### GRASSHOPPER TIDE ROLLS OVER WIDE MID-WEST REGION

MINNEAPOLIS, Minn., July 31.—(AP)—Science, apparently with its back to the wall, was fighting today to stem the tide of hordes of creeping, hopping and flying grasshoppers which are playing havoc with the crops of Minnesota, Iowa, Nebraska, North and South Dakota. At Des Moines, the Iowa capital, plans were being made for a meeting of entomologists and agricultural leaders to devise means of combating the hordes of insects which have moved relentlessly across the Missouri river eastward. At the same time Iowa state officials sought an appropriation of \$50,000 to fight the plague. Meanwhile, militant farmers, armed with poison mixtures, returned to the fight. More than 150,000 acres in Kitson and Marshall counties in northwest Minnesota have been nearly erased from the harvest picture. Polk county is estimated to have suffered a fifty per cent loss in grain crops. In a dozen adjacent counties the defoliation fight goes on with local infestations reported in more than half of the counties in the state. These include corn, potato, onions, as well as grain growing areas.

### CHINESE DROWN BY THOUSANDS IN WIDE INUNDATION

SHANGHAI, July 31.—(AP)—Vast areas of central China were under water today, hundreds, perhaps thousands, were dead and the prices of foodstuffs soared thirty per cent in many cities as the result of one of the worst floods in sixty years. Crops were severely damaged, pre-aging a terrible famine during the coming fall and winter. An accurate estimate of the death toll could not be attempted because of disrupted communications. It was known that hundreds died in the Wuhan area, comprising the cities of Hankow, Hanyang and Wuchang, when dykes burst their bounds. A report that 5000 perished in the Changsha, Honan province district, was considered exaggerated, however. The foreign settlements of Hankow were inundated, but there were no casualties among the residents. The 800 foreigners comprising these settlements, including 100 Americans, were forced to make their way about the streets in sampans (Chinese boats). The Hankow correspondent of the Associated Press reported the Yangtze river at that point had risen higher today than ever before in the history of modern records. He said the stream was still rising.

### BARRYMORE REFUTES OPENING CRITICISM

DENVER, July 31.—(AP)—Ethel Barrymore gave a smooth performance last night of Lady Teazle in "School for Scandal," showing notable recovery from the indisposition which made her acting at the opening Monday night the subject of harsh criticism by local reviewers. Her voice still was faint, however. A physician had put a bandage over an injured knee and she did not attempt the graceful curtsies of the minut in the first act.
