### MRS. WEBBER OPENS **ACTIVIANS PROTEST** RAISE IN RAIL RATES

At the Tuesday noon luncheon of the Active club, heid in the Holland hotel, discussion was made of the proposed increase in railroad freignt-rates now before the interstate Commerce commission. A resolution was adopted pledging support to organizations combatting any rate increase, it being felt that such increase in charges would seriously handical splappers of fruit, lumber and agricultural products throughout the state.

Dr. Edwin Durno was the principal speaker, giving an interesting discussion on diagnosis of diseases.

Guests at the meeting were dien Fabrick, Sr., and Harold Boone, secretary of the chamber of commerce at La Grande.

### **VARIATIONS IN COFFEE FLAVOR LAID** TO BULK ROASTING

Hills Bros. Coffee Doesn't Vary in Flavor, Because of Radically Different Process

It is almost impossible to keep bulk-roasted coffee from varying in flavor. For in bulk roasting it is difficult to roast each big batch alike. One lot may be slightly overdone—another a little underdone. Naturally, they each have a different flavor.

Hills Bros, discarded the bulk method for a process they invented and patented. It is called Controlled Roasting, and the roast is positively controlled! Variation is overcome. Every pound of Hills Bros. Coffee has the same rich, full-bodied flavor.

As the accuracy of the hour-glass depends upon an even, continuous flow—a little at a time—so the uniform flavor of Hills Bros. Coffee is produced by this patented process that roasts evenly, continuously... a little at a time. No other process is like it. That's why Hills Bros. Coffee has a flavor no other coffee has.

Hills Bros, pack their coffee in

Coffee has a flavor no other consensation.

Hills Bros. pack their coffee in vacuum cans. Air, which destroys the flavor of coffee, is removed and kept out of these cans. Ordinary, "air-tight" cans won't keep coffee fresh. But Hills Bros. Coffee can't go stale. Order some today. Ask for it by name, and look for the Arab trade-mark on the can.

PURITY HANDS

Pur just a teaspoonful of White King Granulated Soap in the wash basin-or the dishpan. Watch how quickly the creamy suds foam up -how swift and thorough the rinsing is. Afterward notice your hands. Soft. Smooth, No sign of redness or irritation.

The explanation is that White King is a pure soap. The finest vegetable and nut oilsgood enough to eat-are used in its manufacture. It cannot injure anything that can be safely dipped in water—the most tender hands or the most delicate silken lingerie. And the same purity makes White King effective for the heaviest washing - dishes, blankets, floors, woodwork-even in hard water, or in the lukewarm water that should always be used in washing silks and woolens.

White King solves every household washing problem. And it's economical—a teaspoonful is plenty for the wash basin, a cupful ample for the washing machine. It's condensed. Try it today. Sold by your dealer,
