ASHLAND PEACHES, ROGUE PEARS GO GOOD IN PORTLAND VIA CRATER LAKE

PORTLAND, Aug. 19.—(AP)—In general there continues a favorable tone in the market for dairy products with gradual stiffening of the price list. There was no further change in the butter market situation for the day. On the open market the better scores moved out freely within the price range although there was some slight pressure continued against undergrade offerings.

The butter market appears steady to firm at practically all leading points in the country. Movement out of coolers is showing up in spots. Trading in the egg market continues to reflect strength here with no change noted in current values. Strength is reflected all through the market for live poultry. Demand is very keen for springer stuff but especially so for light weights.

Market for country killed meats continues to drag with little further change in the price list.

Extreme strength is reflected in local peach offerings with sales of Ashland Elbertas at \$1.25 box. These were by far the best appearing peaches seen to date on the local market. Insistent call for more.

Tomato market is weaker and its spots lower.

Corn trade is dragging.

Good sale of Rogue River pears reported at steady prices.

Pickling cucumbers are very slow sale.

Head lettuce appears a traffic character.

NEW YORK, Aug. 19.

(AP)—A stout advance in the oil shares found the general market lethargic today, and at the finish price changes were narrow, and largely insignificant.

Numerous extreme advances of 1 to 2 points in the oils were substantially reduced before the close. Likewise, several declines of a point or so in prominent industrials were reduction to fractions.

While prominent bankers applauded the Wiggan report on German finances as courageous and outspoken, it was regarded as promising little immediate aid.
