

BUTTER AND EGGS HOLDING FIRM IN PORTLAND DEALS

PORTLAND, Ore., Sept. 10.—(AP)—The local egg market is a two-sided affair, with prices showing no inclination to change in either direction. Eastern markets are firm in all directions, but storage holdings are not moving out rapidly.

At the same time, fresh stock is scarce, with pullets eggs only a small factor.

Butter continued firm Thursday. Inquiry for storage stock indicated a shortage in 91 and 92 score fresh stock, although the make is reported somewhat above normal for this time of year.

A shipment of brussels sprouts was received on the "street" here Thursday from California. They will go to the trade at 12 cents.

First quality peaches were commanding higher prices here Thursday. Elbertas were going to the trade at 35-35 cents a box and J. H. Hales were up to 85 cents.

Lower production of tomatoes since weather conditions changed last week has brought an advance in the wholesale market. The market is 50 cents a box to the trade on both four and five-row packs.

There is an adequate supply of all poultry with the exception of springers. The market tone is firm on the latter. There is still a good call for good quality dressed turkey hens at 30 cents a pound.

NEW YORK, Sept. 10.—(AP)—The stock market again was bolstered at times by furries of short covering today, but failed to cast off its recent heaviness.

Trading slackened considerably, but several rails and some of the industrials again recorded new loans. Several of the pivotal shares were well supported, and closed about steady, but net losses of 1 to 2 points were numerous at the finish.

sign loans, some of them frozen, and some worse—dead.

Andreas Thaler, who began life as a peasant in the Austrian Tyrol and became Austrian minister of agriculture, advises the hardy men of the Tyrol to take their families to find opportunity and prosperity in South America, especially Chile, and Argentina.

The advice is sound. The pity is that such men are no longer allowed to come here, to build up this country, consume its surplus, develop its strength and prosperity, as they and men like them have done for a hundred years past.

One of the worst ideas this country ever had was keeping out the right kind of emigration, to which the country owes everything it possesses. That foolishness was supposed "to keep all our people working." We need more people to consume our surplus.

Antagonism to the Catholic church in Mexico and laws forbidding more than an absolutely inadequate number of priests, continue to spread. Limiting of priests began in the state

of Vera Cruz, which passed a law allowing for 1,000,000 inhabitants only a maximum of 15 priests, including bishops.

Now Yucatan passes a similar law forbidding more than nine priests to operate throughout the entire territory, while Chiapas has a law permitting only 14 priests. Outrages continue, including the decapitation and burning of a religious statue. The outbreak of hostility to religion is as sudden and violent as it is mysterious.

Professional killers in our crime wave, and high chiefs of the bootleg industry become gradually holder. Charles B. Cavanaugh, police chief of Bernardsville, N. J., made himself objectionable, railed speakers, interfered with bootleg profits. That could not be endured.

The right person, with the right gun, was sent to shoot him dead as he stepped out on his veranda. If today they shoot a chief of police, later they may work up higher through official ranks, to mayors, governors, and so forth.

LIMITED ENLISTMENT FOR ARMY IN OREGON

Recruiting Sergeant Grover Owen has just received word that the United States army, which some time ago ceased to enlist because of being filled to peacetime capacity, is again taking limited enlistments, and that only ten vacancies have been assigned to the state of Oregon.

He will send three enlistment applicants from here tonight to the head recruiting office at Portland, on the chance that they may be allowed to enlist after taking the physical examination, although he fears that the allotment of ten recruits for the entire state may have already been filled from a waiting list of applicants.

WOMEN GIVEN FINES ON LIQUOR CHARGES

Changing their previous pleas of not guilty to guilty when their cases were called for trial in Judge Taylor's court yesterday afternoon, Mrs. Brown and daughter, Bubbles Brown, who were arrested last Saturday in Mrs. Brown's car with two men companions, by state police, were punished by fines.

They were anxious to return to their home in Idaho, and local authorities did not want them here any longer than possible, so Mrs. Brown was fined \$50 and costs for transportation of liquor, and Bubbles was fined \$10 and costs for intoxication.

BERT ANDERSON CAR IN FLAME, DAMAGE LIGHT

Chief Elliott also reported that all restrictions concerning the burning of grass and brush had been lifted, since the recent rain.

until heavy further rains have made the forest territory safe for the remainder of the year.

The only change made in Crater National forest following the early week rainfall is that five emergency forest patrolmen, whose duties consist of patrolling forest roads in dangerous localities searching for incipient fires, have been relieved from duty temporarily and will be sent back to duty as soon as the forest again becomes dry, possibly after a few days of sunshine.

NEW YORK, Sept. 10.—(AP)—The New York Central Railroad company today reduced the quarterly dividend from \$1.50 to \$1, marking the second reduction in the dividend rate this year.

A reduction from the 66 annual rate had been expected in Wall Street. The 66 rate was established May 1 last, with the payment of a quarterly dividend of \$1.50, and marked a reduction from the 48 basis which had been in effect from Aug. 1, 1927.
