A lookout station has been maintained for some time on Mt. Scott, 8929 feet high, but is unable to cover portions of the park discernible from the new lookout. The motor ways, providing means of transportation for fire fighters and equipment, are not open to public travel and are to be used only in forest fire emergency. The longest of the park motorways follows along Gassie Creek for a distance of twenty-eight miles and was built at an approximate cost of \$100 per mile.

PORTLAND BUTTER IN CENT ADVANCE FOR ALL GRADES. PORTLAND, Aug. 11.—(AP)—General advances in the price of butter in most of the leading markets of the country created an additional advance in the Portland price, effective today. Weather conditions have continued more or less against production in leading sections of the country for some time past. Advance of 1c lb. was forced for cubes on the Portland produce exchange for the week's initial session. This applied to all scores from top to bottom. Price of butterfat was advanced in line with the upward swing in butter. Further advance of 1c dozen in the price of eggs by the local co-ops here, followed a very strong tone along the coast generally with an almost general rise in prices despite talk of recent underselling in the West. Very active demand for live chickens continues with little change in the general price list. While prices continue low for beef and for pork and lamb, demand appears good except for the former. What supplies of local Crawford peaches are available, are finding a keen demand in the trade here. Demand for new early apples remains active with prices held. Mountain huckleberries are being offered at 15-16c lb. Bartlett pear market is fairly active up to \$2. Tomato market is firmer with some reporting fractional rise.

STOCKS SURGE UP IN FINAL TRADING TO BEARS' DISMAY

NEW YORK, Aug. 11.—(AP)—The stock market, which had been drifting slumberously lower in extremely dull trading for several days, surged upward in a spectacular retreat of the bears in the late trading today. The advance was the most violent since the upswing which greeted the Hoover war debt moratorium plan in late June, and carried the day's sales over a million shares. Extreme gains ranged from \$2 to more than \$10 in numerous issues, but the upturn was so violent as to attract fresh selling in the last few minutes, and many issues recorded 1/2 to 1/4 from the top prices. Sales for the session were announced on the ticker tape at approximately 1,900,000 shares. Today's closing prices for 17 selected stocks follow:
