Little by little news is leaking out  
in various parts of the state about  
the officer personnel of the state po-  
lice force in the three districts, which  
body starts to function on August 1.  
News pertaining to the Medford dis-  
trict is contained in the Klamath  
Falls News as follows:  
"City Traffic Officer Joe Folsom  
has received a commission as a lieut-  
enant in the state police force and  
will leave today for Salem, where he  
is ordered to report before starting  
duty in Medford August 1."  
The members of the state traffic  
squad on duty in Medford, Ashland  
and Grants are also on the anxious  
seat and will be until they learn the  
full personnel of the state police in  
this district. Only a portion of the  
officers of each district is at present  
known, and it is claimed that each  
district personnel will not be known  
until a few days before August 1.

present state traffic squad in  
southern Oregon applications for po-  
sitions on the state police force,  
which among its other duties takes  
over those of the present state traf-

are needed for that force.

A real salmon feed was enjoyed to-  
day by members of the Lions club at  
the regular luncheon at Hotel Hol-  
land today. The Chinook, prepared by  
the hotel for the luncheon, was  
caught by Lion L. Pennington at the  
mouth of the Rogue and weighed 28  
pounds.  
The main address at today's ses-  
sion was made by Ensign J. R. Paek,  
who outlined the accomplishments of  
the Salvation Army in Medford and  
the scope of work carried on by the  
organization throughout the world.  
The musical program was presented  
by Campbell's brass quartet and  
trio and was one of the best given  
before the Lions club for many  
weeks.

A special committee composed of  
Lions Stewart, Hansen, Williamson,  
and Thorndike, was appointed and  
Lion Pennington named by the Lion  
president, G. W. Newberry, to the

42 AIR FIELDS IN  
STATE OF OREGON

There are 206 more airports and  
landing fields in the United States  
on July 15, 1931, than there were  
on the corresponding date in 1930,  
according to a report prepared by the  
aeronautics branch of the de-  
partment of commerce and made  
public today.  
On July 15, 1920, there were 1657  
municipal, commercial, intermediate,  
auxiliary, army, navy and miscelan-  
eous government, private and state  
airports and landing fields, while on  
July 15, 1931, there were 1863.  
California led all other states in the  
number of airports and landing  
fields, having a total of 190, while  
Texas was second with 133. Pennsylv-  
ania, with 90, occupied third place.  
California, aside from having the  
largest total, also had the largest  
number of municipal airports, 63,  
and tied with Pennsylvania in the  
number of commercial airports, 54.  
Alaska had the largest number of  
auxiliary fields, 60.  
The report shows Oregon has 14  
municipal landing fields, six com-  
mercial, 19 intermediate, and four  
auxiliary fields, a total of 42.

SOUTHERN OREGON  
MINE PROSPECTS  
WILL BE SCANNED

A group of surveyors from New  
York will soon reach this section to  
view mining districts in northern  
California and southern Oregon, ac-  
cording to word received today by  
C. E. Gates, president of the North-  
ern California-Southern Oregon De-  
velopment association.  
The association has been corres-  
ponding with the New York firm  
for a considerable time and is hoping  
that the result of the surveys to be  
undertaken will mean an influx of  
capital for this part of the Pacific  
coast. According to present plans,  
the surveyors will look over certain  
designated properties in southern  
Oregon and northern California, and  
the association has been asked to  
suggest others which will be included  
in the survey program. The surveys  
will be confined to precious metals  
such as platinumiferous values, gold, etc.,  
and after spending the greater part  
of August here, the men will con-  
tinue on to Washington and British  
Columbia.  
Information received by the devel-  
opment association indicates that  
those promoting the surveys are en-  
tirely reliable and are very well  
acquainted with the mining possi-  
bilities of northern California and  
southern Oregon.  
Anyone knowing of interesting de-  
posits of precious metals is asked to  
immediately communicate with the  
development association as this sup-  
plemental information must reach  
New York before the survey party  
starts for the coast.

Hilarious Comedy  
Scores Holly Hit

"Gold Dust Gertie," which stars  
Winnie Lightner with Olsen and  
Johnson in support and now the  
attraction at the Holly for tonight  
and tomorrow is one of the most  
riotous of comedies, teaming as it

Winnie turns vamp in her own  
behalf in "Gold Dust Gertie," a role  
in a way like her uproarious one  
in "Gold Diggers of Broadway." The  
story involves a bathing beauty con-  
test and a hilarious ocean voyage  
on a private yacht, with three of  
Winnie's ex-husbands and a prospec-  
tive one, contributing to the  
complotions.  
The cast includes Claude Gilling-  
water, Charles Judels, Charley  
Grapewin, Virginia Sale, Dorothy  
Christy, Vivian Oakland and Arthur  
Hoyt.  
An interesting news reel, a clever  
review, and the seventh of the

"The Spoon," complete the program  
now showing at the Holly.
