

### EXTRA, STANDARD EGGS IN ADVANCE

PORTLAND, Ore., Sept. 11.—(AP) Extra and standard quality eggs advanced two cents a dozen in the local trade Friday morning. Mediums and pullets remained unchanged. The new prices on the top qualities are 25 and 23 cents a dozen, respectively. There has been a scarcity of extra and standard fresh eggs here for the greater part of the week. The butter market here had a very firm tone Friday with a good volume of stock leaving storage. It is predicted in the trade that a general advance of one cent a pound for all grades will be forced before the end of the week. Substantial premiums are being paid for some grades.

 NEW YORK, Sept. 11.—(AP) The stock market was sternly supported today, and managed to close with pivotal shares generally higher for the first time this week. The market failed to show sustained strength, however, until a large volume of liquidation had been absorbed during the morning, which depressed many prominent issues to new lows, including General Motors and General Electric. Today's closing prices for 17 selected stocks follow:  
 American Can 91½  
 American T. & T. 164½  
 Anacosta 20½

### Brisbane's Today

(Continued from Page One)  
 future to let this country go to the bow-wow just now. And it was unfair to the present, when this country was forced on behalf of the future to spend tens of billions in a war that it did not start.

We have all been told ten thousand times that government should not go into any business, and that this government can't run any business efficiently or honestly. The Canadian National Railroad Company, owned by the people of Canada, surprises you with two facts. In Canada railroad public ownership succeeded where private ownership had failed. And the National Canadian railway is able to borrow money now at 4½ per cent on 20-year bonds. How many privately owned American railways could do that just now?

New York has a Sullivan law, making it unlawful for law-abiding citizens to own pistols. All gangsters and other criminals have their pistols, and use them to shoot citizens. The criminal's work is made easier by his knowledge that when he "pulls a gat" on a crowd, it is a crowd unarmed. A bill, suggested, now would prevent "sale or possession" of a machine gun, favorite weapon in racketeering circles. That law would do away with the constitutional provision concerning the right of citizens to bear arms. But it would not interfere with gangster possession of machine guns. They have them already. It is a fallacious idea that by passing another law you can discourage whiskey or gangsters.
