Wickersham Report President Says Big Criminals Known, But Allowed to Continue Careers, Due to Sinister Influence

WASHINGTON, Aug. 1.—(AP)—A blanket indictment against the police forces of the country as a "general failure" was handed down today by the Wickersham commission.

In its eighth report to President Hoover the commission charges that with few exceptions units in the system were shot through with graft and incompetence and too often were under the direct control of dishonest politicians.

It asserted without qualification that major criminals in almost every large community are "well known to the police, but, by reason of the sinister influence exerted by corrupt politicians over the chief and his force, are allowed to continue their criminal careers."

The report concluded, in short, that defects in present police administration "too generally leave the citizens helpless in the hands of the criminal class."

Six Major Charges. Six major charges were brought. They follow in brief: 1. "The chief evil lies in the insecure, short term of service of the chief or executive head of the police force and in his being appointed, while in office, to the control of politicians in the discharge of his duties."

2. "The second outstanding evil of such police administration is the lack of competent, efficient and honest patrolmen and subordinate officers."

3. "The third great defect... is the lack of efficient communication systems whereby intelligence of the commission of crime and descriptions of the criminals may be quickly spread over a wide territory and as part of that, the necessary equipment in motors to pursue traces of the criminals making their escape."

4. "The well-known and oft-repeated alliance between criminals and corrupt politicians which controls, in part, at least, where it does not wholly do so, the police force of our large cities might well be taken as a primary cause of inefficiency, since it rules the head and every subordinate and lays a paralyzing hand upon determined action against such major criminals."

5. "There are too many duties cast upon each officer and patrolman." 6. A sixth charge was one of failure to make proper provision for the polling of millions of immigrants and of the influx of large numbers of negroes to the northern cities.

Super-Wind Tunnel at Langley Laboratory Proves Aid in Making Planes Safer Through Intensive Study

By OSCAR LEIDIG Associated Press Aviation Editor LANGLEY FIELD, Va. —(AP)—A great aid to aeronautic research—the largest wind tunnel in the world—is dedicated to giving the nation safer and better airplanes.

It is a new piece of equipment at the Langley memorial laboratory of the national advisory committee for aeronautics, a federal establishment carrying on a scientific study of the problems of flight.

This is the first tunnel for testing full-size airplanes, and will enable engineers to measure accurately, under controlled conditions, the forces acting on a craft in flight.

The wind tunnel is a large chamber in which an air stream is pulled past an airplane at velocities reaching 115 miles an hour.

At each end, inside the chamber, is a throat measuring 60 feet wide and 80 feet high. In the rear throat are two 35-foot, four-bladed propellers, each run by 4000-horsepower motors.

The propellers create the air current which turns at the rear of the building to right and left, speeding forward between the inner and outer walls, joining to pass through the front throat, then past the airplane, and again through the rear throat to begin another circuit.

Massive "Jet" of Air. The result is an air jet measuring 60 by 30 feet, comparable to a water jet issuing from a massive hose and nozzle of the same size.

Medford and Ashland Tennis Teams to Class

LOCALS GIVEN EDGE TO TAKE COMPETITION

Edmiston Groomed for No. 1 Position, Aided by Patton, Reddy and Woodward in Medford Singles

The long dominant Medford Tennis club will inaugurate local lawn tennis competition for the season when they face the Ashland team in an inter-city club competition Sunday at 2 p. m. in what promises to be an evenly fought match, with the Medfordites holding a slight edge, judging from former meets.

Jimmie Edmiston, sensational 19-year-old youth will probably start at the number one position, aided by Joe Patton, southpaw high school captain, John Reddy and Rusty Woodward, Portland newcomer, in the singles, while Carter Boggs and Harry Garfield will form the doubles combination. Ashland will be more or less of an unknown quantity, although in previous seasons they always have done well in competition in the net meets.

Bay Brothers Hold Hope. Dick and Bernard Gay, a pair of seasoned brothers, will carry the major hopes of the Lithians in both the singles and doubles matches, with the possibility that Wayne Ramsey and Jack Bliss, husky Ashland high school grid men, will also act.

The Medford lineup is only tentative and may undergo some changes in an effort to place the strongest possible team against the Lithians. Present plans indicate that there will be four singles and one double match played.

ARGENTINA GETS IN TRIM FOR BIG ELECTION FIGHT

By T. S. Garrett. BUENOS AIRES—(AP)—After a practice round in the Buenos Aires provincial elections, Argentina politicians are starting light training for the national legislative voting.

The big fight has been set by the provisional government for November 8, which makes it a spring affair in this hemisphere.

The elections in the province of Buenos Aires produced an unexpected victory for the radicals, which party held power until the Yrigoyen government was deposed by last September's revolution.

Later came charges of election frauds in the province. It was asserted that many unnaturalized foreigners were registered as voters, and that repeaters had been found.

Meanwhile the parties have been maneuvering actively for position, particularly since the government has called for presidential elections also may be held November 8. Interest has centered largely in the activities of the radicals, who showed themselves still vital in Buenos Aires in spite of the blow of the revolution.

Generally speaking, a college degree or its equivalent has proved more of a handicap than an asset in the ring.

At one time or another, the collegiate influence has threatened to make inroads in the fist-fighting business, only to fade out abruptly against the logic of a number of well-directed wallops to the chin.

Obviously the build-up process is being hampered by the fact that the boys at the ringside by the way he handles himself, likewise the potency of his right hand punch.

Princely Exclamation. Our European expert has just relayed the "news" from the British open, which you will recall was won by Tommy Armour after the collapse of the little Argentine, Jose Jurado, in the home stretch.

Over-Emphasis. As an example of why there is no depression in the college athletic business, Texas Tech, located at Lubbock in the "heart of the plains," expects to be host to 103 coaches from 14 states at its first annual coaching school, August 3 to 15.

Perhaps the reason for this is that Wallace Wade of Duke university and Jimmy Phelan of the University of Washington will take charge of the discussions on football.

At any rate the entry list, according to the Lubbock chamber of commerce, includes 121 coaches from Oklahoma, six from New Mexico, four from Arkansas, three from Louisiana, two from Mississippi and one each from Pennsylvania, Oregon, Ohio, Iowa, North Dakota, Arizona and Nevada.

Yale Ballyhoo. It came in marked "Release at Once," otherwise unidentified as to source, but the subject matter sounded more like the enthusiasm of old friends than the ballyhoo of a press agent at New Haven, of all places.

REUTHER FINDS HAVEN IN PORTLAND DUGOUT

PORTLAND, Ore., Aug. 1.—(AP)—"Dutch" Reuther, southpaw hurler, released a few days ago by the Seattle Indians, is now on the Portland payroll. Thomas L. Turner, president of the Beavers, made the announcement today. Reuther pitched for Portland many years ago.
