TEST PROVES SUPERIORITY OF ROASTING METHOD

Hills Bros. Coffee, Roasted Recently, Has Flavor No Other Coffee Has. Hills Bros. Coffee, after have been drinking other is certainly a revelation. It is marvelously rich, satisfying that no other coffee has. The difference is due to the Hills Bros. Coffee is as others do. Hills Bros. use the process they invented and patented. It's called Controlled Roasting. The accuracy of the hour-glass upon an even, continuous a little at a time... so the final, unvarying flavor of Hills Bros. Coffee is produced by the process that roasts continuously... a little at a time. Temperature and flow of air through the roasters are under control. (Hence the "Controlled Roasting.") A roast, such as no bulk equals, is absolutely as perfect, unvarying flavor in every pound. The delicious coffee comes to you in cans. Air, which makes go stale, is removed and kept out of these cans. Ordinary, "air-cans" won't keep coffee fresh. Hills Bros. Coffee can't go stale some today. Ask for it by name and look for the Arab trade-mark on the can. Hills Bros. Coffee, Inc., San Francisco, California.

MAIL TRIB QUIET WHILE IRVA AWAY

The trains are still pulling in but the official representative of the Mail Tribune, better known as "Little Irvy Powell," all round reporter de luxe, is not meeting them. She has joined the throngs of vacation-minded folk and is speeding northward by motor for a week's holiday.

She left Medford Sunday afternoon with Miss Gladys Murphy and refused to reveal her destination to helpless members of the staff, who might call her back to put the latest papers in the file. A good supply, however, is waiting her return, for her vacation time successor hasn't been able to find the paper punch since she departed.

She is suspected of taking it north along with her contagious smile in hope of punching out some extra scoops to bring back home. In the meantime an unwanted quiet reigns on the second floor of the Mail Tribune. Thursday night dance, Lithian pavilion; 9:00 couple. Ike Porter's band.

SERUM FOR DOGS USED WHEN FEVER APPEARS

As the result of experimentation at the Oregon State college, a new serum for the treatment of salmon-poisoned dogs has been perfected. Dr. D. W. Stone, who recently returned from the Northwest-ern veterinarians' convention at Corvallis, stated that for satisfactory results the serum must be injected by the seventh day, or the day when the suffering dog first runs a temperature. Through an error the serum was referred to in Monday's Mail Tribune as "hog cholera" serum.

You'll never have "dish-pan" hands—rough and coarsened by hot water—if your dishes are washed in lukewarm water with White King Granulated Soap.

Dishes, dishes everywhere

—and all of them to be washed! Dishwashing isn't pleasant, to be sure, but it doesn't have to ruin charming hands and dispositions. Many soaps are advertised not to hurt the hands. They don't. It's not the soap nor the washing that's brutal to your hands—it's the hot water. And you can't wash your dishes clean and wipe them sparkling dry without hot water when you use ordinary soaps.

White King Granulated Soap is made to be used with lukewarm or cool water. Common soaps require hot water because their oils or fats harden in cool water. Pure, refined vegetable and nut oils are used in White King Granulated Soap. In fact, the same delicious oils you use in salads. They cannot harden. That's why White King immediately yields rich, cleansing suds in cool water. Because this soap removes every particle of clinging grease from your plates, there's no need for hot water to make them glisten when dry.

White King washes everything more easily. Condensed, it's nearly half again as economical.

"SURE, O.G.s. ARE SEALED IN CELLOPHANE

... but it's the quality inside the package that counts most."

Of course, we pack OLD GOLDS in an air-tight, germ-proof package.

Naturally, in giving you a BETTER cigarette... we want it to reach your lips factory-fresh... without any loss of the proper moisture or fragrance.

But after all, you don't smoke the package. It's what's inside that counts most.

When you smoke an OLD GOLD you smoke not only a fresh cigarette, but a PURE-TOBACCO cigarette. Entirely free of greasy, artificial flavors that burn into breath-tainting, teeth-staining vapors.

"Keep Kissable with OLD GOLDS" is no idle claim. For OLD GOLDS' clean, sun-ripened, Nature-flavored tobaccos leave no objectionable odor either on your breath, or your clothing... or in the room.
