Depression Causes Many to

Prefer Mining to Park

Benches, With Always the

Chance of a Rich Strike

SAN FRANCISCO, Aug. 1.-(UP) young man, with a week's growth

of whiskers on his chin, ordered a

couple of shots of needled beer and

Wagalia, Calif., store and drink emporium. "Not getting rich, but I dug out \$18.90 last month," he said, loading his provisions on his honse. "I est, and that beats being jobless and humar."

The provides of the being jobless and hungry." Grubstaked, of course, he preferred digging for gold to sitting on a park bench—and then there is always the possibility of striking it rich. Lure of Lucky Strike Unemployment driving them on, the lure of a lucky strike pulling them, many such men are laboring in ionely California canyons today. Some friend, or acquaintance, with a bit of gambling blood, provides the food, for a scare of the profiles. All that the miner supplies is brawn and time, both a drug on the market classifiere,

time, both a drug on the market chewhere. That's one side of a small boom in California gold mining. Another factor is that the value of gold rises with the buying power of the dollar. Many small mines are being reopened, as the lower prices of labor, power and materials make it possible for them to operate at a profit for the first time since the war. These, of course, hire men, and are a factor in reducing unemploy-ment. Big Mines Benefit

are a factor in reducing unemploy-ment. Hig Mines Benefit The big mines and dredgers-those that produce the bulk of this state's \$5,000,000 annual gold "crop" -benefit, too, make more profit and employ more men. Revival of interest in mining also has brought an increase in prono-tion of mining projects-some of them legitimate, some of the m doubtful. Many "lost channels" are being sought from the proceeds of stock sales, and here and there all through the mountains and along the mother lode, new tunnels and what are being opened.

The mother lone, hew tunnels and shafts are being opened. Most of them will never pay a cent of profit, but some will make a little money, and there is always the big chance, you know.

At least, they give men work,

BARTHLSVILLE, Okla-(AP)-New uses for natural gas, flowing from the earth at the rate of trillions of cubic feet annually, are being sough by the experiment station of the United States Bureau of Mines here

by the experiment statistic due United States Bureau of Mines nete. Among the products already being derived from natural gas, fuelf a by-product of crude oil production, are perfumes, moth balls, motor fuels, explosives, stochols, dys, in-ectificial rubber. Once allowed to blow free, today the gas not only brings the oll 50 the surface, but also is useful in producing heat, power and light. It yields gasoline under treatment. The experiment station is con-cerned particularly with the pyroly-sis of natural gas, or its decomposi-tion into carbon and hydrogen. Both have commercial uses, while other by-products of the process can be utilized profitably.
