in the state of Para, Brazil, at the town of Acara, some 200 miles up the Amazon from the city of Para. At the settlement of Maues, in the state of Amazonas, Brazil, 350 miles up the Amazon, is another colony of 30 families. And far up the Amazon, a tributary, clear into Bolivia, is a colony of 500 Japanese men who have married native women.

Work in Mines.

The group of 500 in the Bolivia section was brought to the country by an American mining company operating in Bolivia, the Inca interests, which used Japanese labor, Noda said.

Noda, who is famed for his explorations and books that he has written on them, said that it will be many generations before civilization is able to penetrate the dark regions of the country back of the Rio Branco, where wild and savage tribes that use blow-guns and poisoned darts still roam. However, there are vast accessible lands which can be developed now he believes.

Survey Reveals Rich Country

VICTORIA, B. C., July 18.—(UP)—Survey of the Peace river country of British Columbia has revealed a supply of 9,000,000 tons of high quality bituminous coal, big pulpwood supplies, 100,000 acres of water power and plenty of available passes, one so low no snowsheds are required. Premier S. F. Tolmie of British Columbia reports in speaking of the recent survey conducted by the B. C. government in conjunction with the Canadian National railway and the Canadian Pacific railway.

Five Await Execution in Lethal Chamber, Including Two Women—Both Victims Shot in Back.

RENO, Nev., July 18.—(UP)—The shadow of the lethal gas chamber today hangs over three men and two women in Nevada who have been accused of first degree murder, for which the maximum penalty is death.

Gunplay figured in four of the murders and a knife in the fifth. All of the victims were men. Two others slayings occurred this year but the "Nevada code" of non-interference in private feuds and the "law of the range" brought freedom to both victors in the quarrels.

A jury freed Frank Blondin, miner, for shooting and killing George Indiana, sheepherder, in the lonely Pyramid lake section during an argument over grazing rights, and a coroner's jury exonerated Bill Graham, Reno "big shot" in sporting circles, for slaying E. R. McCracken, during a gun duel in a Douglas Alley speakeasy.

The two women charged with murder are in the Elko county jail awaiting trial. Although one slaying occurred in Wendover and the other in Mids, Nev., there is a strange parallel between the cases—both of the men victims were shot in the back, both women were alone with the victims when the shootings occurred, both claim the dead men committed suicide and in each instance the officers claim suicide would have been impossible.

Beautiful Rita Thurman, is charged with shooting Ray Monsee, at Wendover, Nev., after their return from a country dance. The second woman, Mrs. Mary Young, was bound over for trial on first degree murder charges in the slaying of her husband, Del E. Young, miner, who was found dead in the doorway of his cabin with a bullet in his head.

In Las Vegas, Nevada's southern metropolis, two men face death if convicted. Louis Potter has been accused of killing J. A. Lewis, placing the body in a truck and overturning the truck to make it appear an accidental death.

Tarpon Battled One Hour

JACKSONVILLE, Fla., July 18.—(UP)—J. C. Holloway landed a 53-pound tarpon, near here, after a battle of one hour and 10 minutes.

NAVY DIRIGIBLE GETS ITS FINS

Huge fins 40 feet wide and 105 feet long are to help guide the new navy dirigible "Akron" through the air. Here workmen are shown equipping the airship with the fins at Akron, Ohio, where it is under construction.

WALES WILL PAY VISIT TO CHICAGO

British Crown Prince Plans to Attend Chicago World Fair in 1933, With Side Trip to Canada.

LONDON, July 18.—(UP)—The Prince of Wales is expected to visit the United States and the Chicago Exposition in 1933, the United Press has learned. The visit probably will come as a short break in a lengthy Canadian sojourn.

This is the view of people in authoritative positions. They believe that the Prince's next trip will be to Canada, where he owns large cattle holdings. It has been six years since he visited the United States and his last visit to Canada was made in 1927 when he was accompanied by Prince George and Stanley Baldwin and his wife.

Non-Official Report

While there was no official confirmation of the Prince's proposed trip, official quarters intimated that such a trip was not improbable and that he certainly will visit Canada soon.

It is understood that Wales will receive an official invitation to attend the Chicago Exposition and that Ambassador Chas. G. Dawes will probably extend the invitation. Ambassador Dawes and the Prince of Wales are close friends.

During the past year the Prince of Wales has said on several occasions that he would like to visit the United States again.

Canadian Trip

A trip to Canada would, no doubt, result in increased British Empire good will and a visit to the United States would strengthen the ever-growing closeness between Britain and the United States.

QUICK WEDDINGS, QUICK DIVORCES

PITTSBURGH, July 18.—(UP)—Quick courtships and runaway marriages were blamed by a judge and a minister for the increase in the divorce rate in Pittsburgh in 1931, as compared with 1929.

In 1929 there were 1,383 divorces, in 1930 there were 1,438, and 710 in the first half of 1931. This was at the rate of 1,420 for the year, according to Department of Commerce statistics.

"Quick courtships and runaway marriages are the cause of many separations," Judge Frank P. Patterson said.

Rev. John Ray Ewers, of the East End Christian church, said, "Hanna should be published before marriage, so enough time could elapse between engagement and marriage to insure the couples they were not making a mistake."

Decrease in marriages in the same period, generally was attributed to business conditions.

SAFETY GLASS ON 'ROYALTY AUTOS'

LONDON, July 18.—(UP) Automobiles owned by King George are now fitted with safety glass.

Many people have wondered why, until now, the king's cars have not been fitted with safety glass.

Advisers of his Majesty feared that side windows of safety glass might prevent the people from seeing the king properly, due to discoloration. The advisers are now satisfied that safety glass is as clear as the ordinary type.

And if it is a fact that half our American criminals are feathered, their lawyers are smart enough to restore the balance.

TEACHERS ASSIST CROTHER

Paid Pastors Give Port of Pay to Help Out Salaried Ones—End the Pound Social.

CHICAGO, July 18.—(UP)—The national benefit and social, or "pound party," for impoverished village preachers appeared because his salaries increased.

Places where the more paid clergymen are assumed to be adopted by a conference of the Methodist church.

John Thompson, pastor of Chicago temple, already have a modified that equalization process in the Rock River conference.

MAN POULTRY RAISING ON JOB; TRADE FALLS OFF

CHICAGO, July 18.—(UP)—Italian men leaving on the job. Their production of eggs, says an economic expert, is a contributing factor in Italy's world deficit.

the war Italy was a major exporter of poultry and she is a large importer.

Exports were more than 4,000,000 birds, while imports were only 4,000,000 birds.

Exports were more than 4,000,000 birds, while imports were only 4,000,000 birds.
