### TARIFF DANGERS FREEDOM PLEAS OF PHILIPPINES

**Opponents of Independence Girding to Fight Proposed Removal of Uncle Sam's Island Guardianship**

By A. R. George.

WASHINGTON (AP) - Opponents of Philippine independence are preparing to fight the proposed removal of American guardianship.

They intend to do it with the contention that economic disaster to the islands and a substantial loss to United States business interests in the Far East would result.

The granting of immediate freedom - slated for consideration by the next congress - would be followed, they argue, by imposition of high tariffs on sugar and other imports from the Philippines.

Those who favor continuance of American rule say free trade with the United States has been the chief cause of increasing prosperity in the islands. They also emphasize the benefit to the Philippines of American and European capital employed under stable government in developing natural resources.

Trade increases five-fold.

The overseas trade of the islands has increased five-fold in value during the 29 years of American civil administration. The greatest foreign trade recorded for the Philippines prior to American occupation totaled less than \$30,000,000, while for the year 1929 it amounted to more than \$300,000,000.

During recent years the United States has purchased approximately 70 per cent of the total exports of the Philippines, and has furnished 55 per cent of the merchandise imported. Despite the great increase in Philippine commerce, it is still comparatively undeveloped, government trade experts say.

Room for Large Increase.

Distributed among the population of the islands, the per capita imports and exports during 1929 were about \$10 and \$12.50 respectively. The per capita value of imports and exports of Hawaii during the same year were \$258 and \$323 respectively.

Exports of Philippine products to the United States last year accounted for 79 per cent of the total export trade; the balance of trade with this country amounting to \$27,000,000 in favor of the islands. This amount was over two and a half times the islands' net balance of trade with all other countries.

### Safe Tires Vital to Motorists

The safety of autoists driving at present-day speeds, says Red Waters, manager of Smith & Watkins, the local Firestone dealer, is largely dependent on his tires. Waters states that the saturation and insulation by liquid rubber in
