Here's the Little Lady Who Makes Dust Disappear

A handy bottle of Associated Furniture Polish around the house is just like having an extra house-maid to do the dusting and keep things shining and clean.

So easy to use. And it gives a hard, DRY finish that is lasting because there is no oily film to catch and gather dust.

Just a few drops of Associated Furniture Polish applied to a clean, dampened cheesecloth does the job like magic.

It's an Associated "Sustained Quality" product. Remember to look for the bright new red, green and cream bottle, as pictured here. "Let's Get Associated."

Millions of children are being kept in the best of health through the daily use of Morton's Iodized Salt on the table and in cooking.

For this remarkable salt makes it impossible for them ever to suffer from simple goiter, with its loss of appetite, lack of vigor and backwardness at school.

Although simple goiter is extremely common in Oregon, there's no need to worry about it. Simply see that your children get plenty of Morton's Iodized Salt and this ailment will never attack them.

Another advantage of using Morton's Iodized Salt is that it never cakes or hardens but pours freely rain or shine. Yet in spite of this convenience it costs only 10c . . . no more than ordinary salts.
