

Local and Personal

Because of the prevailing hot weather there will be a big exodus from Medford and other parts of the valley today for the lakes, ocean, river and other streams, and to the resorts in the hills. The picnic of the Catholic church members at Savage rapids dam, and the power opening celebration at Kerby, Illinois valley in Josephine county, are expected to draw especially large crowds.

STANDARD OIL CO. LAUNCHES THIRD BIG AD CAMPAIGN FOR FALL ENTRY

Convinced that advertising is the most effective weapon with which to combat depression, the Standard Oil Company of California, has recently launched its third and largest advertising campaign for the year. Pacific coast newspapers used as mediums have a total circulation of more than 3,500,000 copies, and the merits of Standard products are called to the attention of practically all car owners on the west coast.

In the late winter and early spring the Standard Oil company offered to the public a new gasoline, the finest it had ever produced without Ethyl. It immediately started extensive advertising and "Standard" gasoline sales responded very satisfactorily. It was these actual results which gave the company courage to launch their present newspaper campaign with each week's copy featuring the story of the products and services of Standard Oil Company of California.

In the midst of ever production, disastrous price wars and the most serious conditions the petroleum industry has encountered in years, advertising has proved invaluable in merchandising Standard products during the depression, according to information sent out by the company.

COPCO WILL 'SHOOT' FESTIVITY AT KERBY

The Illinois Valley celebration which takes place at Kerby Sunday will be recorded in the movies by the Copco advertising department. Pictures of the rodeo events, races and sports, pioneer stunts, and barbecue will be taken as well as scenes of the historic town of Kerby.

A large crowd from all parts of southern Oregon is anticipated with special caravans from Grants Pass and Crescent City.

Several parties of local citizens will leave Sunday morning to spend the day at Kerby.

KIWANIAN CHAIRMEN SELECTED FOR YEAR

April 25 Years
To the Editor:
Mrs. Augusta Timmons, from Chicago, arrived June 11th to be the house guest of Mr. and Mrs. E. A. Hildreth of Butte Falls for the summer months. Mr. Hildreth and Mrs. Timmons had been warm friends in their girlhood days at Hutton Valley, Missouri, their old home place. Mrs. Timmons sent her photo several weeks ahead of her to assure recognition. As Mrs. Hildreth knew her and the two women fell into each other's arms and rocked together affectionately.

They had not seen each other for 25 years. They are rejoicing in relating incidents of their girlhood, and the period when they were together. At one time they had been only a few miles apart but didn't know it.

And now they are going back over the 25 years during which they had not clasped hands or spoken a word together.

Mrs. Timmons is very much in love with Oregon. They are making many sight-seeing trips, and one of great importance is the trip to Portland, Seattle and Vancouver, B. C., to spend a few days with Mr. and Mrs. Hildreth's children. Mrs. Timmons is spending the week end with Mr. and Mrs. Jack Pickard at Gold Hill this week. Mrs. Pickard is a sister of Mrs. Hildreth.

NO BREAK SEEN IN VALLEY HEAT

The temperature since early last week has been steadily crawling up daily until a maximum of 109 degrees was reached at 4:00 o'clock yesterday afternoon, with prospects that it might go higher by 5:00 then before beginning to recede for the day. This followed a maximum of 106 for Friday. However, a welcome cooling breeze springing up kept the maximum at 103.

No relief from the present heat wave is yet in sight, as the forecast issued late yesterday for Sunday's weather is for no change in temperature, but it is the general hope that the mercury will cease climbing and not reach the season's maximum so far, 105 degrees, reached during the heat wave of several weeks ago.

As always, when the temperature reaches a hundred or above the soda fountains of the city did a rushing business last night, catering to the thirsty populace down town, and in the homes there was a great consumption of ice, in cooling drinks.

SCIENCE MONITOR LAUDS NSCODA

That the program for the development of northern California and southern Oregon is meeting with widespread interest is evidenced by an article in the Christian Science Monitor of July 25 emphasizing the work being undertaken by the Northern California-Southern Oregon Development Association.

The story, specially written for the Boston newspaper by one of its representatives was placed on the front page and covered ten column inches. Functions of the association were explained in detail, and particular reference was made of the present status of the Crescent City harbor.

The new California law permitting formation of a harbor district in Del Norte county was given special mention, and the association was commended for fostering a closer friendship between the states of California and Oregon. Officials of the association consider this very good publicity for this section, particularly in view of the fact that the story carried a Medford date-line and also on account of the wide circulation which the Christian Science Monitor enjoys.

In certain ways, a little man may be better than a big man. To be too big, or too little is a disadvantage, except, of course, in thinking, and that kind of exercise is not popular.

The best weight for physical strength is 150 and 170 pounds between sixty-seven and sixty-eight inches, and from five feet seven to five feet eight. At greater heights, leverage and the law of gravitation count against you.

In war, especially old fashioned war, the shorter the safer. Napoleon would have been killed before he was known, had his head been three inches farther from his feet.

Mayor Walker of New York, outraged by the shooting of five children and the killing of one of them, in a prohibition bootleg war, has ordered officials to shoot to kill, in dealing with gangsters.

Be the first to draw, when you come upon a man whom you know to be a criminal or a racketeer, and have reason to believe is armed. I want you to pull first and give it to him. Give it to him above the waist. That is the order given to his men by Mayor Walker's police chief, Commissioner Mulrooney, a policeman of many years' experience, who knows criminals, and is feared by them.

Unfortunately, in these days of profitable, organized crime, a superior, giving orders to officials under
