

BUTTER DEMAND KEEPING MARKET ON LEVEL BASIS

PORTLAND, Ore., Sept. 9.—(AP)—There is a good demand showing for 90 and 91 score butter. This is shipping grades and indicates an outside demand. One maker of butter said he received a call for all the butter he had in storage.

Demand for 92 score butter continues light and production in this grade is fully up to the call. Taken as a whole, the market generally is good.

Eggs are holding steady. The grape movement in Portland is very slow.

The market for quality peaches has a firmer tone here Wednesday. Supplies are considerably under late last week and the over-the-week-end picking practically cleaned up many orchards. The car run price was up a nickel.

There is a good supply of quality cabbage on the "street" at fairly steady prices. Best stuff is offered to the trade at 2 1/2 cents a pound.

Cooler weather reduced the offerings of tomatoes, considerably compared with production of last week. The market advanced a nickel Wednesday. Quotations to the trade are 35-45 cents.

NEW YORK, Sept. 9.—(AP) The stock market was bolstered by short covering today, and offered better resistance to selling, although several prominent issues again recorded new lows for the bear market.

The market rallied a little in the morning, sagged during the middle of the day when General Motors was heavily sold, but made irregular recovery in the final dealings. The market closed barely steady.

with good religious bringing up, was invited to one of the modern "gin parties." The girl drank much prohibition gin, and was not responsible for her actions. A "petty gangster" took her to his apartment, and there she was strangled to death.

Gentlemen about to "resell prohibition to the United States" might start with the mother of that girl.

Our government might send a commission to Chile to report on Chile's experience with airplanes.

Rebellious sailors took possession of Chile's navy. The government sent a tiny but loyal air fleet after them with bombs. Some sailors jumped overboard, others held up their hands and quit. That mutiny is over. Airplanes were too much for floating ships, and Chile announces: "An increased budget, as the navy surrenders to bombers."

Our government might divert to airplane building some of the millions now thrown away on floating targets called battleships.

The census bureau reports more old and fewer young people than ten years ago. At present 47,608,991 are under 19 years, 36,152,889 are between 25 and 44 years of age, called "the most useful years." Fortunately for those older, some are found useful long after 44, for instance, Goethe, who finished the second part of Faust at 72; Voltaire, Michel Angelo and Titian who did great work after

INCOME TAX DUE OCTOBER FIRST

Medford people who are fortunate enough to have to pay state personal income or intangibles taxes, or both, will soon be engaged in making out their reports on such, as the second half is due the state October 1st, according to announcement made by that former well-known Medford resident, John H. Carkin of Salem, secretary of the state tax commission.

The commission is sending out 12,000 letters to persons throughout the state who have not filed any returns this year. Approximately 7000 Oregon taxpayers have paid the first half-year's taxes, and are expected to remit the remainder by Oct. 1. More than 23,000 persons paid the entire tax when it became due early in the summer.

King George of England, of his own accord, contributes \$250,000 a year, from his "civil list" to help British finances. His wife, Queen Mary, and their son, the Prince of Wales, contribute in proportion.

It is to be remembered that the king's income, amounting to some three millions of dollars, is not a present from the British people. It is paid to the royal family in return for the surrender of the crown estates, that belonged to the royal family as much as their holdings in New York belong to the Astor family.

The British nation gets, from the surrendered property of the king, a bigger income than it now pays him. King George and his advisors are wise. That is why he is still on the throne.
