## FOG FORCES LINDY DOWN AGAIN

### FLIGHT SAFELY TINY LAGOON HAWAIIAN REGION

From Muraton Bay  
After Repairs Cut Short  
Heavy Fog Blanket  
Mountain Range

Medford, Aug. 22.—(AP) Colonel Mrs. Charles A. Lindbergh, who is on a vacation trip, did not arrive in Tokyo until today at the earliest, even though which stopped them today in the southern Kurile islands to let them through.

Medford, Japan, Aug. 22.—(AP)—A heavy blanket of fog veiling the peaks of Iitup Island and the Kuriles, today in their renewed effort to fly from the middle of the island to Nemuro. The fog had been down in the city of Muraton Bay, Shimushu since early Wednesday morning and fog, Colonel and Lindbergh managed to get their ship again after several attempts and took off at 2:10 p. m. (12:10 A. M., E. S. T.) today for Nemuro, 400 miles to the south-

ward along the mountainous coast of the Kuriles. In two hours, Colonel and Mrs. Lindbergh ran into heavy fog behind the 5000 foot mountain peaks and to 5000 feet high. Lindbergh radioed their present position to Ochiishi wireless station and was advised that the safest way to land was on the choppy bay or on a small island. Lindbergh chose the bay and radioed Lindbergh that the bay was affected without damage to the plane's pontoons. They landed at 10:25 a. m. (E. S. T.) and spent three days fighting the fog and heavy currents and fog banking with the motor at Muraton Bay. Lindbergh had been so eager to take the latter place that he had to begin putting up with the fog after noon.

Afternoon weather reports in Muraton Bay conditions to Lindbergh's pause only to get a sandwich for before taking off. The morning Aviation Office at Nemuro radioed Lindbergh suggesting that the Japanese were eager to furnish medicine to aid him if necessary but the colonel declined the offer. "No, thank you; will complete it myself."

where the Lindberghs are thought, has a population of 1000. Chief industries are fishing and fish canning. There is a bathing station, three bathing stations, bathing beach and observation tower.

It is not only the largest but the richest of the Kuriles. It has long and two to 20 miles. Among its eight mountain peaks are five volcanoes, which erupt simultaneously. Re-ports from the region in August averaged on page 3—Story 1.)

### OHIO NEWSPAPER TARGET OF BOMB HURLED BY GANG

MANSFIELD, O., Aug. 22.—(AP)—A bomb, tossed from a speeding automobile, rocked the plant of the Mansfield Journal at midnight last night, slightly injuring the night watchman and shattering the windows of surrounding office buildings. The blast, which occurred in the basement near the front of the building, tore up a portion of the floor of the business office and damaged furniture and fixtures. Virtually all of the windows in the building were blown out. J. V. Richardson, night watchman, was cut by flying glass. Richardson said an automobile drove up an alley near the newspaper plant, slowed down, and then sped away. A few seconds later the blast shook the downtown section. Expressing the belief that the bombing grew out of the Journal's editorial policy of supporting law enforcement, the newspaper, in an editorial today said it would continue to urge that gangs be wiped out.

### KIND WINDS SAVE TOWNS FROM FIRE BY QUICK CHANGE

Garden Valley, Centerville and Placerville, Idaho, Have Narrow Escape—300 Refugees in Plight

BOISE, Ida., Aug. 22.—(AP)—The fire that raged around Centerville, Centerville, Placerville and toward Garden Valley this afternoon raged through the timber but was unable to gain ground toward the towns.

A report at 2:45 p. m. from the fire line said the blaze had broken away in one place and was raging toward Grimes Pass, where several mines are located. The Golden Abe mine was abandoned, 12 families fleeing.

SPOKANE, Wash., Aug. 22.—(AP)—Reports of fierce uncontrolled fires in the Chamberlain basin of north central Idaho today sent pilot Nick Mamer up in a tri-motored plane with a load of foresters and equipment.

Another ship took off from Missoula, Mont., and a third, carrying observers, flew over the St. Joe, Kaniku, Coeur d'Alene and Clearwater areas, where heavy winds last night began to undo the fighting work of the past three weeks.

Kind winds smiled on the towns of Garden Valley, Centerville and Placerville in the forest fire zone north of here, and saved them, at least temporarily, from destruction.

The fire that destroyed Quartzburg and Granite Creek Thursday was fought off the edge of Placerville in a searing eight-hour battle last night until a change in the wind turned the flames northeast of the town and gave the beleaguered fire fighters an hour's respite.

On those lines the fire was held as daylight came today after the cool hours of the night had quieted the flames.

The telephone operator at Placerville said residents, all of whom have moved their belongings out of the town, were optimistic the place would be saved. Two times the fire has burned to the edge of town so that the buildings had to be wet down to keep them from burning.

WILL ROGERS says:  
BEVERLY HILLS, Cal., Aug. 22.—No matter how bad depression gets and how short we become of the necessities of life, we never seem to run out of material to put on a commission. Mr. Hoover just got hold of a book called "Who's Who for No Reason at All" and appointed 60 men. That breaks his own record for quantity if nothing else. He picked every bank president and corporation head who have handled their own affairs so ably in the last year and a half that it is their stockholders that constitute the present needy.
