

FIVE MEET DEATH DURING STORM IN SOUTHWEST AREA

Lightning Bolts Strike Down Three in Oklahoma—Winds Account for Two in Southeastern Kansas

KANSAS CITY, Sept. 22.—(AP)—Wind and electrical storms resulted in five deaths and an undetermined amount of property damage in scattered sections of the southwest late yesterday.

The disturbances, coming in the wake of heavy rains which broke an abnormal heat wave and drought, appeared in Oklahoma, Kansas and Missouri.

Three of the deaths were caused by lightning during a severe electrical storm over western Oklahoma. The victims were Oscar Bond, 35, Elmer Patterson, 18, who were working at a wheat farm near Weatherford, and Leonard Sawatzky, 17, who was herding cattle near Clinton.

Winds Kill Two
A windstorm accounted for two deaths in southeastern Kansas. Clinton McKinnis, a farmer, was fatally injured when caught under a falling tree and James Holt, 17-year-old Oswego high school student, was killed by a piece of flying timber.

A tornado swept through a section of Columbia, Mo., damaging buildings at the University of Missouri. Jesse Hall, the administration building, was unroofed. Bryan Horner, a student was injured by a falling tree limb.

CHICAGO, Sept. 22.—(AP)—Paths of damaged property today marked the course of pre-autumnal wind storms that struck in widely separated sections of the heat-stricken midwest. One man was killed and a few persons were injured. The storms struck both Iowa and Wisconsin.

Hugh Whitford, who resided two miles north of Milton Junction, Wis., was the man killed. He met death when he and his mother attempted to get into the basement of their home to escape the fury of the on-rushing wind. His mother was injured. Four other persons near Milton Junction were known to have been injured. Considerable property damage was done.

Tornadoes in Iowa
Iowa was the scene of two tornadoes. One of them, which swept across ten farms between Alnsworth and Crawfordville, ten miles southeast of Washington, in the southeastern part of the state, caused property damage estimated at \$100,000. One woman was injured. Two wagon loads of school children were in the path of the storm, but the driver of one unloaded his group before the wind struck. The other took refuge in a shed, which was unroofed without harm to the children.

CRATERS ACCEPT PROSPECT INVITE

The Craters are going to the Prospect hotel for a dinner dance, October 5, according to invitation read and accepted at last night's meeting of the order at the Hotel Medford.

The invitation, signed "Jim and Mary Crater," and written on Prospect hotel stationery, apparently held a surprise for Jim, who was present. With the reading of the missive, supposedly from his pen, a look of bewilderment spread over his face. The invitation was accepted without comment and as Jim's face paled the Craters announced their expectations for chicken.

Leopard Reed, assistant manager of the western division of the United States chamber of commerce, was a guest at the meeting, as was T. G. Travis, former manager of the Standard Oil company of California in this district. Mr. Travis is now manager in the Los Angeles district but remembers how to pay fines to Craters.

WEDNESDAY FINAL COLOR PAGE DATE

Seven o'clock tomorrow evening is the latest that color pages may be brought to the Mail Tribune office to be entered in the contest which closes the six weeks series. In Saturday's issue of the paper, winner of the \$20 grand prize will be announced.

Over three hundred and fifty pages have been turned into the office during the week, where the children have received their candy bars. Only a portion of the page must be colored to receive the candy.

Each week during the contest, twenty pages have been selected to be entered in the finals. Additional prizes will be given other than the grand award.

STEMMING 3400 BBLs. THE DALLES CHERRIES

THE DALLES, Ore., Sept. 22.—(AP)—A crew of 75 women at the plant of The Dalles Co-operative Growers' association are now 60 per cent through with the task of stemming and pitting 3400 barrels of Royal Anne and Black Republican cherries to be used by Maraschino manufacturers in New York. The work will be completed early in November.

Special Notice.
I will not be responsible for any debts contracted by any other than myself. (Signed) E. H. HANCOCK.

Prize Winning Recipes Of Pear Show Listed

The call for recipes winning prizes at the pear show last week-end was answered today with publication of the first group, taking first honors. Leading the list is the recipe for Boose pear bread, entered by Mrs. C. A. Heath of Ashland, who has been making the bread for a long time, developing a delicious product.

The recipe reads:
2 cups sour milk
1 cup molasses
1/2 cup brown sugar
1 teaspoon salt
1 1/2 teaspoons soda
1 cup dried pears
1/2 cup dried cherries
1/2 cup nuts.

Stir in enough graham flour to make stiff batter. Steam 1 hour. The other three recipes submitted for today are:

First Prize.
PEAR SAUCE CAKE
Mrs. Shepard, Rogue River.
1 cup sugar
1/2 cup butter
2 whole eggs
2 cups pastry flour
1 rounding teaspoon baking powder
1/2 teaspoon soda
1/2 teaspoon nutmeg
1 teaspoon cinnamon
1 cup pear sauce
1 teaspoon vanilla
1/2 cup raisins.

RED CROSS HEAD TO GIVE ADDRESS AT MEETING HERE

A. L. Schafer, manager of the Pacific area of the American Red Cross, who will address the regional conference of chapters to be held here on September 28, was appointed to his present office in March, 1931. He

Beginning in 1926, Mr. Schafer has served the Red Cross first as assistant director and later as national director of disaster relief. In his first assignment, which was to the Florida hurricane zone in 1926, he won high recognition in every phase of his duties, but particularly in the field of family rehabilitation. In the Mississippi flood of 1927 he held the post of reconstruction officer for Mississippi, gaining more and more valuable experience in the intricate problems of returning stricken families and communities to normal and self-reliant conditions.

is making his first circuit of the territory under his direction, and in addition to the local gathering will attend 13 other conferences on the Pacific slope.

In his first assignment, which was to the Florida hurricane zone in 1926, he won high recognition in every phase of his duties, but particularly in the field of family rehabilitation. In the Mississippi flood of 1927 he held the post of reconstruction officer for Mississippi, gaining more and more valuable experience in the intricate problems of returning stricken families and communities to normal and self-reliant conditions.

C. P. Grange Club To Meet at Hall

The meeting of the Home Economics club of the Central Point Grange has been changed from the home of Mrs. A. M. Tyrrell to the Grange hall. The meeting will be held Wednesday and will feature a covered dish dinner.

All Grangers are invited to the affair as Wednesday is clean-up day.
Notice.
I will not be responsible for debts contracted by anyone but myself.
WILLIAM B. BYRUM.

EXCESS acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. It is responsible for most of the everyday ailments that people suffer: sick headaches, sluggishness, nausea, biliousness, slugs on the stomach, etc. The quick corrective is an alkali which will neutralize the acid. The best corrective known to medical science is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention. One spoonful of Phillips' Milk of Magnesia neutralizes instantly many times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to

Cream sugar and butter, add 1 egg at a time, unbeaten, and beat hard; add pear sauce and vanilla; add flour, sifted several times with other dry ingredients. Nuts may be added.

First Prize.
PEAR AND ORANGE CONSERVE
Mrs. J. B. Thompson.
Pare, quarter and put through food grinder 1 1/2 pounds of pears; add 3/4 pound sugar; peel 2 oranges and slice thinly. Let this stand one-half hour; add 1/2 lemon, sliced thin, with peeling left on. Simmer slowly for two hours, or until thick. Add almonds, sliced and cut in small pieces. Put in glass jars and seal.

First Prize.
TWO-CRUST PEAR PIE
Mrs. E. N. Vilim.
Line pie-tin with good pastry; slice into three or four ripe pears; add 1 cup sugar, dash of cinnamon, nutmeg, salt, 1 tablespoon flour and a little lemon and orange juice. Cover with pastry and bake 45 minutes in hot oven; lower the heat after 20 minutes.

GOOD PASTRY
3 cups flour
1 teaspoon salt
1 cup lard.
Blend well and add enough ice-water to make it hold together.

GEOLOGIST GLEANS ADDITIONAL FACTS ON LAKE'S HISTORY

CRATER LAKE NATIONAL PARK, Ore.—(Sp)—Adding to the slowly developing geologic history of Crater Lake, efforts of Dr. W. B. Atwood, geologist of the national park service educational division has revealed evidences for the first time of carbonized vegetation in the inner rim of the precipitous lake walls. He spent several weeks here the past season and made numerous exploration trips to unearth new information.

Earlier in the season Park Naturalist D. B. Libbey investigated the discovery of carbonized wood in the Union Creek section, where it was uncovered during road building operations. Huge logs had been transformed into charcoal and had lain for thousands of years under deep volcanic ash believed to have come from Mt. Mazama before it was destroyed by its own eruptions and developed into Crater Lake.

A geological investigation of Pumice Point, directly opposite the Sinnott Memorial, by Dr. Atwood resulted in the discovery of a layer of soil deep beneath loose fragments. It contained numerous fragments of carbonized material.
Associated with the soil and pumice, Dr. Atwood also found indications of repeated glaciation. He found sufficient evidence to reach the conclusion there were four periods of glaciation, possibly more, in the history of the mountain, believed to have stood higher than Mt. Shasta until its final outbreak resulted in its destruction between 20,000 and 40,000 years ago.

Phoenix Grangers To Meet Tonight

PHOENIX, Ore., Sept. 22.—(Sp)—Regular meeting of the Phoenix Grange will be held at the Grange hall tonight at 8 o'clock. Plans are to be made for attendance of the entire membership at the Eagle Point Grange meeting, October 13, when officers of Phoenix will preside.

Montreal Police Quarters Bombed

MONTREAL, Sept. 22.—(AP)—Montreal police headquarters was shaken early today by an explosion believed to have been caused by a bomb buried at the building.

The first policeman who rushed out of the station in the city hall annex, found a large hole in the sidewalk. Dozens of window panes crashed to the ground.

HOOVER BELIEVES VETS WILL TAKE HEED OF WARNING

Message Received Sympathetic Spirit at Legion Conclave—Children Talk to President Enroute

WASHINGTON, Sept. 22.—(AP)—President Hoover arrived in the capital early today from Detroit where he spoke yesterday before the American Legion.

The train arrived in Washington at 7 a. m. President Hoover shook hands with the engineer and conductor and went immediately to the White House.
The president returned home first in the belief that he had impressed the American Legion convention at Detroit with the tremendous responsibility resting on America to pull the world out of the rough. Sympathy Seen.

Mr. Hoover's belief that his message was received in a sympathetic spirit was based on the warm reception given his statement that the Legion could render a great service by opposing determinedly "additional demands upon the nation until we have won this war against world depression."

At Toledo he shook hands with a few persons and at Willard, O., he gained a new insight into the sharp-witted youth of today.
A group of school children gathered around his car and conducted a lively exchange with the president, unawed by his high office.

"How about a speech?"
"Is school out?" Mr. Hoover asked of one tot, smiling, his face burned from the noon-day sun in Detroit, where he rode bare-headed for several miles.

"Yep," the young student replied unhesitatingly and added: "How about a speech?"
"I made my speech today," the president said.

"Aw shucks," the boy came back. A little girl had other thoughts and asked where Mrs. Hoover was.
"She's back home," the president told her.

RADIO TUBE FIRMS SIGN PEACE PACT

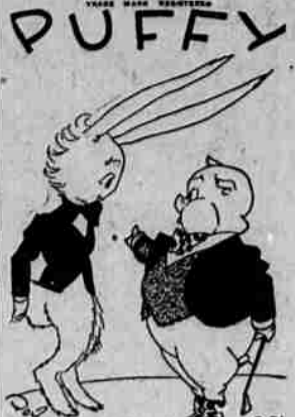

NEW YORK, Sept. 22.—(AP)—The Radio Corporation of America announced today an understanding has been reached for settlement of anti-trust suits involving \$47,000,000 in claims brought against it by 21 vacuum tube manufacturers not operating under license patents of the radio corporation.

The settlement provides for the acquisition of Radio Corporation patent licenses by active companies involved in the settlement.
An announcement by attorneys for the Deforest company said "practically all important tube manufacturers will be licensed on equal terms under Radio Corporation patents with the result that the industry should rapidly become stabilized."

Business training at the Medford Business College pays because it is both practical and cultural. Fall term opens Monday, Sept. 21. Phone 866 for catalog. GWN.

ROAD BILLBOARD TAX CLEARS OUT SCENERY BLINDS

BAITIMORE (AP)—Maryland is pulling down road signs in a big way, in an effort to make the scenery more attractive for motorists.
A recently enacted state law taxes billboards and other signs in proportion to their size and nearness to the roadside, and in two days, state roads commission removed 15,350 signs.

Inspectors will patrol the highways, removing unlicensed signs as they are spotted, it was announced by Harry D. Willard Jr., chief engineer.

The women's garden clubs and other organizations which sponsored the anti-billboard legislation plan tours to combat unattractive signs and to prevent placing signboards on trees.

The law provides that no advertising signs shall be placed within 500 feet of the highways without permission of the commission.

Companies erecting legal signs are taxed from \$50 to \$300 and in addition must pay one-half cent per square foot of advertising space, with a minimum of \$1 a sign.

Willard said 23 major companies obtained permits the first month. 20 others indicated they would discontinue operations because of the charges, and individual permits were issued to 4,100 persons. The state realized approximately \$6,000 in revenue.

Californians Visit Valley Relatives

PHOENIX, Ore., Sept. 22.—(Sp)—Mrs. Betty J. Laird, her son Scotty Laird, nephew LaVerne Green, and mother Mrs. Freda Derheim, all of Berkeley, Calif., and Mrs. Elva Laird of Doris, Calif., spent Saturday night and Sunday at the L. O. Caster home. Sunday Mrs. Betty J. Laird, Mrs. Freda Derheim, Mrs. Elva Laird, LaVerne Green, and the Misses Elva and Sybil Caster motored to Oregon Caves, stopping enroute to visit for a short time at the home of Mrs. Etta Caster at Central Point. On their return trip they visited Mrs. Elva Laird's sister, Mrs. J. W. Pruett, in Medford.
